Farm Truck Law Being Violated Throughout State

Violators Liable To Fines For Violation of Truck Licenses.

A preliminary check shows there may be considerable violation of the law governing the use of farm truck licenses, the Department of Revenue announced in Frankfort.

The law provides that any farmer owning a truck not exceeding a gross weight of 22,000 pounds may register it for a fee of \$4.50. However, to qualify for this registration fee the truck must be owned by a farmer engaged solely in the production of crops, livestock, or dairy products. It can be used only in transporting persons, food, stock feed, and machinery used in operating his farm and transporting the products grown on his farm.

He must also file an affidavit with the county clerk covering these facts, and must have on each side of his truck, in letters at least three inches high, an indication that it is a farmer's truck. The affidavit requirement is met when the clerk's copy of the registration certificate is signed by the farmer at the time of registration.

Violators of the above requirements are liable to fines up to \$100.

New Haven Seniors Will Present Play May 18

The curtain rises on the first act of "High Pressure Homer," the evening of May 18 at the New Haven auditorium and the Woodruff family in all of their mad glory. Each and every member of this family has a hobby and nobody will be able to resist howling with glee at their mad pranks.

Homer Hampton Haywood, portrayed by Scottie Friend, is a young show-off who in spite of his high opinion of himself only succeeds in making a hopeless mess of everything he tackles. Mrs. Woodruff, (Joan Anderson) is inclined to be a rattle-brained and simply adores attending funerals. Her husband, Chester, (G. W. Baker) is a fiend for fires. Their family includes Arlene (Faye Judge) a pretty charming girl who is refreshingly natural and sincere. Boots (Sarah Cook), a sixteen-year-old who believes she is the world's greatest actress, and Junior (Donnie Mason) who is interested in anything that has to do with mechanics. The cast also includes Mrs. Taylor (Elizabeth Rosenstiel) and Bunny her daughter (Babe Kenney) the next door neighbors, Aunt Cora (Della Jones) Mr. Woodruff's sister, Tom Wainright (Ronnie Crume) a well-groomed gentleman with an engaging personality, and Chetwyde Cluett (Charles Flynn) a tall imposing man of fifty.

Tickets may be obtained at the door. Curtain time, 8:00 p. m. Admission, reserved seats 50c, adults 40c; students, 25c. You'll have one of the most amusing and entertaining evenings you have ever spent.

Improve Community Sanitation By Spraying

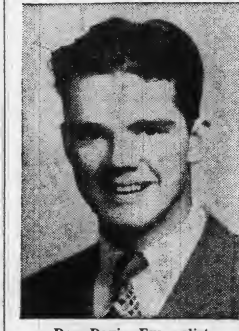

This year more than ever before fly spraying is being considered as a part of programs to improve community sanitation. Conditions which produce large fly infestations will also support a large rat population, S. A. Lacy, Assistant Director, Communicable Disease Center, points out.

In order that the degree of sanitation in each community be known, it is suggested that county sanitarians make a spot check survey of the following: garbage and refuse, excreta disposal facilities and special fly breeding problems.

It is further suggested that sanitation improvement programs be of three to five years' duration, and that organizations or interested citizens form committees to carry out special projects.

Since there is an insufficient number of power sprayers available through the CDC office, communities which show an interest in doing an over-all sanitation program will be given priority rating.

Garden Club Meets At Cedar Craft Gift Shop

Mrs. Nell Markland of Francesville was a visitor of the Boone County Garden Club and talked to the members about Big Bone Springs and other historical facts of Boone County. Mrs. Markland stressed the point that people all over are interested in the history connected with the springs and that Boone County residents should develop more interest than has been shown in the past.

Mrs. Geo. Casper gave very helpful information on Rose Cultures. He pointed out several important factors. Remember to have a good sunny location away from tree roots as roses should get 4 or 5 hours of sun each day. The rose bed should have good drainage and of course, good soil. Roses like plenty of water, but don't like wet feet. Clinders in the bottom of the bed help a lot. Buy good plants with plenty of feeder roots and when setting out be sure to dig the hole large enough so the roots are not crowded. Fertilize only twice, about 3 weeks or month after setting out and again in 30 days. Cultivate shallow and cover plants regularly with a good rodesud. Water roots well but keep the leaves dry. Keep all dead flowers picked off and protect plants well during the winter months. Be proud of your roses.

In response to a motion made by Mrs. Geo. Casper, the Garden Club will sponsor a movement to help keep the roadsides clean, and will seek means to discontinue the dumping of cans and trash along the roadside and on farm property.

The club was glad to enroll three new members, Mrs. C. F. Blankenbaker, Mrs. Fanny Scott, of Florence and Mrs. F. O. Smith, of Burlington.

Mrs. Sterling Dickey and Mrs. Charles Clure, hostesses for the day served delicious refreshments to Mesdames Sam Denham, Sr., R. C. Garrison, Harold Conner, Geo. Casper, John Dye, R. H. Carter, Ruby Hollis, T. H. Hensley, Sam Denham, Jr., Stuart Maddox, C. F. Blankenbaker, Fanny Scott, F. O. Smith, Nell Markland and Ralph Cody.

After adjournment everyone enjoyed looking at the many beautiful gifts at the Cedar Craft Gift Shop.

Price Stabilization Aids Consumer By Unseen Actions

Price Regulations Being Established On Many Consumer Items.

Many unseen actions of the Office of Price Stabilization are undertaken to aid consumers by stabilizing and controlling prices at all levels of production, the Cincinnati OPS District office points out.

"You might say that the task of stopping inflation and setting ceiling prices begins at the mine and with the crop," the OPS statement said.

An example of the task of assuring the American public fair prices and insurance against the dollar destroying threat of inflation is the recent group of beef and livestock price regulations. The beef pricing order and livestock orders are now in effect. Retail butchers are required to post their ceiling prices on beef by June 4, 1951. Consumers are entitled to see these prices, and to be sure what they should pay for beef cuts. The prices are those of the January levels when all prices were frozen.

To establish this retail beef price it has been necessary to reduce by 10 percent the prices at which slaughterers may buy beef cattle. There will be two further reductions in livestock prices and in wholesale and retail beef prices so that by October 1 consumers should be paying around seven to eighteen cents a pound less for their beef, depending on grade and cut. At that time livestock prices will still be around 125 percent of parity, or 25 percent above the figure considered fair to the farm in relation to the prices he has to pay.

Right now OPS is stabilizing \$10 billion worth of commercial and personal services furnished by more than a million establishments under a ceiling price regulation. Known as Ceiling Price Regulation 34, the order will be effective May 16. The OPS District office said the new order would benefit the public by making prices clearly visible in every retail service place. All establishments must post their prices in a prominent position within 30 days. While substantial price changes, up or down, are not expected to result from this regulation, it retains the ceiling price provisions of the General Ceiling Price Regulation including the base period of December 19, 1950 to January 25, 1951. Service stores and offices in this area must file their prices with the Cincinnati OPS district office.

OPS is also preparing price regulations covering the manufacturing of wool yarns and fabrics, textiles, apparel and other consumer needs. These and numerous other orders are designed to control the basis of establishing costs. Markups and other factors that make up price. Like the recently issued manufacturing order and machinery order, these actions provide a basis of pricing that will be reflected later on in the stabilized and often lower prices of things consumers buy.

In another field OPS has extending indefinitely the manufacturers' ceiling price on automobiles and provided an adjustment in prices to account for the fact that deliveries with spare tire and tube are now prohibited by the National Production Authority. No price increase above the level set by interim automobile regulations will be allowed except to the minimum extent required by law for special reasons of public policy, states Eric Johnston, Economic Stabilization Administrator. He said that ceiling prices will normally be considered generally fair and equitable if the dollar profits of an industry amount to 35 percent of the average of the best three years from 1946 to 1949.

While most things consumers buy have been sold under the General Ceiling Price Regulation issued last December, OPS has considered this only a stop-gap or hold-the-line measure. The objective now is to develop regulations that fit the exact methods of individual industries and businesses to their actual costs and prices can be more firmly controlled. These controls generally provide for reflection of actual increases in production costs since June 1950, or Pre-Korea, after which the inflationary forces became very strong, under this system the consumer is expected to gain increased benefits and the problem of stabilization tackled from "the mine up." Consumers can expect prices to range from about present levels to lower prices as their retailers replace present

stocks with new merchandise that has been made under the regulations issued this spring and summer.

"It is a job as big as all America" OPS said "But all America is threatened today with a destructive inflation that will grow more damaging if uncontrolled as defense demands intensify in the coming months. Everything the consumer can do to cooperate in keeping America prosperous will help. Summed up, the consumer can help most by buying wisely, by buying only actual needs and by paying no more than ceiling prices. Save the dollar by saving dollars."

Statewide Motor Vehicle Check Will Be Made By Police

Purpose of Check Is To Insure Greater Safety On Highways.

The State Police are now making a statewide motor vehicle check which started May 14 and will continue through May 18th, it was announced by Capt. Estill B. Jones. Jones said the purpose of the check is to insure greater safety on the highways for summer travel and to attempt to curb accidents by spotting vehicles with mechanical defects and instructing the owner to have them repaired.

The inspection will be carried on in or near all cities and towns throughout the state. In some towns where the city police wish to cooperate, inspections will be held on the outskirts of the town.

State Police officers will inform the driver that it is a voluntary inspection. "We hope," Capt. Jones said, "the public will cooperate with us to the fullest because it is for their own benefit."

Such things as vehicle license, operator's license, brakes, lights, horn, windshield wipers, tires, vision, and steering mechanism will be checked. Special attention is to be taken with milk windshields, or any vision obstruction on either the windshield or rear glasses.

These inspection procedures are to be followed. One Trooper stops the car, checks for operator's license, and informs the driver that it is a voluntary vehicle check. He then checks the headlights, including a dimmer, steering wheel, horn, windshield wipers, and asks the driver to proceed to the next officer at 15 miles per hour and apply his brakes suddenly.

The second Trooper is about 30 feet from where the car stopped has checked to see if the headlights were on and dimmed when the first officer asked the driver to turn them on. He also checks the brakes and tail lights. The first officer makes out the inspection slip and the second one issues all warnings and citations.

A vehicle that passes the inspection will receive a sticker to be placed on the right ventilator window, not on the windshield.

"Special attention is to be paid to older model cars and trucks. No one will be held up for this inspection for an unreasonable length of time," Jones said.

Month Of May Is Defense Bond Month Throughout Nation

Firms Are Requested To Install Payroll Savings Plan.

Throughout America, the month of May is being celebrated as both Defense Bond Month and Tenth Annual Anniversary of the Series "E" Bonds. During this period, all Americans are being asked to buy an extra Defense Bond either through the Payroll Savings Plan where they work or through their bank or post office.

In several sections of the State newspaper carriers have joined in a Joint Defense Bond Pledge Campaign which will run from May 14 through 19. During this period, it is expected that approximately 250,000 Defense Bond pledges will be distributed to the front doors of Kentucky homes. This is a direct appeal by the carriers to those Kentuckians to participate in both the Korean war effort and the Defense program.

During the past month Boone County purchased \$3,393.75 and during the first four months of the year have purchased a total of \$39,581.25, while cumulative sales for 1950 amounted to \$85,405.25.

ARE YOU READY for
the MILK INSPECTOR?

He may already have paid you a visit, or may be coming tomorrow or next week. You'll want to be ready for him... If not actually fixed up on your barn, then ready with plans as to what you want to do.

He's generally a cooperative fellow. He wants to be helpful. He usually has good, sound advice. He knows that to make money in dairying today, a farmer must have the tools to work with... a clean herd, a clean, sanitary stable and labor saving equipment—and that New Jamesway Barn Cleaner.

We'd like to help, too, in whatever remodeling work you have in mind. Jamesway is back of us with the "know-how" and experience when it comes to turning profit-taking barns into profit-making ones. Come in and let's talk it over. No obligation, of course.

RUPTURE SHIELD

EXPERT HERE

E. J. MEINHART, widely known expert of Chicago and Michigan will be at the Gibson Hotel in Cincinnati for 3 days, Sunday, Monday and Tuesday, May 20th, 21st and 22nd. Office hours 11 A. M. to 5 P. M. only. Positively no evening office hours. (25 years successful record—thousands recommend him).

Scientific research is constantly providing new relief for many afflictions. The Meinhardt Laboratory has now produced the improved Meinhardt Rupture Shield. It is also used for many Ruptures which have repeatedly returned after surgical operations or injection treatments.

Caution: If neglected, Rupture may cause weakness, nervousness, constipation, headache, dizziness, pain in back or stomach and dangerous strangulation.

Every man in this vicinity having a Rupture is invited to see this Shield during the above stated office hours. There is also no charge for private consultation. If desired, orders may be placed for immediate or future delivery. This demonstration is for men only.

May the State take up from here and carry to completion a road so badly needed, as promptly and as consistent with conditions, as they present themselves.

Tomato Blight Control Outlined By County Agent

Thousands Of Dollars Worth Of Tomatoes Ruined Last Year.

Last year thousands of dollars worth of tomatoes were ruined by tomato blight, according to Bill Davis, County Agent. Recommendations for blight control are the same as last year but rigid adherence to the schedule is emphasized.

The material to use is one of the "fixed copper" sprays, such as Copper-A-COP, Copper King, Tri-Basic Copper Sulphate, Dithane or Parzate. Two level tablespoons to each gallon of water makes a satisfactory spray. Cover the plants thoroughly and spray every 7 days until frost. Begin spraying now. One might wait a few weeks before starting the spraying as long as the weather remains hot and dry, but this is a compromise and will give only partial control.

Remember that blight can't be cured, the only control is to prevent its getting a start.

Insects causing considerable damage to small tomato and potatoes are black fleabeetles which ride the leaves and cause them to turn yellow. The control of this insect is rotenone, DDT or Methoxychlor.

Rotenone and Methoxychlor are especially desirable on vegetables whose leafy parts or pods are to be eaten soon after treatment. Methoxychlor is probably the best as it can be used on all vegetables in the garden. Use 2 level tablespoons of methoxychlor in one gallon of water. Spray every 10 days until the insect disappears.

Cabbage insects such as green worm, cabbage lice and gray beetles will be among the first to appear in the garden. Rotenone spray or dust, 3/4 strength, will stop all three.

Gate Signs Purchased For Farm Bureau Members

The Boone County Farm Bureau have purchased gate signs for their members at cost. The signs are metal and are 14 inches by 10 inches and the member's name will be painted on it. The sign also has on it the words "Member Farm Bureau" and the emblem of the Kentucky and American Farm Bureau.

All Farm Bureau members have been contacted about ordering the signs, and orders are to be placed with the secretary, John E. Crigler, not later than May 25. Several of the other Farm Bureaus in nearby counties are using these signs and it is believed that they will not only aid the members but boost the Farm Bureau as well.

Federal Admission Tax On High School Athletics Erased

Action Taken By House Ways And Means Committee.

Some relief is in store for the high school athletic programs, it was announced last Friday when the House Ways and Means Committee voted tentatively to erase the federal admission tax from high school athletic contests and other gatherings when proceeds go to the school or other nonprofit organizations.

During the past several years athletic directors of the various high schools have had quite a problem in keeping the assets of the athletic funds balancing with liabilities due to the increased cost of equipment, etc. Removal of the federal tax will ease the situation

somewhat, according to coaches and athletic directors.

Admissions to wrestling and boxing matches, carnivals, rodeos or circuses when professionals are paid would not be exempt from the one-cent-per-five cents of admission tax. Tax will still apply to college sports, it was explained.

It is estimated a total of \$16 million will be lost through the move.

Booth Hospital Campaign Goes Over The Top

Contributions Totalling \$50,651.33 Received According To Chairman.

R. C. McNay, Erlanger, campaign chairman of the Booth Memorial Hospital fund-raising drive announced the drive is "over the top" with contributions totalling \$50,651.33 received.

The announcement was made at a "work" report meeting held at the Covington Masonic Temple. Addresses of appreciation were given "for the loyalty of you grand people" by Major Wood and Senior Maj. Paul D. Seller, divisional commander of the Salvation Army.

Mr. McNay expressed the hope that drive workers who have not completely canvassed their territories will finish their solicitations in spite of the fact that the drive has reached its goal and that they will not delay in submitting complete reports of their solicitation.

"The amount of our goal represents the minimum of the hospital's requirements in the primary campaign to serve our communities," he explained. "This grand humanitarian institution needs all the financial assistance possible."

Farm Bureau Has Nine Meetings Scheduled

Kentucky Farm Bureau Federation is scheduling 9 meetings over Kentucky this week in order to explain price controls on live beef animals which went into effect May 20, 1951.

The meeting nearest this area was held at Lexington, May 23, at the Livestock Pavilion, Experiment Station, at 7:00 p. m.

A group of Farm Bureau members from Boone County attended the meeting. They urge that all farmers write to their senators and congressmen asking them to vote to lift the wage and price provisions of the Defense Production Act, which expires June 30, of this year.

Prices by October 1, 1951 will be reduced by 18% to farmers on beef cattle if the present law is not altered. This means that beef farmers will lose heavily and the same rigid price controls will later apply to other commodities.

Officials of the Farm Bureau urge you to take an active stand on this measure by your membership and by contacting your senators and congressmen.

Miss Myrtle Beemon and Mrs. Alice Arrasmith were shopping in Erlanger, Friday afternoon.

Poppies To Honor Dead Of Three Wars, May 26th

Auxiliary President Urges Everyone To Wear Memorial Flower.

Mrs. Frances Souther, president of Boone Unit No. 4, American Legion Auxiliary has asked that everyone wear a poppy on Poppy Day, May 26 to honor the dead of three wars.

Originally the memorial flower for World War I dead, the flower has come to symbolize the memory of those who have died for America anywhere in the world. It is now the memorial flower for the dead of World War II and for those who have died in the Korean conflict.

More and more of our young men are leaving their homes to face death in the nation's service. It is therefore more important than ever that the little poppy be worn over every heart.

More than 10,000 disabled veterans have been given profitable employment during the winter months shaping the little red flowers which will be worn in honor of their fallen comrades on Poppy Day. It has not only afforded them money but been valuable as occupational therapy.

Plans have been completed for Poppy Day in Boone County and it is the only day they will be sold in the county by the American Legion. The prize winning posters for Poppy Day will be displayed in Brophy's window, Florence, Ky.

OPS Removes
Certain Luxury
Food ItemsFrom Price Control At
Wholesale and Retail
Levels.

The Office of Price Stabilization has removed certain luxury "specialty" food items from price control at wholesale and retail levels, and at the same time issued three companion amendments to the grocery regulations, setting up new commodity category definitions in chart form. Ben Stoner, Cincinnati District OPS Director has been notified by Washington.

Amendment 1 to COR 7, and Amends. 2 to COR 14, COR 15 and COR 16, are effective now.

The "specialty" food items exempted from price control by Amendment 1 to COR 7, are recognized luxury items, including many food items imported in consumer size containers such as Hollandaise sauce, brandied and stuffed fruits, wine gelatins and jellies, wild game, cocktail mushrooms, truffles, etc. These items exempted are of minor significance and have little, if any effect on the cost of living, or any material effect on the general level of prices, OPS officials said.

Amend. 2 to COR 15 and COR 16, (1) redefines food commodity category groups; (2) lists food items in each group which are subject to GPCR, or other applicable regulations; and (3) lists food items which are not subject to price control at wholesale and retail.

The changes in the defined commodity category groups are minor and are made to put some food items in the proper category group, and indicate certain food items not included in the category, OPS officials stated.

The amendment also provides a ready reference guide in chart form, clearly indicating by category groups those food items included in the regulation, those which are excluded and covered by other regulations, and those excluded from price control entirely.

Amendment 2 to these regulations (issued May 10, 1951) excluded certain stores selling mostly "specialty" foods from using the markups in the regulations under certain conditions. Amendment 3, issued May 18, 1951, relieves sellers unable to qualify under Amendment 2 from using the markups in the regulations in the sale of "specialty" food items, OPS said.

ARE YOU READY for the MILK INSPECTOR?

He may already have paid you a visit, or may be coming tomorrow or next week. You'll want to be ready for him... if not actually fixed up on your barn, then ready with plans as to what you want to do.

He's generally a cooperative fellow. He wants to be helpful. He usually has good, sound advice. He knows that to make money at dairying today, a farmer must have the tools to work with... a clean herd, a clean, sanitary stable and labor saving equipment — and that New Jamesway Barn Cleaner.

We'd like to help, too, in whatever remodeling work you have in mind. Jamesway is back of us with the "know-how" and experience when it comes to turning profit-taking barns into profit-making ones. Come in and let's talk it over. No obligation, of course.

Sketches Of Old-Time Petersburg Residents As Written By E. Y. Chapin

We are in receipt of a couple of sketches of old-time inhabitants of the Petersburg community, written by E. Y. Chapin of Chattanooga, Tenn. The sketches follow:

Brother Bristow
The sons of older year and the "exhibition" of the "select" school of long ago, are things remembered by the old. Attending them, two other figures emerge from the past: the old-fashioned circuit-riding, who sang as well as preached; and the old-fashioned teacher of the village school.

Of these, Brother Bristow had the more intimate connection. Our village Methodists could afford only one "preaching Sunday" in the month. When Brother Bristow came to fill it, his presence was a benediction. Generously built, his snow white hair framing his kindly face, his eyes beaming benevolence, he was a fit apostle of brotherly love.

He could preach of course—always of God's love; if he had ever heard of divine wrath he never chose to speak of it—but he moved us most by his singing. He told this story of himself. He was riding to a rural church where he was holding a revival. Another horseman joined him on the road. Brother Bristow asked where his fellow-traveler was going.

"To the revival," he answered. "Who is holding it?" Brother Bristow asked. "An old fellow named Bristow," replied the stranger. To which Brother Bristow inquired "Is he much of a preacher?" "I haven't heard him," said the stranger "but they say he can sing like an angel but can't preach worth a damn."

At the conclusion of his sermon, Brother Bristow would sing a solo without accompaniment. He would render it in a voice of wonderful sweetness, compass and power, expressing the sentiment of the song with understanding and sympathy.

were in sympathy with him; but he showed no resentment of criticism which came to him from those whose religion was of a sterner sort. The popularity which he enjoyed was never sought. He never hesitated to espouse an unpopular cause. He bore his share of prejudice—racial, religious, political—without a murmur. It never varied his course by a hairs-breadth from the path his ideals had set.

He was keenly interested in the progress of the greater world outside his village. He sought to bring the varied phases of its development to his own community. His dream of a waterworks for Petersburg is still unrealized after two generations. Some day its realization will stand as a monument to a man who thought beyond his time. But he did care for our cemetery when the rest were neglecting it. He gave it a temporary resting place for our dead long before any other community of our size enjoyed such a thing.

He appreciated the possibilities of our river banks while others were neglecting them. He did what he could to make them slightly; and to afford us a place of rest and recreation there. When others were indifferent about our steamboat landing, he did what he could to make it more convenient and accessible.

His was a fraternal spirit. He loved to touch shoulders with his neighbors; to join them in organizations that worked for relaxation and enjoyment as well as for the higher things of life. He was a leader among the Odd Fellows; and he, more than any other, promoted and encouraged the Sons of Temperance when the work of that organization was sorely needed. He brightened village life in many ways; and his touch was always kindly, intelligent, and helpful.

He was of my grandfather's time; and his contact with me, and with others of the village's youth, was that of an old man with children. We tried his patience sorely; yet it never failed. He understood us better than we knew ourselves. He had a kindly sympathy with our pursuit of happiness in boyish ways that seldom appears in riper age; a tolerance for our waywardness that I rarely look back upon it.

The boys of the seventies and early eighties owe him a deep debt of gratitude. I wish that these belated words of appreciation might reach him, somehow, in that better world of which we dream; and which he was so peculiarly fitted to enter.

OUTLINES PROGRAM FOR SMALL FARMERS

Speaking to the Pine Knot Kiwanis Club, W. C. Johnson of the State College of Agriculture and Home Economics said owners of small farms should be encouraged to produce large returns on small acreages. He thought they should grow strawberries, raise chickens, and either dairy or raise beef cattle on the cow-and-calf plan. This should be the program where there are at least 20 acres of cropland, he said.

This newly organized Kiwanis club is giving major attention to improving farm income in McCrory county according to George D. Corder, county agent.

Muhlenberg county farmers have located a supply of goslings for use against crabgrass in their strawberry patches.

Four Die In Crash Near Walton On U. S. 25 Sunday

Seven Others Injured According To Reports; Cars Demolished.

Four persons were killed and seven others injured, one seriously, in an early morning collision Sunday between two automobiles on U. S. 25, just outside the city limits of Walton.

Those killed in accident are Robert Callahan, 44, 2472 River Road, Cincinnati, driver of one car; his wife, Mrs. Flora Callahan, 27; Patricia Rose, 9, 2919 Sidney St., Camp Washington, passenger in the Callahan car, and Eugene Fryman, 20, 117 W. Ninth St., Newport, Ky., driver of the second car.

Passengers injured in the Callahan car were the dead girl's parents Jack Rose, 30 and Mrs. Modena Rose, 27 (he suffered a left leg injury and she a head injury); Laura Callahan, 15, 1048 Freeman Ave., Cincinnati, cousin of the driver; head injuries, and Mildred Callahan, 15, daughter of Mr. and Mrs. Robert Callahan, cuts and head injuries.

Injured in the other car were Donald Deaton, 15, 939 Columbia Ave., Newport, face cuts and right jaw fracture; James Orcutt, 16, 413 Hodge St., Newport, left leg fracture and face cuts, and Norman Turner, 17, 708 Isabella St., fractures of left leg and both wrists and serious cuts.

Norman Turner was the most seriously injured of the seven. The other injured were reported to be in fair condition at St. Elizabeth Hospital, Covington.

Although it was not determined as to what caused the accident, one witness supplied police with the Ohio license number of an automobile which was at the scene at the time of the collision. Judging from the position of the two wrecked cars after the crash, it was thought that the third car might have pulled into the highway. The Callahan car made a 90-degree turn after the impact and the second car turned over in the middle of the highway.

The dead were taken to the Chambers and Grubbs funeral home, Walton by the ambulance of the Hamilton funeral home, Verona, Ky. Passing motorists and a Hamilton funeral home ambulance moved the injured to the hospital.

State Police Sgt. Issues Warning To Kentucky Children

Should Not Play With Or Touch Dynamite Blasting Caps.

A state-wide warning to children was issued last week by State Police Sgt. Willard Blackburn, cautioning them not to play with or even touch dynamite blasting caps.

Dynamite blasting caps are shiny copper or aluminum cylinders that are loaded with a powerful, sensitive explosive which can put out an eye or tear off a hand or foot.

"If blasting caps or any other form of explosives are found, do not touch them. Call the local police, sheriff's office, or the State Police at once," said Sgt. Blackburn.

"We have been asked by the International Association of Chiefs of Police in cooperation with the Institute of Makers of Explosives to seek the help of everyone to make a determined effort to carry this warning to all children."

"Maybe we haven't had many accidents of this type in the state recently, but that doesn't mean that we should not do everything possible to guard against them."

"Often caps are left lying around in unlocked tool sheds, barns, or alongside highways and railroad tracks. We would like to caution all workmen and farmers to keep all explosives under lock and key. Don't be responsible for a painful and often permanently crippling accident to some child by your carelessness," Blackburn said.

Results of a national survey revealed that blasting cap accidents to children between the ages of seven and fifteen years of age occurred in 28 states during 1950.

Two Boone County Girls Save Car By Quick Action, Monday

Two young girls, Miss Virginia McGlasson and Miss Sue Hetzel both of Boone County, while on their way to work Monday morning noticed a car smoking and alight under the hood. The car was saved from complete damage by their efforts.

Such bravery on the part of two young girls is outstanding, and they are to be commended on their quick action.

Major Helms was born in Petersburg, Ky., where he acquired his formal education. He began his military career in June, 1935 as an enlisted man with the 10th Infantry Division and, after a tour of duty at Ft. Thomas, Ky., re-enlisted in the Coast Artillery at Ft. Shafter, Hawaii.

June Slaughter Quota Is Reduced, Says OPS Director

Formal Regulation Putting Quotas Into Effect Will Be Issued.

The Office of Price Stabilization has announced June livestock slaughter quotas to assure an equitable distribution among slaughterers of the month's livestock marketings. Ben Stoner, Cincinnati District OPS Director has been informed.

While the June quota for cattle to be slaughtered for civilian consumption is set at a lower percentage of the 190 base than the May quota, OPS pointed out that it will be raised if the total supply of marketed animals during the period is sufficiently large, the announcement said. OPS said a formal regulation putting quotas into effect will be issued.

The quotas are set to equitably distribute all livestock slaughtered among all registered slaughterers, and they do not limit in any manner the total quantity of livestock that may be marketed during the period.

The cattle quota for civilian use for the month is set at 80 percent of last June, and it is anticipated that military consumption will take about another seven percent. The quota for May was set at 90 percent of May, 1950 but included both civilian and military slaughtering. During the month, however, increased military demand required the increase of some individual quotas. Total slaughter for May is running about the estimated 90 percent. The slight reduction, OPS said, is made to insure equitable distribution in case various factors affecting the market reduce the total marketings of cattle. If marketing for June exceeds present estimates, these quotas will be increased during the month.

The swine quota is being increased from 710 percent in May to 15 percent for June, while the quotas for calves, sheep and lamb remain at 80 percent, the same as last month. Quotas, OPS officials emphasized, do not decrease or increase total meat supplies but operate only to distribute livestock coming to market equitably among registered slaughterers.

OPS has made and will continue to make special adjustments in areas where heavy marketings occur. For example, in one area hog marketings exceed estimates and slaughterers were permitted to slaughter additional quantities, charging such slaughter against June and July quotas. In another area calf receipts were exceptionally heavy due to a rush to market after flood conditions held down marketings during the preceding weeks. Slaughterers buying in that market were permitted to slaughter in the first half of their quota period more than 60 percent of their May quotas. The 60 percent limitation applying to slaughter in the first half of quota periods is used to keep slaughterers from using up their quotas in the first half of their quota periods.

If June marketings exceed the estimated amount on which the quotas are based, OPS said quotas will be revised promptly to provide for the slaughter of all livestock coming to market. OPS officials keep in close touch with slaughterers and livestock markets and are able to cope with these special problems as they occur. The June quota percentages apply to accounting periods starting May 27. Slaughter quotas are on a live weight basis.

Livestock marketing during June, OPS said, probably will be influenced by a number of factors which ordinarily would not come into play. Congressional hearings on extension of the Defense Production Act and the placing of dollars-and-cents ceiling prices on beef and cattle may influence the judgment of producers as to when they market their animals, particularly cattle. The effect of these possibilities cannot be accurately foreseen at this time. In order to assure each area of the country its share of the livestock that is actually marketed, quotas must be set at levels which will enable each registered slaughterer to get a fair proportion. Without quotas or with quotas set at too high a percentage, some slaughterers would obtain more than their share while others would have trouble getting their portion of the livestock coming to market. Unless each slaughterer can obtain his livestock supplies in proportion to those of other slaughterers, some areas would have larger meat supplies than others.

Mr. and Mrs. E. C. Ruppert and daughter spent Sunday with Mrs. Lillian Wilhelm in Frankfort.

Farm Bureau Group Oppose Roll Back In Beef Prices

Boone Countians Attend Meeting At Lexington May 23rd.

Strong opposition to the roll back in beef prices being waged by the Farm Bureau in district meetings held last week over Kentucky.

The meeting held May 23, at the Livestock Pavilion on the University of Kentucky grounds at Lexington was attended by J. Lassing Huey, James B. Jones, William E. Davis, Stanley W. Eichholz, H. E. White, William B. Rogers, Jr., Beckham Shields, Joe Dringenberg and John E. Crigler.

John Koons, special representative of Farm Bureau urged all farmers to write their congressmen and senators to vote to kill the wage and price provision of the Defense Production Act which expires June 30 of this year. The roll back calls for a reduction in beef prices which will be 18% by October 1, 1951. The Congressman to write in this district is Hon. Brent Spence, Washington, D. C. The Senators, Earle C. Clements and Thomas Underwood, Senate Building, Washington, D. C.

Assistant Secretary of Agriculture, Ford told beef farmers that their department was behind them in the fight and would do all in their power to help maintain fair prices. Otto Tabb, of University of Kentucky outlined the costs of producing beef and showed that the present prices are not too high. He also pointed out that the average per hour paid to factory workers will buy more pounds of meat to eat than it would in 1929. It was also pointed out by Jack Welch, President of the Owen County Farm Bureau that whereas beef farmers are facing a roll back in prices, meat and butcher employees have been given a 9-cent an hour raise.

It was unanimously agreed that a resolution be drafted showing the farmers' point of view in regards to the beef price roll back and be submitted to all Senators and Representatives in the central and northern Kentucky Counties as well as to the Secretary of Agriculture, Brannon and Vice President, Barkley.

John E. Crigler of Boone County, James Cox of Fayette County and Otto Tabb of the University of Kentucky were named on the resolutions committee. The resolution drafted by the committee was promptly read and approved by the farmers present.

Fire Destroys Farm House Near Burlington Saturday

Loss Is Estimated At \$7,000; Insurance of \$1,500 Carried

Fire of undetermined origin destroyed a large 7-room house on the farm of R. H. Fields, 2½ miles north of Burlington on the Burlington-Bullittsville Road, early Saturday morning.

Mr. and Mrs. Fields had prepared their breakfast in the kitchen of the home. Following breakfast they had gone to the barn to take care of the livestock. Mr. and Mrs. Fields were unaware of the blaze until they started to return to the house. The blaze had gained such headway that they were unable to reach their telephone. A neighbor summoned the Burlington Volunteer Fire Department when she noticed the blaze.

Cause of the fire was undetermined. The blaze started in the kitchen of the two-story frame structure, and had gained such headway that it was practically impossible to check the flames. Firemen fought the blaze for 1½ hours before bringing it under control.

Loss to the building and contents was estimated at approximately \$7,000 which was covered by only \$1,500 insurance, according to reports. Contents of the building were a total loss.

The front of the two-story building was saved by firemen, but was badly damaged by water. A large pond nearby furnished a ready water supply in fighting the blaze. Both units of the Burlington Fire Department were put in use.

Alcoholic Beverage Control Board Set Up New Regulations

Forbids Whiskey and Beer Licensees To Permit Minors On Premises.

Frankfort, Ky., May 23—The State Alcoholic Beverage Control Board today adopted a sweeping regulation which forbids whiskey and beer licensees to permit minors below eighteen years old to congregate on the premises for any purpose.

Simultaneously, the Board decreed that minors under twenty-one may be permitted on licensed premises of drink establishments where the principal business is either grocery, drugs, private club, or that portion of a hotel or restaurant separated by permanent partitions from the licensed premises.

The regulation, according to Chairman Guy C. Shearer, will take effect July 1, 1951. It was adopted by unanimous vote of the Board. Its purpose is to keep minors from congregating in bars where intoxicants are sold.

The Board acted upon recommendation of a number of religious and civic groups in adopting the new order.

"The Board has wrestled with this perplexing problem for many months—working with highminded persons of all walks of life in attempting to find a proper answer to it," said Mr. Shearer. "We appreciate their efforts and trust the regulation will go far to promote its intended cause, and alleviate many social evils."

From the Editor's Desk

Still Needed

Is the private electric power industry no longer needed? Should the government—as the socialists have long argued—take over the whole job?

Apparently one very important government agency—the Atomic Energy Commission—doesn't think so. It will soon build a new Atomic Energy Production Plant near Paducah, Kentucky. The installation will consume very large amounts of power. Initially, AEC planned to get its entire requirements from the Tennessee Valley Authority. Now, however, it has approved a new plan. Half the power will come from TVA. The other half will be provided by a group of business-managed utilities, which have banded together for the job under the name Electric Energy, Inc. The suppliers will build new steam generating facilities, located in such a manner as to provide maximum security and to assure the most dependable supply of power for this all important plant. The facilities of both Electric Energy, Inc., and

TVA will be completely interconnected. AEC's reasons for getting its power in this fashion are interesting. It believes that bringing entirely different power networks into the picture will give greater assurance of continuing supply—the electric eggs will not all be in one basket. And, it stated, the sharing of the power load by the public and private systems will result in a considerably lower initial capital investment by the government.

It is worthy of mention that Electric Energy, Inc., offered to supply the entire load. Regardless of that, the fact that half of this huge government job will be done by private enterprise—which, of course, pays taxes and uses its own money, as contrasted with tax-free, tax-subsidized socialized system—is significant. Private enterprise is still the bulwark of our strength.

ORNAMENTAL PLANTS INJURED THIS WINTER

By N. R. Elliott

The severe freezing weather that we had in most sections of the state in November injured many of the ornamental plants used in landscape work. In the vicinity of Lexington, some plants appear to be dead but close examination shows that there still is some live wood. Reports from other sections of the state indicate the same conditions.

Some of the broadleaf evergreens like Leatherleaf Viburnum, Mahonia and Cherry Laurel have been injured considerably. In one or two instances, the Abelia and Euonymus plants have been more or less damaged. The early blooming Spreas, slendened Deutzias, and a few of the Forsythias have been injured. Most of the evergreens seem to have escaped serious injury; however, a little has been found on a few Taxus and Firs.

Home owners should not be in a hurry to cut out this injury; wait until the plant has had a chance to begin to grow in the spring and then remove the dead parts. Use a sharp knife or pruning shears and make a clean cut just below the dead branch or stem.

Of course, the injured plant should be cultivated and fed just as soon as the soil can be worked. Loosen the soil two or three inches under the spread of the branches and scatter good, high-grade fertilizer over this area. Follow the fertilizer with water to wash it into the soil and hasten its dissolving so the plant can use it. Good, well-grown shrubs should have from one to three pounds of fertilizer per plant, depending on their size; evergreens that are three to four feet tall, two pounds, and plants that are six to ten feet tall, three pounds of fertilizer.

SPRAYING PRODUCES APPLES IN JOHNSON

Now that the apple spraying time is at hand, Manuel B. Arnett, farm agent, calls attention to the success of many fruit growers in Johnson, the majority using the complete spray program. Last year was the best fruit year since he came to the county, he said, in reporting the following:

Trimble Harris of Winifred produced around 4,000 bushels of apples; Ronald Harris also of Winifred, 2,000, and Leo LeMaster and Clarence Davis of Lowmansville about the same amount. Other farmers in the county produced around 500 to 1,000 bushels.

Homemakers in Bell county are putting into practice some of the suggestions on child care given in a series of lessons by Miss Florence Imlay of the College of Agriculture and Home Economics, University of Kentucky.

Forty-six homemakers are using better methods in selecting toys and books for their children; 40 are using better discipline methods; 37 families are working to improve the social life of adolescents; 27 parents are checking movies their children attend; 38 families provide the children in the home with definite tasks for which they are responsible; 45 provide storage space for use by the youngsters; and 26 are making toys for their children.

Foot Comfort Specialist at—
PEOPLE'S SHOE STORE
814-816 Madison, Covington

Standing and sitting erect require less muscular effort than the slumped posture for the normal healthy person. With the body in an erect attitude the center of gravity passes more nearly through the center of the body and places the weight on bones and ligaments that are by nature equipped to meet this demand; the shoulders droop, the spine curves and the abdomen bulges; then muscles must take on more and more of this burden of weight bearing a burden for fatigue and later actual deformity of certain of the bones and joints.

The first necessity in good posture, is good feet. Show me a person with good posture and bad feet. It's almost impossible.

But show me a person with good posture and I'll show you a person with good feet, for good posture starts with good feet. The foundation of any super structure is the most important.

Don't suffer another day with your feet. No matter how many shoes or trial supports you have tried, try just one more and have one of our foot comfort specialists make a free foot analysis and show you how to get rid of all foot pains, leg pains, backaches and headaches. Even arthritis and rheumatism pains are often mistaken—most times when feet are corrected the pains vanished. We know we can help you to stand up straight.—Adv.

HIGHER INCOMES IN PROSPECT FOR KENTUCKY FARMERS

Kentucky farmers will likely have higher incomes this year than they had in 1950, according to the annual agricultural outlook report of the College of Agriculture and Home Economics, University of Kentucky.

"Unless price ceilings are applied" says the report, "prices will be higher, perhaps about 10 percent. This will stimulate farmers to greater effort and, if weather conditions are favorable, production should exceed that of the last two years. Improved demand and higher prices may reduce the significance of government price support programs."

A statement by Dean Thomas P. Cooper says, in part: "The new year brings to farmers a challenge to produce more food and fiber, with greater efficiency. Their success in meeting this opportunity will call for thought and effort in planning as well as for skill and perseverance in carrying out their plans."

"A careful study of the Agricultural Outlook (report) for Kentucky may assist farm men and women in developing their plans for production and marketing, the making of improvements on the farm and in the home, and the spending of money for family living."

The report discusses the outlook for Kentucky major farm products, including tobacco, beef cattle, sheep, hogs, poultry, wool and milk and cream.

"Green Pastures in Larue, Make Greenbacks for You," is the slogan of the pasture improvement program in Larue county.

Mrs. Joe Hagan gave the report of the nominating committee and these officers were elected to serve the club for the next year: Mrs. Norris Riddell, president, Mrs. Lora Sullivan, vice president and Mrs. R. Patterson, secretary-treasurer.

Club members are hoping that something can be done to prohibit the dumping of trash on the roadside and that they may be beautified rather than to be made a place for public disposal of trash.

The lesson in textile painting was given by Mrs. Ed Peel and Mrs. Ruby Halls.

Attending the meeting were Mrs. W. Gibson, Mrs. R. Gaines, Mrs. M. Fichile and Mrs. Robert Sullivan, visitors; Mesdames R. Hoppenjans, G. P. Casper, R. Bowman, J. Hogan, M. L. Crutcher, C. Winston, R. Hollis, G. Casper, L. Smith, R. Patterson, S. Dickey, H. Oberjohann, E. Peel, M. Garnett, C. Birch and the hostess.

July 25th Deadline For Starting GI Courses

The July 25th deadline for starting GI Bill courses of education and training is just two months away for most veterans.

Most veterans actually must be in training by this coming July 25th if they want to continue afterwards. VA, however, will consider veterans in training even though they have temporarily interrupted their courses for the summer vacation or for other reasons beyond their control, such as re-entry into military service.

Once a veteran completes or discontinues his program of training after the July 25th cut-off date, he may not start another course. Also, he will be expected to pursue his training "continuously until completion, except for conditions which normally would cause interruption by any student."

VA has announced that veterans who interrupted their GI Bill studies at any time in the past, and later were called back into military service, will be permitted to resume their training after discharge.

The July 25th deadline date for

beginning training applies to all veterans discharged before July 25, 1947 and whose training has not not been interrupted by re-entry into military service.

Veterans discharged after July 25, 1947 have four years from their discharge date in which to begin training. Those who enlisted or re-enlisted under the Armed Forces Voluntary Recruitment Act (between Oct. 6, 1946 and October 5, 1947 have four years from the end of their enlistment or re-enlistment period in which to begin training.

Veterans not covered by these ex-

ceptions are being advised to make arrangements now if they expect to continue with GI Bill training in the future.

Tune in WLW Cincinnati 12:40 Dial 700 now! For our daily market report.

To The Citizens of Boone County:
I hereby announce as candidate for renomination to the office of Commonwealth Attorney of the 15th Judicial District, subject to the Democratic Primary to be held August 4th, 1951.
As you know, I have served two terms as Commonwealth Attorney and have tried to be fair, honest, and considerate in the enforcement of our laws, and yet I have been alert and vigorous in the prosecution of all those charged with crime. I have made no deals or commitments to any person, or group of persons in any way. I am free and independent to do my full duty as an official. My record speaks for itself. I trust my past record has been such that it deserves your approval.
No doubt, you realize that the Commonwealth Attorney is a very important official. He is the protection you have for your family and your property against the criminal element that would destroy your family, your home, and your property unless restrained therefrom by the enforcement of the laws of the State of Kentucky. YOU NEED AN EXPERIENCED AND DEFENDABLE OFFICIAL IN THIS OFFICE.
I am going to make every effort to see all the voters personally but since there are five counties in the district, I may not get to see them all, but whether or not I have an opportunity to see you and talk with you, your support will be greatly appreciated. If you have any suggestions in regard to the Primary, I will appreciate having them.
I REALIZE THERE ARE MANY CANDIDATES FOR VARIOUS OFFICES BUT I PLAN TO TAKE NO PART IN ANY OTHER RACE, BUT WILL DEVOTE MY FULL TIME TO MY OWN CAMPAIGN.
Thanking you for your support and influence and, with best wishes, I am
Yours truly,
R. L. (RAY) VINCENT.

ROLLED BALE

Safe Deposit For Leaves

Reports from ROTO-BALER owners say that weather-resistant rolled bales contain more leaves. Livestock eat rolled hay better because it is soft, sweet and retains its natural color.

Here are some of the things farmers wanted to know:

Would rolled bales really shed showers? Would they handle and transport easily? Would livestock eat them without waste, fed whole or unrolled? Could straw for bedding be rolled out without shaking?

The ROTO-BALER has answered "yes" to each of these questions, satisfying farmers everywhere. Stop in and ask us for a free booklet on rolled bales and the ROTO-BALER.

MAIL FROM HOME
URGED BY VETERAN

Norfolk, Va.—"Mail from Home" is the urgent plea made by a veteran of six years overseas.

In keeping a personal promise made to his buddies in Korea and elsewhere, Army Sergeant Wilbur F. Radeline writes in a stirring letter from the Presidio, San Francisco: "I am in the Army—I've been in the Navy—I served with the Marines and Air Force. I have spent over six years overseas and many months in Army hospitals, and I have seen too many servicemen there fighting the unnecessary extra battle against despondency, loneliness, and the terrible feeling of being unloved and forgotten by the folks back home."

Sgt. Radeline praises as "superlative" the contributions of such entertainers as Bob Hope, Bing Crosby and others. He writes with appreciation of the attention and care provided by the various morale, recreational, athletic, spiritual and special service sections of the Armed Forces and the Red Cross.

The efforts of all these groups, however, writes Sgt. Radeline, cannot completely combat the melancholy and misery of the man at the front, when he is forgotten by his own. He needs the "wholehearted support and cooperation of the folks back home themselves."

He requested that newspapers, radio, magazines, television and clubs all urge the folks at home to "please write cheery, newsy letters—often—with their latest snapshots—and some small inexpensive gift once in a while, to their relatives, friends, acquaintance, or home town boy overseas or in the Armed Forces hospitals."

Do you know someone up front, or someone who has returned—to a hospital—who would be grateful to get "Mail from Home?"

Many Veterans Eligible
For Insurance Dividends

Many World War II veterans are not eligible to receive the special National Service Life (GI) Insurance dividend scheduled for distribution this year.

VA officials pointed out that only those veterans who had GI insurance policies in force for three months or more after their policy's anniversary date in 1948 would be eligible to participate in the dividend.

No application is necessary for this year's dividend, which will be paid automatically to all eligible veterans. Writing to VA about the dividend, it was explained, may cause the veteran's check to be delayed, since answering inquiries would interrupt the work of getting the dividend payments ready.

Veterans who do not now have insurance in force, but who are entitled to a dividend check for a three-month or more period since 1948, should notify their post office if they have moved. It will not be necessary to notify the VA of the new address unless it is requested.

Kenland red clover has become one of the most popular hay crops in Estill county, seven farmers ordering more than 300 pounds of seed.

BUTLER PARK FISHING
CHARGE ELIMINATED

The charge for fishing in the lake at General Butler State Park, Carrollton, Ky., has been eliminated. It was announced by Mrs. Lucy L. Smith, director of the Division of Parks, Frankfort, Ky.

As a convenience to fishermen, the office at the General Butler park will begin the sale of fishing licenses this year, in cooperation with the Division of Game and Fish. That division also is improving fishing at the lake by taking out rough fish and replacing them with game fish.

This action follows a general policy of aiding fishing in lakes under the direction of the Division of Parks. Lakes at Natural Bridge, Pennycuik Forest and Audubon State Parks recently were stocked with game fish.

Fishing at General Butler is expected to increase because of many improvements made at the park for this season. Ten new vacation cottages have been completed and are ready for occupancy, and eight other cottages have been reconstructed. A new group camp, with facilities for 160 persons, is under construction, and will be opened June 1.

Improvements to the beach are being made, following enlargement and remodeling of the bath house last year. The Trading Post restaurant also has been renovated for the season.

Extensive additions to picnic areas are being made. A road will be built this month to the lookout at the park, making it possible for visitors to drive to the lookout point in their automobiles.

General Butler is one of the most popular vacation and recreational parks in the state system. Morgan Carter, who has had several years of experience in park management, was made superintendent of the park last fall.

MOTH BATTLE RAGES
IN HEATED HOUSES

That a year-round campaign against moths and other household pests should be carried on in modern heated houses is the warning to housewives from Prof. W. A. Price, entomologist at the College of Agriculture and Home Economics, University of Kentucky.

A five-percent DDT oil spray is recommended for use on the walls, baseboards, woodwork and shelves of closets, leaving an invisible film. Any pest coming in contact with it in a period of several months will be killed.

The same spray may be used lightly on wool garments without injury to them or to the wearer. Only enough to moisten the surface need be used. Should whitish traces be left, they may be brushed off when dry. Care should be taken not to use the solution on nylon or rayon.

A 10 percent DDT dust is recommended in floor cracks and around baseboards to kill buffalo beetles, carpet beetles and cock roaches.

Firemen Hold Organizational Meeting Monday

To Form Auxiliary Organization To Help Carry Load of Dept.

A preliminary meeting was held Monday night at the courthouse in Burlington to discuss plans for forming an organization of interested persons to help maintain and carry on the work of the Burlington Volunteer Fire Department and to help formulate plans for the future.

The meeting was called under the direction of A. B. Renaker, who had been named temporary chairman for this organization and twenty-eight letters were sent to key men in this territory. Only ten of the twenty-eight men responded to the meeting which is evidence of the fact that outside interest in the fire department is at low ebb.

The ten men who attended the meeting were A. D. Yelton, J. W. Grant, C. D. Benson, C. G. Kelly, G. W. Tolin, H. E. White, Frank L. Kelly, J. G. Smith, C. L. Cropper, Elza M. Poston and A. B. Renaker, who was named permanent chairman.

These ten men were named as charter members of the Firemen's Auxiliary organization and are making plans to set the wheels in motion to form a permanent organization made up entirely of persons not taking an active part in the fire department.

The burden of carrying on a fire department is a big task in many ways, and cannot be left to a few persons to carry the entire load. A rural department needs the support of every citizen and property owner living in its area and the purpose of this group will be to stimulate and maintain outside interest and to recommend and advise with the directors of the fire department.

Your local fire department is your cheapest form of fire insurance provided it is kept up to the highest standards and able at all times to meet our community fire fighting needs. If neglected, it will also become one of the worst forms of fire protection a community can have and will cost our people thousands of dollars per year in fire damage.

Burlington has a splendid fire department within itself, but needs the cooperation and help of persons on the outside in order to lessen the load of carrying on the good work.

Won't you please attend the meetings called by this new organization and do your part in every way when you are called on for any task? You are not doing this for anyone else but only helping to make your home safe from the hazard of fire, and saving yourself dollars in the end.

Small Stores Pricing Problem Simplified By OPS Amendment

Provisions Made Under Certain Condition; Will Help Small Stores.

Many small stores have had their pricing problems simplified by the Office of Price Stabilization by an amendment to Ceiling Price Regulation 7 which makes provision for them, under certain conditions, to price certain items under General Ceiling Price Regulation. The District OPS office at Cincinnati says that the amendment provides that stores selling housewares, notions, sporting goods, silverware, china, glassware, jewelry, watches and clocks may select to price those particular items under GPCR under either of two conditions.

1. This provision, designed to help the smallest stores, gives the election for these items to any retailer whose overall net annual dollar volume of sales of everything in his store is less than \$100,000. Total dollar volume for this purpose is figured on the sales not only of the housewares, notions, etc., but the stores entire stock of goods.

2. The other provision, which will meet the situation of the stores doing a relatively small volume of business in housewares, notions, sporting goods, silverware, china, glassware, jewelry, watches and clocks, gives the election to price those articles under GPCR to any retailer whose net dollar volume of sales of those items is less than \$60,000, regardless of volume of sales in other lines and even though total volume is over \$100,000.

A third provision, retaining an original principle in CPR 7, gives the option to any retailer whose sales of apparel, apparel accessories, shoes, beds, beddings, furniture, yard goods, floor coverings, lamps, radio and television sets, phonograph records, musical instruments, luggage, etc., are less than \$20,000 annually in net dollar volume. The items covered in this provision are all CPR 7 and a few Amendment 2 items.

The retailer who elects to remain under GPCR does not have to notify OPS. The deadline for filing pricing charts was May 31. The retailer who makes the election, by being qualified for it, must be prepared to show the district OPS office that he was entitled to make the choice.

If an eligible retailer has already filed a chart, and now wants to price under GPCR, he has until July 2 to request the return of his chart from the District OPS Office. After that date, the retailer must continue to price under CPR 7.

The amendment, OPS explained, is to assist small stores with limited bookkeeping and clerical help.

OPS pointed out, however, that 95 percent of the annual retail dollar volume of stores is covered by CPR 7, and that about a third of the 295,000 stores fall into the small retailer group benefitting from the new amendment.

Apple Blight Causes Extensive Damage In County

County Agent Reports There Is No Known Control.

Apple blight that appeared in orchards in recent weeks has caused very extensive damage to some apple crops, according to Bill Davis, County Agent. Wealthy, Haglo and Transparent varieties seem to be the hardest hit.

The disease that effects the fruit spurs makes the tree appear as if it had been scorched by fire and in some cases trees are as much as 75 percent defoliated.

There is no known control, although a full bloom spray of Bordeaux has been thought to reduce the seriousness of the disease. However, trees sprayed this year in full bloom with Bordeaux are just as hard hit as those not sprayed. Trees with a heavy set of fruit are hardest hit by the blight.

The trees will probably not be permanently injured but this year's apple crop will be greatly reduced.

The apple blight, together with the killing of peaches by cold weather in February, has caused Boone County fruit growers to lose thousands of dollars in income from their fruit programs.

Bob & Gene Trim Grants Lick In Close KAG Battle Sunday

Take Wednesday Game From Hoosier All-Stars By Score of 11-0.

Bob and Gene defeated the strong Grants Lick nine Sunday in the K. G. League, by a score of 2-1. The Lick nine remains undefeated for the season.

Bob and Gene will meet the Stanley Bavarian team Friday night, June 8th at the Covington ball park. Game time will be 8:15 p. m. These teams are tops in their respective leagues. Bob and Gene are currently leading the KAG league and Stanley is on to pin the Buckeye league.

In the only previous meeting of these two teams Bob and Gene won 5-3. However, this occurred last year in the finals of the Times-Star semi-pro tournament. Since then both teams have been strengthened considerably, so the contest should be one that baseball fans will enjoy.

Last Friday night Bob and Gene defeated the University All-Stars 19-2. However, the many fans present and the members of the Bob and Gene team were disappointed because many of the advertised players did not show up. This game was scheduled two months in advance with the understanding that such players as Groza, Zaranka, Fucci, Jamerson, Yowarsky, Yessen and Hamilton would be present; but for various reasons they could not make the trip. The main reason was that commencement exercises were being held at U. of K. on that night.

The management of Bob and Gene has assured this paper that such a thing will not occur again and promises that this Friday night's game will make up for all that last Friday's game lacked.

Bussman or Mignery and Bussman will form the battery for the Florence team, while McKinley and Lorenz will be on the mound and behind the plate respectively for Stanley Bavarian.

The Florence nine will meet the Indiana Hoosier All-Stars Sunday June 10th at Florence ball park. The Hoosier team has been granted a bye week by the addition of Jimmie Slayback, Shorty Slayback, Doc Waters, Dorman Long, pitcher and Rogewski, catcher.

Tommy Rouse, son of Mrs. Helen Rouse, of Park Avenue, R. 2, Florence, Ky., received a very high honor the past week, having passed to the eighth grade at St. Henry School, Erlanger with an average of 99 per cent. Out of the nine tests he completed, he received 100 per cent on eight of the tests. Having done so well on the seventh grade test, his teacher gave him the test for the eighth grade and he was far enough advanced to pass this test successfully. He is actually rated to have the intelligence of a high school freshman. His many friends wish him a very successful future in education.

A large group from the community attended the wedding of Miss Rita Hackman, of S. Ft. Mitchell, who became the bride of Mr. James Dutton Aylor, of Goodridge Drive on Saturday morning at Blessed Sacrament Church, Ft. Mitchell. Being a summer wedding, the bridal party chose pastel "rainbow" colors for all the gowns. Larry Aylor, cousin of the groom was vocal soloist for the occasion and joined a trio from the choir to sing the Mass. Dutton Aylor is the son of Mr. and Mrs. Guy S. Aylor.

**It's an Old NEIGHBORLY CUSTOM**

Back in the old pioneer days it was no trick at all to get a home of your own. Whenever a new family came to the settlement or community, it selected a spot for its home and then the neighbors pitched in and helped build it. Times have changed somewhat, but even though we're not likely to split logs or haul stones to help build your home, we WILL help you finance it—in the same neighborly spirit of co-operation. Come in and talk "home" with us.

Goal Of \$3,000 Set In Burlington Fire Dept. Drive

New Hose And Other Equipment Needed By Firemen, Is Word.

The Auxiliary of the Burlington Volunteer Fire Department has completed plans to raise an estimated \$3,000.00 which is urgently needed by the fire department to purchase new hose and necessary equipment for the fireman and which is a vital part of the successful operation of the department.

No solicitation has been made of the community for funds for the fire department for the year, but certainly no one can object now to giving generously in order to put the department back in good operating condition.

Fire equipment does not wear out, but instead it rots out and becomes useless after a certain period of time. A large percent of the hose has already been discarded and it will be necessary to discard more in the near future. Fire hose costs from \$1.45 to \$2.50 per foot and the fire department cannot possibly raise enough money to replace this equipment without the help of every property owner living within a three-mile radius of Burlington.

Local firemen have been fighting fires for years without proper clothing to protect them from water and fire and have not only suffered injury, but have ruined shoes and clothing, which is very expensive to volunteer firemen.

It is the desire of the Auxiliary to raise sufficient funds to purchase 12 complete uniforms for volunteer firemen who are required to fight fire in and near burning buildings.

The annual operating expense of the department is approximately \$600.00 per year. This figure does not include replacement of old equipment which wears out over a period of years. Included in the above figure are gas, oil, batteries, anti-freeze, tires and general and ordinary repair to the two trucks. Also included in the above is a group insurance policy which is carried for the protection of all firemen while on active duty.

For the past four years the active firemen have carried this financial burden without going to the people for any help. Now the department is in need of new equipment and need your help in order to keep your department in good condition to save property and lives.

A complete solicitation of the Burlington community will be made before July 1st and all persons are asked to hold your donations until a solicitor calls on you. Remember, don't give what you would ordinarily in one year to your fire department, but try to give four times that amount, since no solicitation has been made since 1947.

Your fire department is your best property and home insurance, so let's get into this campaign and make it a success so the department will be in good condition in the very near future.

Rev. R. A. Johnson returned home last Thursday from Hobbs, New Mexico. Mrs. Johnson remained for an extended visit with their son, Harold and family.

Bob and Gene of the Kentucky Athletic Goods Semipro Baseball League scored its seventh victory of the season by downing the Hoosier All-Stars 5-0 at Florence last Sunday.

Ned Connor led the attack for the winners with three hits, followed by Charlie Allesandro who collected two safeties.

In other games, Collegians, newcomers to the league defeated the Grants Lick nine by a score of 2-0; Steelers trimmed Ghent 8-2 and Palazzola trounced Aetna Oil to the tune of 16-4.

Friday night, June 15th Stanley Bavarian will meet Bob and Gene at the Covington Park. The game scheduled for last Friday night was rained out. Game time is 8:15 p. m.

Newport Steelers will invade the stronghold of Bob and Gene, Sunday. This should be one of the best games of the season as both teams are tied for first place. Mignery or Bussman will be on the hill for the locals.

Thousands of Dollars Lost Annually By Flock Owners In Kentucky

Many thousands of dollars are lost annually by flock owners in Kentucky due to outbreaks of fowl-pox and Newcastle disease in their laying flocks, according to Bill Davis, County Agent. An outbreak of either fowl-pox or Newcastle will cause a sharp drop in egg production that may last for six weeks to two months. This drop in egg production often comes in the fall and early winter months when egg prices are highest. Hens may never recover from the effects of these diseases and thus lay very few eggs the remainder of the year. Lowered egg production will often cause a flock of hens to lose money for their owner.

Both fowl-pox and Newcastle can be prevented, or the seriousness of the attack greatly reduced, by proper vaccination. Vaccination for either of these diseases may throw laying hens out of production, therefore, pullets should be vaccinated before they come into production. The directions of the manufacturer of the vaccine should be followed exactly as to the vaccination procedure.

Dependent Parents Of War Veterans Eligible For Benefits

New Social Security Law Makes Benefits Possible, Is Word.

No sorrow can ever be greater than that of a parent who has lost a son or daughter in the war. There is no way they can ever be repaid for their great loss. . . no way even to attempt to repay them.

But it would be a great comfort to many a World War II hero who gave his life for his country if he could know that now his aged dependent parents may receive monthly survivors insurance payments because of his military service. Yes, the new social security law now makes it possible for dependent parents of deceased servicemen to get payments if they have been receiving at least one-half their support from the veteran before his death, and if no widow or child can be entitled to monthly payments.

Here's the way it works. The 1950 amendments to the Social Security Act provide that veterans of World War II be given credits of \$160 a month for each month of active duty between September 16, 1940 and July 24, 1947. So, you see, it is now possible in many cases for dependent parents to claim old-age and survivors insurance payments based on these wage credits earned by their son or daughter in military service.

The Federal Security Agency urges you parents who had sons or daughters in military service during World War II to find out just what your rights and benefits are under the social security program. The place to find out is your local Social Security office.

Ordinarily, you must file proof of dependency within two years of the serviceman's death. But now, under the new law, even if the veteran died more than two years ago, or in service, you still have until June 30, 1951, to show that you were receiving at least one-half your support from the serviceman. Allotments count toward this too, as well as what he sent you himself.

But remember, June 30 is the deadline. If you wait until after that date, you just won't be able to claim payments later on. And that goes for dependent parents who have not yet reached age 65. Even if you aren't now 65, which you must be to receive payments, you still must file proof of your dependency by June 30th in order to be able to claim social security payments when you do reach 65 later on.

Don't delay on this. If you are not able to go down to the Social Security office yourself, call them or send a letter.

Social Security Head To Visit Erlanger

Edward J. Bolte, field representative of the Covington Social Security office will be at the Erlanger Post Office from 10:00 to 11:00 a. m. on Thursday, June 21st. He will receive applications for old-age and survivors insurance benefits under the amended law, as well as issue social security account number cards.

This being the month for June brides, Mr. Bolte calls attention to the necessity for changing your name on the records of the Social Security Administration. If you have an account number card and have since changed your name, either by marriage or divorce, a change of record card should be obtained from Mr. Bolte or your local Postmaster and mailed to the Social Security office nearest you for correction of their record.

G. VINCENT SELLER, NOW RESIDENT OF COUNTRY

Boone County has gained another "big shot" (a "big shot" is a "little shot" who keeps on shooting)—G. Vincent Seller, Saturday moved from Buttermilk Pike (lost his love for buttermilk?) to the 156-acre Buckner farm on Route 50, Boone County. He has always looked upon Boone as a land of promise and now says all promises have been fulfilled.

Mr. Seller recently received a 10-gallon hat as a birthday gift and presumably had to have a fine large farm to wear the hat on. He has been taking lessons in square dancing (he's really on the square) from an expert and expects to cut quite a few rugs in Boone County by the time the next snow flies.

Mr. Seller is the popular and efficient vice president and sales manager of the well-known Seller Motor Co., Fourteenth and Madison, Covington. Boone County welcomes G. V. S.!

Sale Of Wool Clip Withheld Until Later

The sale of the 1951 wool clip will be withheld until the latter part of June or the first of July, according to the sales committee. This action is taken due to the information received from buyers and the Economics Department of the University of Kentucky. Wool prices at the present time or rather unsteady and are expected to level off and perhaps rise near the end of June.

Growers are asked to bear with the committee on the delay in the hope of securing a higher price for the clip.

Jeff Eddins has been ill at his home for the past few days.

Verona Man Seeks Legislative Post From 54th District

Is Graduate Of Florence High School And Lifelong Resident Of County.

Joe Rouse, Verona, Boone County announces his candidacy for State Representative from the 54th Legislative District (Boone and Gallatin Counties), subject to action of the Democratic primary, Saturday, August 4, 1951.

Joe was born and reared on a farm at Limaburg in Boone County and has been a registered Democrat in this county since voting age. He is a graduate of Florence High School in 1936 and attended University of Kentucky one year in the College of Agriculture. He has for the past six years operated a farm in the Verona precinct, and is a director of Boone County Farm Bureau from the Verona district.

Mr. Rouse has been connected with the independent merchants in a local six-county area for the past six years, serving them in the wholesale business. He is a member of New Bethel Baptist Church at Verona.

In announcing as a candidate for State Representative, he makes this statement to the people of Boone and Gallatin Counties:

"There is a need for the farmer, the independent businessman and labor to be represented in the State Legislature. There is a need today for a moral uplift in our lives as citizens of a Christian nation. If we are to be a Christian nation we must turn to the teachings of God's Word in law making as well as our everyday living.

"Whatsoever ye do, do all to the glory of God." I Corinthians 10-31b."

County Agent Gives June Dairy Tips

June is rightly called dairy month. Lush pastures provide the cheapest, and usually the heaviest milk production of the year. Lush pasture are good feed but are not a balanced ration according to Bill Davis, County Agent. They stimulate the dairy cow to too heavy production, but do not furnish the food nutrients required for this production. Consequently, most of our heavy producing cows lose weight during this period. When these pastures lose that fresh, green feed, either by maturity or by being pastured down, milk production declines rapidly.

Some of this decline in milk production can be stopped by: Feeding a low protein grain ration to heavy producing cows now, to help maintain body weight. Clipping pastures to keep them growing and green.

Planting sweet sudan grass for emergency pastures. It will furnish the dairy cow in mid-summer. Arranging to irrigate some pasture this summer to keep it growing and green.

Increasing the amount of grain and the amount of protein in the grain when pastures start to get brown.

Arranging for some shade during the hot part of the day.

Controlling flies. Methoxychlor offers dairymen a good control in buildings and on cows.

Time To Begin Late Garden Crops For Storage

It is time to begin late crops of broccoli, brussels sprouts and cabbage for winter storing, according to Bill Davis, County Agent.

All three crops may be started in a bed and transplanted around July 1st or they may be started by planting several seeds in one place and thinning the stand after the growth has started. Ground fertility should be high, especially for brussels sprouts. A side dressing of poultry manure or nitrogen fertilizer should be given after transplanting.

The sprouts of brussels sprouts form in the axils of the leaves and the leaves alongside them should be cut back to one inch to form the growing of sprouts.

Long Island seems to be one of the best varieties of brussels sprouts. It is a good variety of broccoli and Wisconsin All-Season the best of the cabbage varieties.

No-Hit Game Is Pitched By Hebron Youth Saturday

The Hebron nine emerged on the winning side of their contest Saturday morning with Elsmere Baptist in the Knottville League.

The outstanding feature of the game was the no-hit pitching of John Lloyd Crigler for the Hebron nine. However the perfect record was somewhat marred by several hit batters, walks and errors. The final score was 8 to 5 in favor of Hebron.

Hebron now has four wins to their credit and no losses. They are in a first place tie with Erlanger Baptist and the game Saturday morning at the Florence park at 9:30 a. m. with Erlanger Baptist will be the deciding factor in the league race.

Teams defeated by Hebron at this time include Petersburg, Florence, St. Henry and Elsmere Baptist. The game with Walton was rained out two weeks ago.

Hebron's home games are played at the diamond near Hill Top on the O. B. Hanser property on Youell Road.

Mr. and Mrs. Earl Smith and son Joe, Mr. and Mrs. James Gayle Smith and son Ronnie, Judge and Mrs. C. L. Cropper, Mr. and Mrs. Lee Roy McNeely and daughter Susan, Mr. and Mrs. Al Stephens, of Petersburg, Mrs. Mae Lassing, Miss Helen White, Rev. Morton Oliver, Rev. R. Adams Johnson, Bob Hickman and Rev. Bob Brown attended a birthday supper at the home of Mr. and Mrs. Walter Brown Tuesday night of this week in honor of the sixteenth birthday of their daughter, June.

LIVESTOCK RAISING ATTRACTS FARMERS

Four farmers in Rockcastle county recently added 15 cows and heifers to their dairy herds. There are four milk routes in the county and interest is increasing in dairying, according to County Agent R. F. Spence.

Eighteen farmers are using the cow-and-calf plan in raising beef cattle, and two of them bought purebred bulls this spring. Fifteen 4-H club boys are feeding calves for the annual fat calf show and sale at London.

Three Hampshire gilts purchased by Roy and Abil Brown farrowed 10 to 13 pigs each. The sows cost \$125 each. They are the only purebred Hampshires in Rockcastle, and all their pigs will be kept for breeding.

HOMEMAKERS LESSONS SAVE TIME AND WORK

Adair county homemakers are loud in their praise of homemakers club lessons on saving time and work, according to Mrs. Dora May Cochran, home agent. Learning to use a lap table for ironing was rate of greatest help, followed by dish washing hints, collecting cleaning equipment in a portable kit or basket, and use of dry suds in cleaning.

Said Mrs. M. E. Blair of Columbia: "I don't see how I ever got along without my lap table. Since I have it, I don't use my mangel for ironing. For sewing, I like the lap table better than the table that came with my portable machine, as it is the right height. Whether I use it for pressing the slipcovers which I make for other people, for my typewriter, or when I make salads or cakes, I find it is handy."

WOMEN SAVE BY SEWING AT HOME

A fashion show of cotton dresses and a tea concluded the homemakers clothing project for the year in Pulaski county. Two hundred and twenty-five women and 26 children modeled dresses made under the direction of Miss Dorothy Threlkeld, specialist in clothing at the College of Agriculture and Home Economics, University of Kentucky. The homemakers estimated they saved \$2,000 by making their dresses at home, said Mrs. Louise Craig, home agent. Cost of fabrics and other materials was placed at about \$3,000.

More than 500 women representing 19 homemakers clubs in the county attended the showing which was presided over by Mrs. Edwin Adams, county clothing leader.

MANY PROJECTS FOR NEGRO 4-H MEMBERS

Twenty-five members of Negro 4-H clubs in Logan and Simpson counties are feeding cattle for the annual livestock show and sale. Sixty-four club members have garden projects to help meet the food emergency, and in the roaster project 1,500 chickens have been given to 15 club members in 10 communities.

Bennett K. Brown, Negro assistant agent in the two counties, says club members are looking forward to their big day at the county fair August 13. Included in a parade will be the Lincoln High School band of Simpson county and floats of every Negro organization in Logan county.

BURLINGTON HOMEMAKERS

The Burlington Homemakers' Club met Thursday, June 7th at the home of Mrs. Vernice Williams with nine members present.

The lesson given by Mrs. Atha Walton was "Handwork." The meeting in July will be a picnic held at the home of Mrs. F. O. Smith.

PINE TREES PLANTED

John Thompson, cashier of the Edmonston State Bank, Metcalfe county, bought 1,000 shortleaf pines for six 4-H boys to use in their reforestation projects. After a demonstration on setting the trees by Forester Wilson J. Mitchell, the boys set them out at home. Four-H club members taking part were Jackie and Kendrick Scott, Morris and Arliss Perkins, Roy Irvin and Lyndal Butler.

TEST SAVES FERTILIZER

A saving of more than \$100 for fertilizer on a 4-acre tobacco allotment was realized by Maxie Avritt of Marion county. He had planned to use 1,000 pounds of 6-8-6 fertilizer, but before doing so, he took a sample of his soil to County Agent Gilbert H. Karnes for testing. Results showed that 500 pounds of the fertilizer were enough, thus effecting a saving of a considerable amount.

The Recorder is authorized to announce that JOE ROUSE as a candidate for State Representative from the 54th Legislative District composed of Boone and Gallatin counties, subject to action of the Democratic primary, Saturday, August 4, 1951.

Opposes Vincent FOR Commonwealth Atty

Harlan Hellman

Harlan Hellman, who has already announced as a democratic candidate for the office of Commonwealth Attorney, stated that: "Although prompted by the numerous requests of people throughout this district, my announcement came only after a serious study of the qualifications necessary and the time and attention required to be given each county in this district. As this office is an important one, it should not be treated as a 'side-line job' by only appearing in court for prosecution."

Although Peace Officers may make arrests, the execution of the mandate of the law largely depends upon the willingness and ability of the Commonwealth Attorney. The people of this district have the right to expect the Commonwealth Attorney to devote the time and attention to each criminal prosecution as would any attorney they might personally employ to represent them in a civil suit in court.

Mr. Hellman further stated: "That if I am elected, I shall devote sufficient time and attention and carry out the duties of this office to the best of my ability. "Since there are five counties in this district, it is impossible for me to see everyone; however, I shall make every effort to see as many as possible; and I invite any inquiry concerning my personal background and qualifications."

At the present time, Mr. Hellman is the City Attorney of Carrollton. He is thirty-eight years old, married and the father of two children. He was born in Frankfort, Ky., where he attended grade and high schools. He also attended Georgetown College and the University of Louisville Law School where he received his Law degree. In 1943, while in the Army, he took the State Bar Examination and was admitted to practice the same year.

For two years Mr. Hellman was with the Mint Service, of the U. S. Treasury Department. During World War II, he served overseas with the 4th Armored Division as a Tank Gunner until wounded in action March 18, 1945. Since shortly after his release from the hospital and discharge from the Army in November 1945, he has been actively engaged in the practice of law, both in the Federal Courts and the Court of Appeals, as well as our local courts.—Pol. Adv.

DISABLED VETERANS REMINDED OF DEADLINE

Disabled veterans of World War II who may be entitled to government financial aid in acquiring an automobile or other conveyance were reminded today by the Veterans Administration that the deadline for applications under existing law is June 30, 1951.

The law provides that VA shall pay up to \$1000 toward the purchase price of a car, truck, tractor or other automotive conveyance for a World War II veteran who lost or lost the use of one or both legs at or above the ankle due to service.

VA said every effort would be made to act on all claims received prior to the expiration of the law on June 30 but advised eligible veterans to get their applications in as early as possible to be on the safe side.

Applications should be directed to the veteran's nearest Veterans Administration regional office.

4-H Clubs Cattle Sales Quota-Free

Sales of live cattle by 4-H clubs and similar groups can be done outside the quotas for livestock slaughter when made at the time of a fair or exhibition which is under the auspices of the extension service of the Department of Agriculture or a recognized state agency, the district OPS office at Cincinnati explains.

The sales are authorized by Amendment 5 to Distribution Regulation 1 of the Office of Price Stabilization. The regulation sets monthly quotas of livestock to be slaughtered by federally inspected slaughterers. The June quota is 80 percent of the 1950-base for cattle, calves, sheep and lamb and 115 percent of that base for swine.

Authority for fair managers to issue certificates for purchase of 4-H livestock for slaughter must be obtained in advance from the district OPS office.

Owen County REA Meeting Scheduled For June 28 and 29

Will Feature All-Electric Farm Center With Working Exhibits.

The annual meeting of the Owen County Rural Electric Cooperative has been set for June 28 and 29, manager Marvin DeBell said today. The meeting will be held at the Grant County Memorial Field near Dry Ridge.

"This will be the biggest and best meeting in our history," DeBell explained, "and we expect the largest crowd we have ever had."

The Owen County co-op was organized in 1937 and now serves more than 7,000 members in 9 counties.

Built around the theme of "Electrified Farming," this year's meeting will feature an all-electric farm center complete with working exhibits of pumps, milkers, brooders and coolers. In addition, there will be displays and demonstrations of all types of home appliances and farm equipment.

"And that's not all," DeBell said, "General Motors will have its 'Preview of Progress' on hand and the State Board of Health will present an interesting exhibit on heart disease."

"Along the entertainment line," DeBell continued, "we will have many of the contests and attendance prizes we had last year. Also, Asher Sizemore and the Rural Rhythm Round-up will furnish plenty of music and a giant square dance has been scheduled."

The meeting is to be housed in four big tents and will get underway early in the evening of the first day. It will continue throughout the second day climaxing with the co-op's yearly business session.

DeBell reminded members to be sure and attend the business portion as "we have to elect directors and vote on many policies that will effect the cooperative during the coming year."

There will be four contests—beauty, cake-baking, tractor driving and amateur talent—that will be open to all co-op families. Square dancing music by Asher Sizemore and Little Jimmy and Happy Jack Lewis, former Barnum and Bailey circus clown, will also be on hand to add to the fun-making.

Price Lists Will Be Posted June 25th

Official charts of retail beef cut ceiling prices will be posted in meat shops throughout the country on June 25, the District OPS Office at Louisville, announced. This date for posting ceiling prices is a week later than previously announced, and was selected to allow for last minute price revisions and distribution.

Housewives can refer to the price charts, which must be posted by butchers in a readily visible place, to be sure that they pay no more than the ceiling price for beef set for their area. OPS explained that the ceiling prices for beef cuts have been determined by geographic zones and the listed prices are for the cuts that are legally required by the agency. In addition to the posted price charts retailers are required to have separate grades in separate trays with each tag tagged with its correct price.

New price charts showing lower prices will be effective August 1 and still lower prices will go into effect October 1. After the last reduction beef will be selling at retail from eight to ten cents under current prices. Cattle prices will still be about twenty-five per cent higher than parity.

New Chevrolet Will Be Demonstrated By Local Dealer

Demonstration Will Continue Through June 30 For Local Residents

If you want to drive a Powerglide Chevrolet visit the showrooms of the Kirk Chevrolet from now until June 30.

Mr. Kirk has set aside special demonstrators for the use of the public and the period will be devoted to giving as many people as possible rides in the cars.

Because of the customer demand for Powerglide automatic transmissions in this area, Kirk explains, he has been unable to set aside demonstrators. However, he will hold cars solely for this purpose through the demonstration period.

"Chevrolet has just built its 500,000th Powerglide and to observe the milestones it has requested all dealers to co-operate in mass demonstrations," he declared.

Kirk pointed out that Powerglide differs from other automatic transmissions on the market in that it represents a "package" improvement. Included, besides the voluntary automatic shift, are a more powerful engine of 105 horsepower and an "Economiser" real axle.

The opportunity for mass demonstrations here will show what owners have learned in more than a billion miles of driving," Mr. Kirk declared. "Even a brief trial will prove that Powerglide-equipped cars are easier and more restful to drive."

"With Powerglide, the car has no clutch. This means the elimination of hundreds of manual operations in the course of an average day's driving. The result is that a driver finishes the day more refreshed and relaxed. A person has to experience the effortless process of automatic Powerglide fully to appreciate its advantages."

"We urge everyone not acquainted with Powerglide automatic transmission to visit our showrooms during the special demonstration period to find out for himself all the features of Powerglide automatic transmission."

Firemen's Fund Drive Opens In Burlington Today

First Campaign For Funds In Four Years, Officials Report.

The Auxiliary of the Burlington Volunteer Fire Department, completed plans for the \$3,000 fund campaign at a meeting held Monday in the courthouse.

The drive will open today (Thursday) and will continue until the goal has been reached, it was announced by officials of the group. July 1st has been set as the closing date provided the goal has been reached.

Officials of the group announced that property owners within a radius of three miles of Burlington will be contacted by solicitors, who will canvas the entire area.

For the past four years, volunteer firemen have maintained the department without any solicitation of property owners. Firemen have met all financial requirements of the department during these years. However, it is necessary at this time to replace many pieces of equipment which will cost considerable amounts, and efforts of firemen alone are not sufficient.

Every property owner should feel that it is his or her duty to help maintain this department and to maintain equipment at a high standard. Who knows, the next fire might be your own home, and with the efforts of an efficient fire fighting unit, along with volunteer firemen your home in all probability would be saved.

Since the organization of the Burlington Volunteer Fire Department, fire losses in and near Burlington have been held to a minimum. Many huge fire losses have been prevented due to the prompt action of your local department. Heavy damage no doubt would have been suffered had it not been for proper fire fighting equipment.

Funds raised in the campaign will be used to replace old and worn out equipment, and to purchase other supplies needed at this time by fire fighters.

Officials of the Auxiliary stated that if the goal is reached in this campaign, plans will be formulated whereby no heavy solicitation will be made in future years.

Property owners throughout this area are requested to cooperate with solicitors, who will be calling at their doors within the next few days. Funds contributed in the campaign will make your town and your home a safer place in which to live. Everyone is urged to give their full support to this worthy cause.

Roll Back In Beef Prices Will Receive Senate Attention

According To Letters Received From Vice President and Senator

Letters were received by the Boone County Farm Bureau the past week from Vice President Alben W. Barkley, Senator Thomas R. Underwood and Congressman Brent Spence in regard to the roll back in beef prices.

Vice President Barkley assured the Farm Bureau that he would bring the matter before the Senate for their attention, while Senator Underwood stated that hearings were being conducted before the Banking and Currency Committee of the House of Representatives and that this committee should be informed of the farmers viewpoint.

Therefore, it is very important that all farmers write to our senators and especially now to Congressman Brent Spence, House of Representatives, Washington, D. C., as Mr. Spence is chairman of this committee.

Congressman Brent Spence advised the group that careful consideration would be given to the testimony of representatives of meat producer organizations and farm groups, and he assured the group that he was ever mindful of the farmers problems and interests and wished to hear from them.

If you're looking for a way to hold the line against increasing power and labor costs, look closely at the Allis-Chalmers Model B.

This may be the year to add a second tractor on your farm. With two tractors, you can double up on rush field jobs or keep one tractor in the field while the other is hauling and doing odd jobs. The B will mechanize many chores at low cost—give you more time in the field.

The Model B is recognized as the standard of economy... a down-to-earth tractor at a down-to-earth price. Can it help you cut costs this year? It's an idea worth thinking over. Stop in and talk to us.

First Reports Are Discouraging In Firemen's Fund Drive

Property Owners Holding Contributions To Mere Token, Says Chairman.

The first report of solicitors in raising \$3,000.00 for placing the Burlington Volunteer Fire Department in good condition was received Monday night.

The report was rather discouraging, in that so many property owners are holding their contributions to a mere token instead of an amount the committee hoped to receive. Since no solicitation for funds had been made for four years it was hoped that property owners would gladly contribute at least \$25.00 at this time.

A first class fire department cannot be maintained at the present level of donations, according to the chairman of drive.

In fairness to those who have shown an interest, it must be said some donations have been received from \$25.00 to \$100.00, but it is those who own valuable properties and well able to give, who are letting the firemen down with donations of only a few dollars.

If sufficient funds cannot be raised, the committee will be discharged and the Fire Department will then render a limited service or barely none at all. We have the base for a good fire department if property owners want it. The department has rendered good service in the past because the equipment was new, but after several years' use this equipment has become weak and must be replaced or property owners suffer the loss of some because the equipment fails to do the job when it is most needed.

This is a serious situation confronting property owners who would expect the firemen to respond to a fire call. A fire truck is of no value without proper equipment. It is very unfair for a few people to contribute liberally while others, just as able and own valuable property to only contribute \$5.00. Solicitors are doing their best but they cannot bring in the cash if property owners do not show more interest in their fire department.

"Must we conclude that the majority of property owners do not want the protection of a fire department?" the chairman said. "An old colored man, working by the day for a living, with a large hospital bill to pay, volunteered a donation of \$10.00," he continued.

It is up to the property owners, who expect the protection of the fire department, within range of its past service, to maintain it. Response to fire calls as far as 10 miles from Burlington have been made. It will be useless to call the fire department in the future to fight a fire if we have no equipment.

The young men who give their time and take the risk in responding to fire calls needs your liberal support. If you have only made a small donation, think it over and see some member of the committee.

A half way fire department is worse than none at all. It must be up to standard when it is needed.

Wool Clip Will Be Sold At Later Date, Due To Low Prices

Sales Committee Given Assurance Of Price Increase.

The Boone County Wool Pool Association announced this week that Boone County clip scheduled to be sold during the latter part of June or early part of July will not be sold at this time, it was announced by the sales committee Monday.

The sales committee, acting in the interest of sheepmen throughout the county stated that present prices offered for the clip are not up to expectations, and it is believed if the clip is held for a short time, prices will be much higher. In fact, buyers have stated that wool prices will increase in the near future.

The committee stated that a countywide meeting of sheepmen is being contemplated, at which time sale of the clip will be discussed.

A large percentage of the wool in Boone County is sold through the local pool, thus giving the association added strength in obtaining the highest dollar for local sheepmen.

Barn Dance Show To Feature Opening Verona Lake Ranch

Grand Opening Set For July 1st With Three Shows In Afternoon.

On July 1st the opening of the Verona Lake Ranch Barn Dance Show will get under way at 1:30 p. m. in the huge amphitheater surrounded by shade trees near the lake, which is one of the feature spots bordering the shaded picnic area. Verona Lake Ranch is the new name given to what has been known as Verona Lake. Five hundred acres of land located at, and adjoining the town of Verona, make up the ranch boundary proper. Sunday will mark the opening of a series of programs featuring radio and television artists who will be brought to Verona Lake Ranch each Sunday in July and August for a full hour and a half show.

For the grand opening on July 1st one of radio's most popular barn dance shows has been secured in the person of Homer Harris and his educated horse "Stardust" along with supporting stars. There will be three big shows, 1:30, 3:30 and 7:30 p. m., all for the price of 50 cents for adults and 20 cents for children under 12 and children under 6 free. No extra charge will be made for parking and picnic facilities. For those who desire to fish, the regular additional price of one dollar will be charged at the lake.

On July 8, and each Sunday during July and August, promoter Bill Scroggins has been fortunate in securing the Renfro Valley folks for his Verona Lake Ranch show. Now is a good time to make plans to come and see these star performers in person and enjoy a family picnic in the cool shade, Mr. Scroggins said.

Verona Lake Ranch is easily reached, being only 5 miles west of Walton, Ky., on Ky. 16. Either U. S. 25 or 42 is within 5 miles or less from the Ranch entrance at Verona, Ky. It's only a short drive to see the best in Western and old time music entertainment.

Soft drink refreshments stands are on the grounds for the convenience of patrons.

State Fire Marshal Issues Warning Against Fireworks

Promiscuous Fireworks Demonstrations By Individuals, Taboo.

Frankfort, Ky., June 28—Promiscuous fireworks demonstrations by individuals will be strictly taboo—come July 4—according to State Fire Marshal William L. Martin.

Sales of fireworks to individuals in small lots by dealers under the guise of "wholesale" transactions, under an Attorney General's Office opinion, constitutes an evasion of the law, said Martin.

The retail sale of fireworks is banned by the 1950 Beatty fireworks law with violators subject to a fine of up to \$100 and twenty days in jail.

In addition, Martin declared, the law provides for fireworks displays but the law requires that application for such demonstration must be made to the County Judge, Fire Chief or Mayor at least fifteen days in advance and their approval had.

Permits must be obtained from the Fire Chief in cities—or if there be no fire chief then from the Mayor. In other cases, the permit must be obtained from the County Judge.

While the problem of enforcement of the anti-fireworks law principally rests in the hands of local officials, Martin added, "we feel impelled to call attention to salient features of the law."

"Sales of small amounts by roadside dealers to 'tourists' by labeling them 'wholesale' transactions, is a definite and positive evasion of the law," he continued.

Martin pointed out, too, that the Division of Fire Prevention and Rates stands ready to assist local officials in problems relating to enforcement of the anti-fireworks law.

Florence Firemen To Open Campaign For Funds July 5th

Property Owners Will Be Solicited At Rate of 1c Per Day, Says Chief.

Florence Volunteer Fire Department will conduct a fund raising drive from July 5 through July 30, it was announced this week.

This means of obtaining sufficient money for the purchase and maintenance of necessary equipment will replace the picnic of previous years. One cent a day is the minimum requested of every property holder for each piece of property in his or her possession. Nothing could be more reasonable, so when the firemen call at your house next month, be generous, and give to the very limit.

Citizens and property owners of the Florence area are requested to remember that they come to you for financial aid one day a year, but they are at your service 365 days.

Much expense is involved in maintaining a fire department, and much work is required of firemen in training, maintaining equipment to a high standard of efficiency. Firemen have always been ready to fulfill their obligations, to the city and surrounding territory—now it becomes necessary that property owners show their loyalty by supporting their fund drive. Your support in this drive is your protection in the event of fire.

Maslowski-Conrad

At a small informal wedding arranged for half past two Saturday afternoon in Christ Lutheran

Church, Cambridge, O., marriage vows were spoken by Helen Louise Maslowski, daughter of Mr. and Mrs. John Maslowski of 1204 Murray Ave. and Harry Russell Conrad, son of

Mr. and Mrs. Ivan Nelson Conrad, of Burlington, Ky. Rev. Rudolf H. Willer solemnized the double ring ceremony in the presence of the immediate families.

Baskets of white gladioli, carnations and babies' breath were placed on the altar and palms flanked the chancel steps, on either side of which were burning tapers in a seven-branch candelabrum. A quarter hour of organ music was presented before the ceremony by Leonard M. Thomas.

Given in marriage by her father, the bride was attired in a frock of pale pink linen, styled with v-neckline, lace covered cap sleeves and flared skirt. Her headpiece was a white lace Dutch bonnet trimmed with shoulder length veiling. She wore white elbow-length mitts and carried pale pink carnations on a white Bible marked with white streamers and sprigs of babies' breath. Around her throat was clasped a diamond and pearl lavalier, which her mother and two sisters had worn on their wedding day.

Mrs. John M. Kleban of Cleveland was her sister's matron of honor. Her dress of navy blue was fashioned with a deep square neckline bordered with a wide band of white lace which formed the sleeves. Over this she wore a white capelet. Her hat was of white and navy and her gloves were white. She carried a bouquet of white carnations and blue delphinium.

R. Harold Conrad of Burlington served his brother as best man. Shoulder corsages of pink roses were worn by the mothers of the bride and groom. Mrs. Maslowski was dressed in navy blue crepe with navy and white accessories. Mrs. Conrad wore a navy and white printed frock with matching accessories.

Later in the afternoon when the newlyweds left for a week's honeymoon in northern Michigan, the bride was wearing a light blue summer suit with navy blue and white accessories. After July 1, they will make their home in Wooster.

The new Mrs. Conrad was graduated from Cambridge High School in 1942 and studied at Ohio State University, where she became a member of Alpha Lambda Delta scholastic honorary. She was formerly Women's Page editor of The Jeffersonian, a daily paper of Cambridge, Ohio, and is an inactive member of Theta Chapter, Alpha Phi Sigma Sorority, and the Ohio Newspaper Women's Association.

Mr. Conrad, who is a 1942 alumnus of Hebron High School and a U. S. Navy veteran, was graduated from the University of Kentucky at Lexington, where he became affiliated with Alpha Zeta and Omicron

Delta Kappa, honorary fraternities. He took his graduate work at Ohio State University, receiving a master's degree in 1949. He is a member of the Ohio State Chapter of Sigma Xi, scientific honorary, and the American Dairy Science Association. He will serve as research specialist on the staff of the Department of Dairy Science at the Ohio Agricultural Experiment Station in Wooster while completing requirements for a doctor of philosophy degree.

Constance

Mr. and Mrs. Berckemier and daughter and Walter Berckemier, of Price Hill, Mr. and Mrs. Earl Vahlsing, of Cincinnati, Mr. and Mrs. Herbstreit of Hill Top and Mr. and Mrs. Henry Vahlsing, of Ludlow, called on Mr. and Mrs. Fred Vahlsing, Saturday.

A large crowd was present at the Bible School Saturday, having a picnic at Clayton's lawn. A splendid program was enjoyed.

Prepare Now for a NON-STOP HARVEST

Order Parts and Repairs Early

Your All-Crop harvester should have a thorough check-up before harvest. Examine drapers, concaves, cylinder bars, V-belts, sickle, etc. Only Allis-Chalmers parts are recommended. This year especially, it is wise to order new parts as early as possible.

Older machines should have a complete 24-point check-up in our shop. It's easy to overlook the things you can't see . . . until they cause trouble. Our mechanics have special training in All-Crop harvester service. They can locate worn or broken parts and fix them at lowest cost to you.

THE BOONE COUNTY RECORDER

ESTABLISHED 1875

VOLUME 75

BURLINGTON, KENTUCKY THURSDAY, JULY 5, 1951

NUMBER 50

Ohio Bridge Near Petersburg Given Final Approval

Agreement Signed By Board In Indiana To Start On Interstate Span.

Final plans for the proposed new \$4,000,000 bridge across the Ohio river from Lawrenceburg, Ind., to Boone County, are expected to be completed within six months, with work estimated to require 14 months after approval of those plans.

Members of the State Toll Bridge Commission completed details of an agreement with the Kentucky and Indiana State Highway Departments last Thursday, it was announced.

The Commissioners signed an agreement, previously approved by the Highway Departments of the two states, under which Kentucky will pay for plans for the approach in that state and Indiana will finance plans for the Hoosier end.

The proposed new structure will span the Ohio from Front Street in Lawrenceburg to Kentucky 20 near Petersburg on the Kentucky side of the river.

W. P. Curlin, Kentucky state highway engineer, promised to construct a new 2 1/2 mile linking roadway from Kentucky 20 to the Kentucky approach of the new span. That new linking road will connect with Ky. 20 between Hebron and Petersburg.

Plans have been made for improvement of Highway 20 or a new road to connect with the Donaldson Highway near the Greater Cincinnati Airport. Traffic over the route will determine the type of road to be constructed, it was announced.

Boone County will be greatly benefited by the new span if it is believed, due to the increased flow of traffic through the county. Property in this area no doubt will be increased in value due to the improvement.

O. K. Keller, Lawrenceburg, a member of the commission, said six months would be required to draw the approach and bridge plans. Plans will be drawn by private engineers hired by the commission.

Church of Christ Will Present Musical Program

The Church of Christ, Grant, Ky., will present a program of special music Sunday, July 8, at 9:00 p. m. The three choirs of the church will combine to sing "Jesus Savior Pilot Me," a cantata written and directed by the minister, John D. Hunington.

Soloists will be Jack Purdy, Miss Betty Buckler, Larry Rouse, Mrs. Alfred Martin and Mrs. John Huntington; duet, Miss Sherry Holbrook and Miss Leta Padgett; and trio, Miss Evelyn Ann Rogers, Mrs. Dudley Rouse and Mrs. John Huntington.

Everyone is cordially invited to attend.

The offering taken will go into the building fund to help pay for the parsonage which was purchased by the church last Saturday.

A Church Fellowship Picnic will be held Sunday, July 8, at Purdy's lake. All members of the church are invited to attend. Bring your baskets, and enjoy the fellowship.

\$113,322.09 To Be Provided Boone Co. Schools For Year

According To State Superintendent Of Public Instruction.

Frankfort, Ky., July 3—A state per capita school fund of \$38.40 for each child included in the school census, highest in the history of Kentucky, will provide \$113,322.09 to school districts in Boone County for the current school year, it has been announced by State Superintendent of Public Instruction Boswell B. Hodgkin.

The per capita figure is \$8.81 above last year's previous high of \$29.59 behind each of the 682,595 children included in the school census. The increase fund where in each district in the State receives substantially more funds than last year—was made possible by an additional \$6,000,000 voted by the recent special session of the General Assembly, called by Governor Wetherby, which raised the fund \$20,212,500 to \$26,212,500 for the year.

The per capita distribution announced by Mr. Hodgkin will provide average annual salary increases of approximately \$300 a year for each teacher in the State since all funds from this source must be devoted exclusively to teacher salaries.

Funds to be distributed for equalization purposes to district unable to meet the State average will be announced after all assessment data for the year has been furnished by the Department of Revenue, Mr. Hodgkin said.

Sums to be received by various school districts in Boone County are: Boone County District \$94,889.49; Walton-Verona Independent District \$18,432.60.

Stephens-Scott

The home of Rev. R. A. Johnson was the scene of a quiet impressive double ring ceremony, Saturday morning, June 30, uniting in the bonds of holy wedlock Agnes Marie Stephens, daughter of Mrs. Rosalie Arnold and Sebern Ryle Scott, youngest son of Mr. and Mrs. Vernon Scott, both of near Grant, Ky.

The bride was lovely in her ballerina length dress of dupont nylon, made with cap sleeves, full skirt, sheer bodice, a Peter Pan collar, fastened with tiny self covered buttons. For her headpiece she wore a hola of stephanotis with white satin ribbon streamers. She carried her white Bible, a gift of the groom's parents, covered with three white orchids intermingled with stephanotis from which many streamers of white satin ribbon knotted with the flowers to match her halo.

The bride's only attendant was her cousin, Mrs. Jean Miller. She was very attractive in a light orchid dress, wearing a halo of sweet orchids and orchid satin streamers. Her colonial bouquet was three orchids and sweetheart roses with satin streamers to match her halo.

The groom and his best man, Lefe Miller, Jr., were dressed in blue suits with white boutonnieres. Immediately following the ceremony the bride and groom left for a short honeymoon. After their return they will be at home to their host of friends at the home of the bride's mother.

For her going away outfit, the bride chose navy with blue and white accessories.

Both the bride and groom are graduates of 1945-1946 of the Burlington High School. The groom is a very successful young farmer of the Bellevue neighborhood. The bride has been employed for the last 2 1/2 years at the Burlington Grill.

Last Friday evening the Union Baptist Church was the scene of a rare and beautiful occasion, when more than two hundred friends and relatives helped Mr. and Mrs. James A. Huey celebrate their 70th wedding anniversary.

At the appointed hour the charming little silver-haired bride of 70 years (Miss Sallie) entered the church on the arm of her husband (Boss). She looked radiant and lovely in her long white organdy dress of lace and pin tucks in which she celebrated her 25th anniversary 45 years ago. The arch through which they entered in the basement of the church was one of beauty with streamers of orchid and white and white wedding bells.

The basement was banked with baskets and vases of flowers, sent by friends.

Those having the honor of standing in the receiving line with Mr. and Mrs. Huey were Mr. and Mrs. Joseph A. Huey, Dr. and Mrs. J. M. Huey and two lovely children, Mrs. Patsy H. Slayback and Allen Slayback, Mr. and Mrs. Gaines Edward Huey, Mr. and Mrs. Lassing Huey, and Mrs. Lula Huey.

The table bearing the three-tier wedding cake was surely one of beauty, dressed in a very prized lace tablecloth, an heirloom, baskets of orchids and silver candelabras bearing white tapes graced the wedding cake. Above the table was a circle of white wedding bells and orchid and white bows.

Soil Conservation Air Tour Meeting Held In Burlington Friday

Twelve Farms In Three Counties Will Be Included In Tour.

Plans are being completed for a Northern Kentucky Conservation Air Tour scheduled July 31, it was announced by Floyd Kells, work unit conservationist of the Soil Conservation program in Boone County.

Committees to promote the tour, and aid in bringing good soil conservation practices to public attention were named at a meeting held in the district office, Burlington, Friday of last week. Representatives from all sections of the county attended the meeting, according to Mr. Kells.

The purpose of the tour is to acquaint farmers throughout the district with the advantages of conservation practices. Farmers will have an opportunity to view these practices from the air, if they so desire.

Twelve farms, nine in Boone, two in Grant and one in Kenton County have been selected to figure in the tour. They were selected due to their position, and practices being carried out. These farms will be marked in order to distinguish them from the air, and their conservation practices will be explained to those attending the tour.

The meeting scheduled at the Boone County Airport will be held from 9:00 a. m. to 5:00 p. m. on the above date. The Boone County Airlines, located on the grounds of the airport will be the location of the meeting. All planes making the tour will leave the local airport, it was announced.

Farmers throughout this area, are urged to attend this meeting, and to avail themselves of the opportunity of viewing soil conservation from the air.

Firemen's Goal Still Short By \$690.00, Is Word

Solicitors Report \$2,310 Collected; Final Reports Urged By Monday Night.

The Auxiliary Firemen of the Burlington Fire Department met Monday night at the courthouse and made their reports to date. They reported \$2,310.00 collected which leaves them approximately \$610.00 short of their original goal of \$3,000 which was set at the beginning of the campaign.

The \$5.00 per year membership plan for everyone living within this area has been well received and more than 95% of the property owners have already signed to give \$5.00 per year to support the fire department. The fine spirit which has been shown all solicitors in this campaign is most encouraging and makes their task a little lighter. All solicitors reported much interest in the department and the property owners have displayed that interest in their donations and sign-up in the membership plan.

Although much stress has been placed on the complete coverage of this entire area, we realize that some persons will be overlooked who want to contribute to this campaign. If you have not been solicited, bring or send your donations this week to any of the following places and they will see that you get proper credit: A. B. Renaker at the bank; Judge C. L. Cropper at the courthouse, or to this newspaper office. We would like to get all pledges and promises completed this week if possible so the campaign can be closed and we can get the money to the Fire Department for the equipment they need so badly.

Everyone in this area is invited to attend the final meeting at the courthouse Monday night, July 9, and if you desire, you can bring your donations in at that time and hear final reports on the campaign.

Week of July 22-29 Set Aside As Soil Conservation Week

Proclamation Issued By
C. L. Cropper, County
Judge of Boone County.

The week of July 22 to 29 has been set aside as Soil Conservation District Week, and all citizens of Boone County are urged to observe this period and to unite with the local conservation district supervisors in an effort to stimulate a full realization of the desperate need for conserving soil and water resources.

In cooperation with the soil conservation officers, Judge C. L. Cropper issued the following proclamation:

To all to whom these presents shall come—

WHEREAS, the conservation of our soil and water resources is

essential to the public health, safety and welfare of our present generation as well as generations yet unborn; and,

WHEREAS, the rich topsoil of Boone County is still being permitted to wash away faster than it is being saved despite the fact that never before has the safeguarding of soil and water been so vital; and,

WHEREAS, this damage is not confined to individual farms but contributes to floods, highway damage, silting of reservoirs, forest deterioration and public health; and,

WHEREAS, this enormous loss can be stopped by the establishment of complete soil and water conservation programs recommended by soil conservation districts; and

WHEREAS, Lawrence W. Wetherby, Governor of the Commonwealth of Kentucky, has proclaimed July 22-29 inclusive as a statewide Soil Conservation District Week;

NOW, THEREFORE, I, C. L. Cropper, Judge of Boone County, do call upon all citizens of Boone County to observe the period of July 22 to 29 inclusive as SOIL CON-

SERVATION DISTRICT WEEK and request all persons and organizations concerned with the land to unite with the local soil conservation district supervisors in an effort during the period to stimulate among the County's population a full realization of the desperate need for conserving our soil and water resources. I especially urge our soil conservation district supervisors to increase their activities during this period to reach the greatest number of citizens in our county.

Done at Burlington, Kentucky, this 3rd day of July, in the year of our Lord, one thousand nine hundred and fifty-one.

C. L. Cropper, Judge
of Boone County.

Elsmere Man Fined In County Court Monday

Richard A. Harms, 22, Elsmere, was fined \$100 and costs Monday by Judge C. L. Cropper in Boone County Court, on a charge of leaving the scene of an accident and speeding.

As an additional penalty Judge Cropper revoked Harms' operator's license, which would be sent to Paul Boyd, Supervisor of Operators' Licenses, Frankfort. Boyd has the power to suspend driving rights either partially or permanently.

This action by Judge Cropper was taken after taking into consideration the fact that Harms had been arrested on two previous occasions during the past year on speeding charges.

Harms was arrested by State Trooper Joseph Lucas, four miles south of Florence on U. S. 25. The officer reported that Harms was driving his car 85 miles an hour when it sideswiped an automobile driven by an Indiana motorist, and that he failed to stop.

Although asked to prefer charges by the police, the Indiana man declined, as he said he was en route to Florida on his vacation.

Petersburg Man Serving In Korea With U. S. Army

With the 1st Cavalry Division, U. S. Army, in Korea (Delayed)—A Petersburg, Ky., Army man is serving in West Korea with one of the famous combat units fighting Chinese Communists.

Private Robert O. Smith, friend of Earl Acra, Petersburg, is in the 1st Cavalry Division's 70th Tank Battalion.

Smith's armored outfit is the colorful force that led three of the Korean War's most historic drives:

1. The blitzkrieg offensive northward from Taegu to Osan in September.

2. The first crossing of the 38th Parallel in October, and

3. The entry of the North Korean capital city of Pyongyang in the same month.

Of the 14 tank-to-tank battles fought in Korea, the 70th Tank has participated in 11. Of the score of enemy tanks rusting along Korean roads, the 70th Tank has accounted for more than its share.

Its greatest contribution to the fight has been in backing-up G.I. Joe. The tanks probe deep into enemy lines, softening up the enemy resistance that creates the infantry's biggest problem.

Twenty-Fifth Wedding Anniversary Observed

An event of twenty-years ago was fondly recalled by many friends and relatives of Mr. and Mrs. Charles L. Hemphill, who gathered with them on Sunday, June 24 in their beautiful new home on Highway 298 below Taylorsport, to celebrate their silver wedding anniversary.

A bountiful dinner was served at noon, typical of such an occasion. In the afternoon the group was graciously entertained with games, television and old time visiting.

Pictures were made of the original wedding party which included Mrs. Sarah Markberry, maid of honor, Mr. and Mrs. Charles Hemphill, bride and groom and Mr. Earl McGlasson, best man. Other pic-

tures made were generation pictures, and group pictures.

Many beautiful gifts were received by the honored couple typifying the love and admiration of their many friends and relatives.

Those enjoying the occasion were: Mrs. C. O. Hemphill, Mrs. Ola Peterson, Mr. and Mrs. Charles F. Hemphill, Taylorsport; Mr. and Mrs. F. L. McGlasson, Sr., Mr. and Mrs. Frank McGlasson, Jr., Mrs. Josie Garrett, Mr. and Mrs. Earl McGlasson and family, Mr. and Mrs. Rodney McGlasson, Mr. and Mrs. Virgil Hapley, Mrs. Eva McGlasson, of Constance; Dr. and Mrs. J. E. Stomberger, Mr. Edwin Walton, Mrs. Anna Walton, Mr. and Mrs. Leroy McGlasson, Mr. and Mrs. Melvin McGlasson and daughter, Mr. and Mrs. Galen McGlasson, of Hebron; Mr. and Mrs. Wm. Marksberry, of Florence; Mr. and Mrs. Adam Dolwick and daughter of Pt. Pleasant; Mr. and Mrs. Calvin Moulder, of Hopkinsville; Mr. Stanley Parsons, of North Bend Bottoms; Mr. and Mrs. H. W. Cpl. Lindy A. Sebree Arrives In Germany

Word has been received here by Mr. and Mrs. D. Sebree and Mrs. Lindy S. Sebree of Cpl. Sebree's safe arrival in Germany. He was one of 18,000 men to be sent with the 4th Infantry Division from Fort Benning, Ga.

Cpl. Sebree states that many of the buildings in the German cities still show the effects of World War II, though the countryside there is beautiful, resembling very much the bluegrass area of Kentucky.

This young man would appreciate very much hearing from his friends. His address follows:

You burn air
by the silo full

IS IT CLEAN?

Did you know your tractor burns about 10,000 gallons of air for every gallon of gasoline? Yet, if a small amount of grit goes through with the air, it can damage cylinder walls and cause trouble.

That shows how important some of the "little things" are. It pays to service the air cleaner regularly, keep the oil filter clean, adjust carburetor properly. It also pays to replace worn parts and let our factory-trained mechanics check on anything that is out of adjustment.

Our parts department is well stocked with parts made in the same factory and to the specifications as the original. Our mechanics will work extra hours if necessary.

If your tractor needs service, don't put it off. Phone or stop in.

Six flights from the Greater Cincinnati Airport in Boone County were held Thursday of last week as a prelude to the Northern Kentucky Conservation Air Tours scheduled for Tuesday, July 31.

The flight covered conservation practices on twelve farms in Boone, Grant and Kenton counties. Guests of the preliminary tour viewed the following farms and their conservation practices:

The project is a cooperative program set up by Floyd Kells, Work Unit Conservationist for Boone County, in cooperation with the State of Kentucky Division of Soil and Water Resources and the State Division of Aeronautics, Frankfort.

Other agencies cooperating in the proposed air tour are: Boone County Farm Bureau, University of Kentucky College of Agriculture Extension Service, Production Marketing Administration, State Division of Fish and Game, Farm Home Administration, U. S. Department of Agriculture Soil Conservation Service and the Department of Education Division of Vocational Agricultural Education.

Poultry Culling Demonstration Is Scheduled

Efficiency of Production One of Most Important Steps, Says Agent.

A poultry culling demonstration will be held at the farm of Alva Woods, Big Bone, at 10:00 a. m. Friday, July 13, according to Bill Davis, County Agent.

The meeting is especially scheduled for veterans' classes, but anyone interested in poultry is invited to attend. Efficiency of production is one of the most important means of making the poultry flock profitable. One method of increasing the efficiency is to dispose of poor producers and individuals having undesirable characteristics that may be passed on to their offspring. The culling process should begin when eggs are selected for hatching and be continued until the usefulness of each individual bird has terminated. Constant culling and selection should result in a flock which produces desirable offspring.

Culling the hen flock is of much economic importance. It has been estimated that production of 90 to 100 eggs is necessary to pay for the feed and upkeep of a hen. The more eggs produced over this number the more profitable a hen will be. Generally a flock of hens can be divided into three groups; poor producers, medium producers, and good producers. The knack in culling is to be able to distinguish fairly accurately between these three groups so that poor producers may be disposed of. The sooner poor producers are removed the more profitable the flock will be.

Auxiliary Firemen Report \$3,087.00 At Meeting Monday

Present Needs of Fire Department Call For Expenditure of \$3860.00

At a meeting of the solicitors for the Burlington Volunteer Fire Department Monday night, at the courthouse, a total of \$3,087.00 was reported, with several pledges yet to come in, according to A. B. Renaker, chairman of the drive.

The goal for this particular drive was set at only \$3,000.00, however, the original budget for the actual needs of the department at the present time is \$3860.00. It was decided at the meeting to continue the campaign and strive to raise the original budget now and get the department in good shape at once.

The response by all persons has been encouraging and all solicitors gave good reports on all persons contacted. Over 95% of all persons contacted offered the \$5.00 per year plan for the future and have pledged to pay this amount.

The drive is still in effect, as there are lots of pledges out and several persons yet to see. If you have not paid your pledge, or if for some reason you have been overlooked by the solicitors, you are requested to turn your money in to Mr. Renaker at the Peoples Deposit Bank as soon as possible so you can be given proper credit and the campaign closed.

Sketches Of Old-Time Petersburg Residents As Written By E. Y. Chapin

J. Frank Grant

He was a native of the county and might well be termed Petersburg's first man of letters. He wrote fluently and graphically and while his subjects were confined to the homely doings of his neighbors, they had the sparkle of a finished essayist. A sketch he wrote about one of them, who shouldered his spike-pole when the drift was running, is a classic. He was the Petersburg correspondent of the Recorder for many years and gave his column a metropolitan brightness.

He was one of the first of our people to collect books. It was he, who brought the first copies of Dickens and Mark Twain to the village. It was his delight to lend them to the less-fortunate people and he did more than any other to plant the taste for good literature among his neighbors.

He became the village's leading merchant and he was a leader, not only in that, but in everything that made for the advancement of the community. He organized and conducted the community's first bank and made it a tower of strength and resource to the neighborhood.

He was a pillar of the Methodist Church and lent his splendid cultivated voice to its services. His prominence in Odd Fellowship led to his election as National Executive Secretary of that order and his removal to Baltimore in his later years.

He was his community's master builder in all that pertained to its welfare and his home was the favored resort of those, who wished to spend an intellectual evening. He left an impression on the village that endures.

Charley Schramm—An Appreciation
Everyone called him "Charley"; because everyone loved him. No one could be formal with or about him; his nature was too genuinely affectionate for that. He seemed an intimate part of every family in our village.

His life affords a fine example of what untrusting, unselfish effort can do. He shouldered a man's responsibilities before his boyhood was over. A widowed mother and his sisters looked to him for what is expected of the man of the family. He never disappointed them. After awhile, a community began to depend upon him. He never failed it.

My childish memory goes back to him as a youthful clerk in Snyder's store. I stood in awe of other merchants; but I loved to go to him when I had a penny to spend; I got so much besides the merchandise. He had a way with children that never

failed to win their hearts.

He had the same way with grown people. His helpfulness went far beyond his material resources. It is hard to accumulate in a village; and Charley Schramm began by rejecting some of the easier ways. Down to the routine of his daily work, he thought of service, not reward. Easier paths and better pay were often offered him. He kept to things which served his neighbors best.

He was the kind of man that is invited to profitable tasks in larger communities. Such invitations came to him often enough. They seemed to tempt him to leave his neighbors and friends. He stayed where people had learned to depend upon him; and accepted the very modest reward which they could offer him.

And yet, somehow, he always had money when it could serve a friend. Sometimes he borrowed it; sometimes he sacrificed his personal plans to supply it; but no applicant for assistance ever came away from Charley Schramm with empty hands. His great generous heart could always command the resources needed to help his friends.

He met with many disappointments. He was peculiarly fitted to be a husband and a father; but he died a bachelor. Friends did not always meet his expectations; gratitude was often denied him after it was richly earned. His generosity was so broad and so continuous that too many accepted it as a matter of course. He suffered imposition far too often. But you would never have known these things from him. You had to infer his disappointment; he never expressed it.

I wish I might write down the long list of those whom I know to have been helped by him—so many of them young men who got encouragement as well as material help. I wish that the infinitely larger list, helped so quietly that only the recipient of the favor knew, might be published. But even that could add but little to the estimate of his character in the community in which "he went about doing good." Every man, woman and child there knew Charley Schramm for a friend; a helpful, kindly, generous friend, that never failed them.

He was laid away with greater evidence of love and respect than was accorded any other member of our community that I can remember. It was justly so; for Charley Schramm brought more of kindness, helpfulness and unselfish regard into our village than any other man that it has been my good fortune to know.

Twenty Years From Now

PEOPLE'S SHOE STORE

Will they thank you for good strong feet?

Oh, you mother of a child—you want his manners to be nice, you want his brain to be quick, you want his hands to be agile—but don't you want his feet to be sturdy and true, well-shaped and graceful? Are those of your daughter?

You mother of a child, twenty years from now his feet will be walking up to get a diploma, or confidently marching in to get a job, maybe walking up to an old church altar to meet a bride in white. (Or it may be the bride herself). Your child may never thank you for good strong feet, he'll take them as a matter of fact, but what will he think if they're not good strong feet? Sure he'll still love you—but why didn't mother make sure I was growing up right?

It is a responsibility, just one of the many a mother takes on when she brings a child into the world.—Adv.

DAIRY COWS RETURN \$318 GROSS INCOME

The high dairy herd last year among Todd county farmers keeping records was owned by Charlie Power. His herd of 19 cows averaged 5,506 pounds of Grade A milk sold per cow last year, notes Stuart Brabant, county agent. Gross income per cow was \$318, and feed cost, \$128, leaving a profit above feed of \$192 per cow. About half his cows are artificially sired.

Records show that Grade A herds in the county producing market milk with only replacement heifers raised, made the highest net profits, said Brabant, although more labor is required.

Pipeline Company Will Install New Booster Stations

To Meet Increasing Defense and Civilian Requirements.

Longview, Texas, June 25—Mid-Valley Pipeline Company today announced plans to step up capacity on its 1,000-mile crude oil line from east Texas to Ohio to meet increasing defense and civilian requirements for petroleum products in Ohio and the adjacent area.

Construction of six new booster pump stations, together with additional tankage, will increase from 155,000 bbls. to 235,000 bbls. per day the capacity of the 565-mile section of 22-inch line between Mayersville, Miss., and Hebron, Ky., with proportional increases in the sections from Longview to Mayersville and from Hebron to Lima, O.

The new booster stations will be located at Stevenson, La.; Minter City, Miss.; Hornsby, Tenn.; Elkhart and Simpsonville, Ky.; and at Pyramont, O.

An additional pump unit (either diesel or electric motor) is also to be installed in each one of the existing main trunk line stations. A micro-wave communications facility will be installed at each new booster station.

"Increased refinery demands for Ohio and adjacent areas have made it necessary to include this new construction before the line is fully completed," E. F. Morrill, president of Mid-Valley said.

Cost of the new installations will be from 8 to 9 million dollars. Completion is expected early in 1952, providing satisfactory delivery can be obtained on materials on order.

Expansion of the capacity of the

Mid-Valley line, a common carrier, is part of an over-all program to make full use of available new supplies of crude oil from west Texas.

The Mid-Valley line will connect with the projects "big inch" crude line from west Texas through a 20-inch spur from Wortham to Longview in east Texas, the southern terminal of the Mid-Valley line. Sun Oil Company and The Standard Oil Company (Ohio), joint owners of Mid-Valley, are also participants with Gulf Oil Corporation, Cities Service, and Pure Oil Company in a new pipeline which forms a link between west Texas oil fields and pipeline and port facilities in the eastern part of the state. It is expected that construction of this line will start early in 1952.

WOOL PRICES INVITE ATTENTION TO MOTHS

Because wool is scarce and prices are high, it will pay the housewife well this year to see that all articles of this fiber be given careful protection against moths. This applies to blankets, rugs and upholstered furniture as well as to coats, suits, dresses, sweaters and other garments of wool, says Prof. W. A. Price, state entomologist at the College of Agriculture and Home Economics, University of Kentucky.

A good airing and brushing is the first step in caring for clothing, followed by light spraying on both sides of the garment with a 5 per cent stainless DDT solution. While it may be safely used on fur, caution should be taken to avoid its use on rayon, such as in linings.

A further safeguard against moths is to spray the walls, baseboards, floors and door edges of a closet with 5 percent DDT oil solution. Insects will be killed that come in contact with the DDT deposit left after the liquid has evaporated. Dry of the spray may be hastened by the use of an electric fan.

Drawers or chests for storing woollens should also be sprayed with

the above solution or dusted with 5 percent DDT dust.

Flake naphthalene or paradichlorobenzene is also effective in protecting woollen garments for the summer months. Garment bags, trunks or chests may be used for storage if reasonably tight. When a garment bag is used, tie the naphthalene in cheesecloth, to be suspended at the top of the bag, as the fumes go downward. When trunks or boxes are used, scatter the crystals between layers of tissue paper. Use a generous amount—a pound for 80 cubic feet, or four ounces for a single garment bag.

To protect carpets, sprinkle 5 percent DDT generously under them, and treat the surface with a DDT stainless solvent. The same spray may be applied to upholstered furniture, special care being given to the seat, where lint collects.

GARDEN CLUB MEETING

The Boone County Garden Club enjoyed a covered dish luncheon at the home of Mrs. A. W. Fullerton, with Mrs. E. E. Abbott as co-hostess. The business session was opened with prayer by the president, Mrs. Sam Denham, Sr.

Mrs. John Dye, Hebron, talked to the club on "Delphiniums" and garden glory was truly expressed in the very beautiful specimens she brought to the club.

Mrs. Dye points out the importance of starting with good seeds. In May, June or July sow seeds in coldframe or seed bed having soil very fine and consisting of two-thirds leafmold and one-third garden soil. Sow seeds thin, moisten lightly and keep covered with burlap 12 to 14 days. Do not let seed bed dry out. After plants come up, take burlap off evenings. In the fall move plants where you want them, space 2 or 3 feet apart and give them lots of water—a good watering once a week. Dig soil deep, as plants are deep rooted, loosen soil good at bottom, have good rich soil. Add compost and bone meal, also little sand for drainage. As soon as plants show buds, stake. Be sure to use tall stakes as some plants grow 6 ft. tall. As soon as blossoms fade, cut back to 6 or 8 inches from ground, let rest and new shoots will come. Keep about 3 largest, pull others off and they will bloom again, also a third time. After 3 years plants can be divided early in the spring. If disease like yellow mold fungus or black spot appear, use proper spray. Protect plants in winter with mound of sand or coal cinders.

The club was glad to have Mrs. H. V. Leonard as a visitor. Members present were Mesdames Sam Denham, Sr., R. C. Garrison, John Dye, Geo. Casper, Ruby Hollis, T. H. Hensley, V. T. Williams, Sam Denham, Jr., Grant Maddox, Ralph Cody and the hostesses A. W. Fullerton and E. E. Abbott.

18 YEAR OLDS ARE ELIGIBLE FOR WAVES

A recent lowering of the age requirements has made it possible for many young women to enlist in the WAVES, according to an announcement made by LCDR C. B. Hawley, Jr., Officer in Charge, U. S. Navy Recruiting Station, Cincinnati, Ohio.

The revised regulations permit the enlistment of women who have reached their 18th, but not their 26th birthday, and who meet educational requirements. The previous minimum age was 20, which made many high school graduates ineligible.

The Navy trains WAVES, accord-

ing to individual aptitude, in 37 different ratings, all of which are highly specialized and closely related to many civilian skills and occupations. Information concerning mental and physical standards may be obtained by contacting any U. S. Navy Recruiting Substation, or the Main Recruiting Station, Federal Building, Cincinnati, Ohio.

Annual Series of Cattle Shows Are Scheduled For July

Dry Ridge Meeting Set For July 18; Cattle To Be In Place at 10:00 A. M.

The Kentucky Brown Swiss Breeders' Association extends a cordial invitation to all those interested in Brown Swiss cattle to attend its annual series of cattle shows and fields days during the third week of July. The show in the Central Canton, in which this county is located, will be at the farm of Brice Brown, at Dry Ridge, Grant County, on July 18th. Cattle are to be in place at 10:00 a. m. fast time. There will be a visiting period during the morning. Show time will be at 1 p. m., and Ed Troutman of the Dairy Department of the University of Kentucky will judge. Present with him will also be Fred Gauntt, Fieldman for the National Brown Swiss Breeders' Association, and

some of the officers of the Kentucky State Association. Owners of Brown Swiss cattle are urged to bring them to the Dry Ridge show. Entries are to be made through O. L. Ramsey, Central Canton Secretary, Kentucky Brown Swiss Breeders' Association, Dry Ridge, Ky. Inquiries should be made in advance to insure compliance with health requirements. All cattle must be T. B. and Bangs tested.

This show promises to be an unusually good one, with many entries already promised, and with the show built around the very fine herd of Brice Brown, at whose farm the show will be held.

An outstanding feature of the annual Kentucky Brown Swiss Association Canton shows is the judging contest open to all 4-H and F. F. A. members, with prizes for the winner in each organization. 4-H and F. F. A. members will be welcome, and it is suggested that if there are transportation difficulties they contact their County Agent to see if he is making up a party to attend the show.

In addition to the Canton or District shows, there will also be an All-State show and field day at Steel

Way Farm, Paris, Ky., on July 21st. Those breeders are also invited to bring their animals. Entries are to be made through Jess Carter, manager of Steel Way Farm, Paris, Ky. Besides the cattle show and 4-H and F. F. A. judging contest at the All-State show, a rare opportunity will also be afforded through the presence of Dr. George Trimburger, head of the Dairy Department of Cornell University. Dr. Trimburger will classify the fine Steel Way herd and will stay over for the All-State show to give a classification demonstration.

Union Church Will Give Strawberry Social July 14

A strawberry social will be given by the Union Presbyterian Church Saturday, July 14th, from 4:00 until 9:00 p. m. at the home of Surface Barlow in Union.

Besides strawberries, ice cream, cake, coffee and soft drinks will be served. You are invited to attend, bring the family and friends—everyone welcome.

SOCIAL SECURITY FIELD REPRESENTATIVE TO VISIT ERLANGER JULY 19

Elbert M. Bohon, manager of the Covington Social Security office, announces that Edward J. Bolte, field representative, will be at the Post Office in Erlanger from 10:00 a. m. to 11:00 a. m., on Thursday, July 19. He will receive applications for old age and survivors insurance benefits under the amended law, as well as issue social security account number cards.

Mr. Bolte is available for consultation on any phase of the Social Security law as well as for appearance before regular groups, clubs or special gatherings to explain the old-age and survivors provisions of the law. No charge is made for this service. Contact the Covington Social Security Office if you contemplate having such a meeting.

STEWART STATIONERY CO. IN NEW LOCATION

The Stewart Stationery Co., which is quite popular with Boone County shoppers, is now located in the remodeled building at 208 Pike Street, Covington, west of the Covington Depot underpass. It had been at 505 Madison Ave., the past 12 years. The new store is larger and completely modern.

The firm started as Stewart-Carr in the Covington Trust Building in 1932, and the present owner, William Stewart, better known as "Bill," took over full operation in 1933.

Mr. Stewart, who is widely known as an inventor, is a great grandson of Sam Flickinger, co-founder of the Poundstorf Stationery Co., Cincinnati, and a great-grandson of Mr. Kumlner, of Kumlner-Rike, a large Dayton, Ohio, store.

Goals Exceeded By Burlington Baptists In Renovated Church

Total of 351 Attend Sunday School; Seven Baptized.

Goals set up by the pastor of Burlington Baptist Church were exceeded in every department Sunday, with the exception of B. T. U., when the congregation returned to the completely remodeled building, after being absent, due to repairs for the past several weeks.

A total of 351 were present for Sunday School and a group of approximately 450 attending the morning service, it was reported. The auditorium would not accommodate the overflow crowd, many being seated in the vestibule and some on the landing of the church steps.

Although work has not been completed on the structure, the interior is beautiful. Complete changes have been made in the lighting system, which adds much to the service. A baptistry has been placed in the rear of the pulpit stand, and will be beautified with a painting in the near future.

The new addition in the rear of the building is being used for the educational center, having five Sunday school rooms, furnace room and kitchen.

New pews for the auditorium have been ordered and will be installed immediately upon delivery, it was reported.

Between 12,000 and 15,000 acres of popcorn were expected to be planted in Calloway county for the Murray market.

One of the best marks ever found in Madison county has been located on the Barnett Wilson farm. It tested 74 percent lime.

Two Men Held For Grand Jury Action Following Hearing

On Solomon-Reeves Altercation, Involving Ditching of Truck.

Two men were held for action of the Boone County Grand Jury Saturday after being arraigned in Judge C. L. Cropper's Court.

Amiel Solomon, 18, Smith Road Highland Heights was charged with throwing a pop bottle at the truck of Gilbert Reeves, Hebron, and Reeves on a charge of assault and battery.

Testimony at the examining trial disclosed that on June 26, Solomon, riding in the front seat of Howard Fisher's car of Fort Thomas, proceeding from Linaburg to Hebron, threw a pop bottle from the left side of the automobile to the left side of the road, while passing a truck being driven by Mrs. Ruby Reeves, wife of Clyde Reeves. The truck swerved into a ditch.

Reeves, a passenger in the truck, took over the wheel, the court was told, turned the truck around, and pursued the car being driven by Fisher, overtaking it at the intersection of Ky. 20 and Elijah Creek Road, two miles north of Hebron. It was testified that Reeves picked up a rock, smashed the windshield of Fisher's car, and assaulted Solomon. Solomon said he suffered cuts on his fingers from the flying glass, and claimed to have been bruised on the chest.

Charges against Fisher were dismissed.

Reeves was represented by A. D. Yelton and John L. Crigler, Burlington attorneys, while Fisher and Solomon were represented by Lawrence Reidinger, Newport attorney.

Lifelong Resident of Boone County Dies

Death came last week to Mrs. Elizabeth Klaserner, better known to everyone as "Aunt Lizzie," at the home of her granddaughter, Mrs. Jos. Domaschko, in Erlanger, Ky.

She was one of the oldest inhabitants of Boone County, having spent her entire life here—a span of 88 years of love and service to all who knew her. Her younger years were spent in Constance, Ky., until the death, 31 years ago, of her daughter, Mrs. B. J. Michels, when she and the late Henry Klaserner gave up their home to move on the farm and raised her three grandchildren. This was where she was to spend her remaining years. Mr. Klaserner died 20 years ago, but she continued her life there as the children still needed her steady hand and the wisdom of her years of experience.

Surviving are her son, Fred Klaserner, her four grandchildren, Mrs. Bud Hedman, Mrs. Jos. Domaschko, B. J. Michels, Jr., and Mrs. Edw. B. Meyer and fifteen great-grandchildren and a brother Wm. Haberle, of Illinois.

Funeral mass was held at St. Henry's Church, Erlanger, Ky., with burial in the family lot at St. Mary's Cemetery.

Florence took an early lead over Burlington by chasing over five runs in the first inning, but the winner came back with seven runs in the third inning and remained in front throughout the game. Included in Burlington's 21-hit attack against the offerings of Markesbery and Rouse were homers by Barnes, McBee and Miller. The losers collected 14 safeties off the hurling of Jim and Joe Smith.

Garden Club Members Visit Historical Graves

Twenty-two Boone County Garden Club members and visitors had an enjoyable and educational day when on July 10th they gathered at the home of Mrs. Nell Markland and visited the Old Sand Run Church and Sand Run Cemetery. They were at the grave of Col. Cave John, who died at Northend and was buried at Sand Run in 1850.

Returning to the home of Mrs. Markland, a picnic lunch was eaten by beautiful Echo Lake, which is the pride and joy of its owner and a real pleasure to all its visitors. In her yard is a magnificent magnolia she planted 45 years ago, also a very interesting smoke-fringe tree. She is the proud possessor of a Sun Dial that is amazingly accurate.

In the afternoon the club visited Sugar Grove Cemetery and found there the grave of John Cleves Symmes Harrison, son of President Wm. Henry Harrison, who was born in 1798 and died in 1830. Also, president Harrison's fourth wife is buried at Sugar Grove. Another interesting grave is that of Clara H. Pike, wife of Gen. Z. M. Pike, who discovered Pike's Peak and John Brown, who fought in the Revolutionary War.

Returning again to Mrs. Markland's she showed the club a tape given her by the Johnsons one they had brought with them from Virginia and is now over 200 years old. Mrs. Markland is a true lover of Boone County and the historical part it had in helping to build our great nation. However, she is a little sad at the way these historical spots are neglected.

The Garden Club wishes to thank Mrs. Markland for her hospitality. She is full of interest and enthusiasm and a real booster for Boone County.

Ernest Crutcher, student at University of Kentucky, and Williams Crutcher and two sons, of Williams town, were Sunday afternoon guests of Mr. and Mrs. Frank Maurer and family.

New Money Order Blanks Now In Use

The Postal Service brings you a new streamlined money order system. The new punched card money order is issued more quickly and paid more conveniently. The new system was put into operation on July 2, 1951 to replace the old paper money order forms.

No specific post office is named for payment—it may be cashed at any post office or bank. The small holes in your money order play a big part in its processing through electronic machines, therefore the public is asked not to fold, staple, spindle or mutilate.

It is suggested that money orders be cashed promptly. Even though they are good for one year from the date of issue, it is not a good policy to carry them too long, as they can easily be damaged if carried too long.

Standing and sitting erect require less muscular effort than the slumped posture for the normal, healthy person. With the body in an erect attitude the center of gravity passes more nearly through the center of the body and places the weight on bones and ligaments that are by nature equipped to meet this demand, the shoulders droop, the spine curves and the abdomen bulges; then muscles must take on more and more of this burden of weight bearing a burden for fatigue and later actual deformity of certain of the bones and joints.

The first necessity in good posture is good feet. Show me a person with good posture and bad feet. It's almost impossible.

But show me a person with good posture and I'll show you a person with good feet for good posture starts with good feet. The foundation of any super structure is the most important.

Don't suffer another day with your feet. No matter how many shoes or trial supports you have tried, try just one more and have one of our foot comfort specialists make a free foot analysis and show you how to get rid of all foot pains, leg pains, backaches and headaches. Even arthritis and rheumatism pains are often mistaken—most times when feet are corrected the pains vanished. We know we can help you to stand up straight.—Adv.

Union Man Shot In Abdomen After Resisting Holdup Man At Service Station Near Union Saturday

Condition of Victim Is
Listed As Fair At St.
Elizabeth Hospital.

Melvin L. Townsend, 65, well known Union businessman is reported in fair condition at St. Elizabeth Hospital, Covington, with a bullet wound in his abdomen and severe head injuries suffered in a gasoline station holdup at Union, Saturday night.

Saturday night a short, young man walked into the station and purchased a bottle of beer. After finishing the drink the man suddenly drew a gun and demanded the money in a cash drawer. Mr. Townsend grabbed the weapon and in the struggle which followed the young man fired the gun, the bullet striking Mr. Townsend in the stomach, according to Sheriff Wendell Easton.

Despite the wound, Mr. Townsend wrestled the gun away from the bandit. The robber then attacked him with a blackjack. After being struck several times with the blackjack Mr. Townsend managed to drive the man out of the door. The robber then fled.

Although seriously wounded Mr. Townsend walked to the home of a neighbor, Garfield Hamilton, who took him to the hospital.

Two Toledo, Ohio men picked up near Union by Sheriff Easton were released after being taken to the hospital for identification by Mr. Townsend. Both men admitted being at the station earlier in the evening.

Sheriff Easton reported that a complete investigation is being made, and a description of the hold-up man has been circulated throughout the state and adjoining territory.

OPS Will Begin Nationwide Survey Of Grocery Stores

First Step Will Be To
Survey Prices of Standard
Grocery Items.

In another week the Office of Price Stabilization will begin a nationwide survey of food prices to lay the base for a program of post-dollars-and-cents "community prices" in grocery stores.

The first step, according to an announcement by OPS District Director John W. Manning, will be to survey prices of standard grocery items in 1,000 wholesale establishments. This will be followed by similar visits to over 2,000 retail grocery stores in the 84 district OPS offices. Information from individual sellers will be held in strictest confidence, said Manning.

Chief purpose of the survey will be to find out if there is enough stability in prices of a number of grocery items to make a community pricing program practicable. Community pricing is a system familiar to "upside" sellers, where the country is divided into relatively small market areas and grocery price ceilings are set for each area on the basis of local transportation and other costs. These ceilings would be the same for all stores of each size class and would be printed on charts for posting in retail stores where all customers can see them, the District Director said.

"OPS is fully aware of the important part that a community pricing program can play in the stabilization program, of the necessity of having published ceilings for consumers, and of the great help such a program can be to individual grocers in simplifying their pricing problems," he said.

He explained that the community pricing program during the last war had a lot to do with holding the line on wholesale and retail food prices from the time it was started in May 1943 to the end of that control program.

Crowd Estimated At 1,000 Attends Verona Rally Friday

No Wild Promises Will
Be Made, Says Governor
Wetherby.

A crowd estimated at 1,000 persons attended the Fifth Congressional District rally for Lawrence Wetherby at Verona Lake, Verona last Friday night.

Fish, drinks and other refreshments were served the crowd prior to the program.

Governor Wetherby was introduced by Judge C. L. Cropper, local chairman of the Wetherby campaign.

Governor Wetherby, addressing the large crowd, declared that he did not wish to inject personalities into the primary or speak against his opponent. He stated his efforts had been to unite the Democrats in order to defeat the Republicans in November.

Governor Wetherby cited his record of 16 years of public service, eight months of which he has served as Governor of Kentucky and more than three years as Lieutenant Governor during which he presided over three legislative sessions.

"I will make no wild promises," he said, adding that he could not promise the repeal of any taxes and at the same time promised to give more funds to state services. He noted that the state will have \$10 million surplus next year, which he observed was evidence that the state was in a sound financial position.

Governor Wetherby stated that he would continue to support the rural road program for which he had worked in 1948. This program is supported by the two-cent gasoline tax enacted by the 1948 General Assembly. He stated that several counties did not favor the program, but it was because they have good roads.

All counties from the district were represented at the rally with Boone County having the largest number present. However, a motorcade of 40 vehicles from Carrollton County swelled the attendance.

Judge Jesse S. Lindsay, State campaign manager for Wetherby and Emerson (Doc) Beauchamp, candidate for Lieutenant Governor, also spoke to the group. Judge Lindsay pleaded for a greater turnout of voters, deploring the increasing drop in the percentage of voter participation in the last 75 years.

Burlington Knotties Eliminated Friday; Hebron Undefeated

Florence Takes Measure
Of Burlington Nine
In Ten Innings.

One of the most interesting and hard-fought games of the present Knotties season was played last Friday evening at the Burlington baseball park between Burlington and Florence. The score was tied at 4-4 at the end of the regulation seven innings. An extra inning was played without any additional score and the game had to be called on account of darkness.

Saturday morning the game was resumed at the Florence ball park and after two more innings of play, the Florence Knotties scored the extra run to make the score 5 to 4 in favor of Florence.

As a result of this game Burlington was eliminated from the series which started last Saturday. Immediately following the Burlington-Florence game, Florence took on the Hebron nine. Hebron emerged the winner by a score of 4-0.

John L. Criger, on the hill for the winners allowed only one hit, while his teammates collected six safeties from the offerings of the Florence hurler. Gary Purcell had a perfect day at bat with four hits in four trips to the plate.

July Month Farmers Should File Social Security Tax Returns

According to Elbert M. Bohon, Manager of Covington Office.

July is the month for farmers with regular hired help to file social security tax returns for the April, May and June quarter, Elbert M. Bohon, manager of the Covington, Kentucky Social Security Administration office said today. Regular hired help is defined as a worker on a farm or in a farm household who meets both of the following conditions:

(1) He must have been employed by a farmer continuously for a full calendar quarter. No tax is due for agricultural labor performed in this quarterly quarter.

(2) In the next quarter he is employed by the same farmer in agricultural labor on a full time basis for at least 60 days, and his cash wages for these services are \$50 or more.

Farm owners and operators who have regular hired help and have not yet registered for filing the quarterly social security tax returns should do so immediately, said Mr. Bohon, in order that they may get on the mailing list for receiving the tax forms automatically every quarter.

Regular farm hands who have never had social security account numbers or who have lost their social security cards should apply for new ones or duplicates as the case may be, said Mr. Bohon.

A woman who does housework in a farm household is considered the same as a hired hand as far as reporting for social security purposes is concerned. In other words, she must meet the same requirements as a hired hand to be considered regularly employed.

For those hired farm workers who meet the requirements of the new law this Government insurance provides monthly payments to them and their dependents when the workers retire after reaching age 65 and payments to their families when they die.

Twelve Farms Will Be
Included In Tour
Covering Three Counties.

The Northern Kentucky Soil Conservation Air Tour will get underway Tuesday, July 31 at 9:00 a. m. when the first plane takes off from the Greater Cincinnati Airport, near Hebron. Planes will carry passengers throughout the day over the 12-farm area.

Advance ticket sales indicate that many farmers are interested in the program and plan to take the first airplane ride to view soil conservation from the air. Planes will be operated by licensed pilots.

Nine Boone County farms have been selected for the program, with 2 from Grant and 1 in Kenton. The twelve farms are Boontuck Farms, Burlington; Surlingale Stud, Richmond; Idelwild Farm, Richmond; Doc Edwards, Union; Lassing Huey, Union; Joe Heizer, Union; Everett Flynn, Richmond; R. P. Coleman, Devon; Stewart Engles, Walton; Ira Caldwell, Crittenden; Spillman Farm, Crittenden and the Webster farm, Green Road, Kenton County.

The tour is being sponsored by Boone County Soil Conservation District in cooperation with the State Agricultural Educational Department, Division of Soil and Water Resources, State Division of Air Aeronautics, Extension Service, State Division of Game and Fish and civic organizations.

The program outlined for the day will better acquaint farmers in this section with the advantages of soil conservation.

Persons waiting their turn for the air tour will be entertained with movies which will be shown throughout the day. Pictures will include aeronautics, conservation, forestry wildlife and green pasture, it was announced.

A series of talks of five to ten-minute duration will be heard throughout the day, which will be both interesting and educational.

As an added feature for the day, farm equipment and implements of all kinds will be displayed by dealers on the grounds near the Boone County Airlines building.

Farms visited in the tour will be clearly marked in order that passengers unfamiliar with the farms from the air, will be able to spot them. The pilot will point out soil conservation practices on each farm, which will be easy to follow from the air.

Persons desiring to participate in the program are urged to come to the Greater Cincinnati Airport Tuesday, July 31, and spend the day, July 31 from 9:00 a. m. to 5:00 p. m.

Firemen Will Meet Monday, July 30th

The Burlington Volunteer Fire Department will hold its regular monthly meeting at the fire building Monday, July 30 at 8:00 p. m., it was announced Tuesday by the chief.

At this time salesmen will be present with samples of various equipment which will be purchased by the firemen.

Officials of the organization urge every fireman, and all interested persons to attend this meeting.

COMPENSATION CLAIMS ARE HANDLED QUICKLY

Frankfort, Ky.—Claims of injured workmen are being handled promptly and efficiently by the Workmen's Compensation Board, Commissioner of Industrial Relations Edwin C. Willis announced today.

During the past year 211 awards were made by the Board on contested compensation claims totaling \$839,406.67 an increase of five awards over the preceding year and an increased outlay of \$72,177.47 over the preceding year.

In addition, the Board approved 6,964 agreements and closed out cases involving compensation allowances of \$2,562,704.24. Agreements are cases in which there is no contest over liability. For the preceding year the figures were 7,032 agreements and closed out cases totalling \$2,369,451.05.

"It is worth a lot to injured workmen and insurance carriers to know that cases are decided with reasonable dispatch," said Willis. The Board, composed of Allen P. Cubbage, Leitchfield; Paul E. Hayes, Hi Hat, and J. J. Tye, Barbourville, with Fred B. Redwine, as its Secretary, "is entitled to commendation for keeping its docket current."

The Department also has launched an intensive program of enforcement of the Financial Responsibility Act under which employers of three or more persons in hazardous employment, who do not elect to operate under the Compensation Act, post the required bond to secure payment of any judgment which may be procured by an injured employee or his dependents.

In addition, Willis pointed out that substantial increases have been made in benefit allowances to injured workmen and their dependents since 1948.

BETTER PASTURE GOOD INVESTMENT

W. S. Kelly of Knob Lick in Metcalfe county says he more than got his money back the first year for the investment in better pasture production. On 11 acres, he spent less than \$50 an acre for fertilizer, bulldozing, preparing the seedbed and for fescue and Ladino clover seed. He grazed 21 cows and calves on the field, and although the season was extremely dry, more growth was made than the stock could eat, said Harlon Crenshaw, county agent.

RECORD OUTLINED BY STATE TREASURER CANDIDATE

The following contains the statement of Miss Pearl F. Runyon in her announcement as a candidate for State Treasurer:

Fellow Kentuckians:

Since October 10, 1949, I have been serving, by appointment, as your State Treasurer. At the forthcoming August and November elections, the people of Kentucky will select the person to serve as Treasurer for the next four years.

I shall need your help.

Briefly, my public service record covers fourteen years as Deputy County Clerk of Pike County, Assistant Secretary of State and State Treasurer.

The youngest of thirteen children, I learned at an early age the virtues of sharing with others, the rewards of honesty and courtesy, a firm and deep conviction in God, Country, my fellow man, and the Democratic Party. I am a member of the First Christian Church, Order of the Eastern Star, Kentucky Federation of Business and Professional Women, and Democratic Woman's Club, and the Young Democratic Club.

As a Community leader, interested in sound and efficient administration of your State Government, I ask your support of my candidacy.

Cordially,
PEARL FRANCES RUNYON

Miss Runyon has many friends in Boone County who are interested in her success as a candidate for State Treasurer.

—Friends of Miss Runyon.

The average family in Asia can get 7 miles away from home as the ultimate in travel. That's the limit of a day's trip by oxcart.

The average Asiatic gets on his knees with a sickle to harvest his crop . . . and his plow is a crude wooden tool such as our ancestors used centuries ago.

And then look at us . . . We can travel 3,000 miles across the nation in 10 hours . . . We have fine machinery to do our work . . . We have comfort, luxury, and security. Do we appreciate this Country?

CARE OF THE FEET**N. TULCH**

Foot Comfort Specialist at—
PEOPLE'S SHOE STORE
814-816 Madison, Covington

The human body is a wonderful structure of energy and beauty, and like an architectural structure, depends primarily on the strength of its foundation—the feet. The feet are the most over-worked part of the body and function under unfavorable conditions, usually resulting in (1) weakening, (2) impairment and (3) discomfort.

Facts—Ninety percent of all people in the country suffer from some kind of foot trouble, and many of them suffer all their lives without knowing the source of their ailments.

Just think, the skeleton or frame work of the human foot contains 26 bones (a person's feet contain more than one-fourth of the two hundred bones of the entire human frame). When the bones become abnormally positioned, as when the metatarsal bones or arches drop, it affects other component parts of the feet such as muscles, ligaments, tendons and nerves.

When you step on a hose it pinches it and the stream of water is stopped at the point of pressure. The same applies when a bone is pressing on the blood vessels that traverse the foot when pains are the result of this pressure they can and should be relieved.

Always remember this, painful feet interfere with one's work, discourage the exercise so vital to health, spoil life's pleasure and make a person feel miserable. One should never neglect the feet.

Never was there a truer saying, "WHEN YOUR FEET HURT, YOU HURT ALL OVER."—Adv.

FOR**COMMONWEALTH'S ATTORNEY****WHO?****Vincent - or - Heilman****BOTH ARE ABLE AND WELL QUALIFIED**

R. L. Vincent, of Williamstown, Ky., has held this office for twelve years, and now asks you the people for another term.

Harlan Heilman, City Attorney of Carrollton, Ky., now asks for the office of Commonwealth's Attorney on his merits as a practicing attorney. Since his return from the Army he has been actively engaged in the practice of law, both in the Federal Courts and Court of Appeals, as well as the local courts.

Mr. Vincent has, by advertisement, stated that public service should be rewarded. What does Mr. Vincent mean by Public Service?

During World War II, Mr. Vincent was the Commonwealth's Attorney here at home—raised his family and acquired property.

Although Mr. Heilman has never personally mentioned that he should receive any consideration as a Purple Heart Veteran, we, his friends, wish to state that during World War II Harlan Heilman was a Tank Gunner in the 8th Tank Bn., 4th Armored Div., in France, Belgium, Luxembourg, and Germany until severely wounded in combat March 18, 1945. After temporary blindness, months of suffering, and five operations for plastic surgery, he was released from the Hospital and discharged in November 1945 under physical handicaps from which he still suffers.

Despite his physical condition, Harlan Heilman commenced the practice of Law soon thereafter and has been actively engaged every since. His record as a practicing Attorney, in the Court of Appeals, the highest court in Kentucky, is a matter of record in the Kentucky Reports which are in every court house.

Harlan Heilman is thirty-eight years old, married and the father of two small children.

WHAT IS PUBLIC SERVICE? WHO DESERVES REWARDING?

WE BELIEVE THAT HARLAN HEILMAN IS NOT ONLY WELL QUALIFIED AND SUITED TO THE OFFICE OF COMMONWEALTH'S ATTORNEY—BUT IS ALSO DESERVING TO HOLD IT. WILL YOU HELP US ELECT HIM?

"You're new here"

So you'd hardly know what life on the farm used to be like. I can tell you—it was mighty hard—that is, back in the days before electricity came to the farm to take over so much of the farmer's hardest and most tedious chores."

Yes—today electricity is a "Wired-hand" that can do over 200 farm jobs* at an average wage of about 3c an hour. Do you know—tests show that 65% of a farmer's time is taken up by chores that can be done electrically. So—whatever the job—grinding feed, pumping water, sawing wood, milking cows, drying hay—your electric "wired-hand" will do it better—for less. And in the farm home, electricity provides all the conveniences and pleasant living that is possible in the most modern city home.

Electrification of America's farm homes was begun by business-managed electric companies nearly half a century ago, and has been steadily developed by them over a long period of years.

Our own Companies built their first rural electric line in 1920. That was a line to serve 85 farm and rural customers in the White Oak area. Within the next ten years we built over 1700 more miles of rural line; and in the period 1930-1950, 2300 more. So that now, our own rural lines would reach from here to Los Angeles and back again. We now supply electric service directly to 14,350 farms in Ohio, Kentucky, and Indiana. And at wholesale through the Butler County (Ohio) REA and Owen County (Kentucky) REA to about 2300 more farms. Over 99½% of all the farms, and farm and non-farm dwellings in the rural parts of our service area now have electric service.

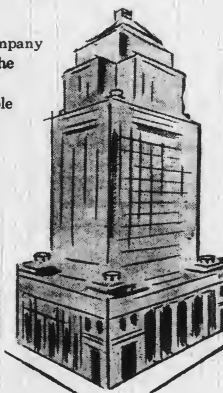

City folks have benefited through this program of farm electrification, too, through the increased farm production and improved quality of farm products that electricity on the farm has made possible.

As an integral part of its rural electrification program, your Electric Company employs a staff of rural service engineers whose job it is to help any of the Company's farm customers use electricity to do farm jobs better, easier, and more profitably. There is no charge for this service, and it is available at any time. Just mail a postcard or phone our nearest office.

*Many of these jobs that electricity can do on the farm are being demonstrated in an unusual exhibit which has been set up in the big Main Lobby of our office building at Fourth and Main Streets in Cincinnati. It will be open daily from eight to five except on Saturdays after noon and on Sundays throughout the month of August. So next time you're in town make it a point to see this big display.

This is a political ad for Kentuckians who judge a man (or a candidate) by what he DOES rather than what he PROMISES

LAWRENCE W. WETHERBY

Raised on a farm near Middletown. Son of a country doctor. Charter member Junior Agricultural Club—foreman of present 4-H Club. Has judged and exhibited at many State Fairs.

As a Lawyer with the prominent firm of Tiffard and Wetherby he was an active member of the Kentucky Bar Association. He was also a former member of State Board of Bar Examiners.

As Judge of the Jefferson County Juvenile Court he gained nationwide recognition for his humanitarian approach to the problems of youth.

As Lieutenant Governor actively supported farming development during period of Kentucky's greatest agricultural growth. Strong supporter of Rural Roads bill in 1948 (result to date: 2705 miles of new farm-to-market roads).

As Governor, in less than one year, has demonstrated experience gained during 3-year term as President Officer of State Senate. Proof of good judgment has been seen in his state and federal appointments . . . making certain that Kentuckians are served by men of exceptional ability.

His Mental Health Program is the first real attempt to cure and rehabilitate Kentucky's mentally ill with a practical view toward ultimately reducing this costly burden upon Kentucky taxpayers.

For School Teachers, he obtained additional money. Proved his initiative and leadership by calling the March Special Session of the Kentucky General Assembly. There he also made additional funds available to needy aged, blind and children.

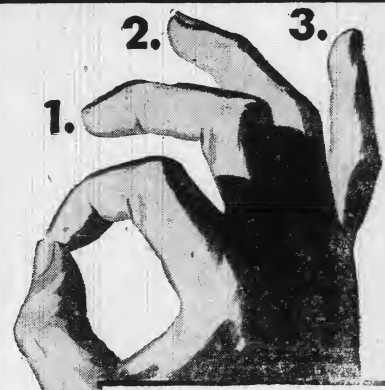

His Interest in Agriculture is active and lifelong. As Lieutenant Governor and as Governor he has proved a real fighter for farm measures.

We're specialists in renewing old machines, but we don't do so well at fixing operators who get hurt from not being careful.

Power machinery makes your farming faster, easier and more profitable. It's just good business to use a little of that time saved to take care of yourself. You need only a couple of seconds to think of safety. But it takes more time than any of us have to grow a couple of new fingers or a new foot.

STATE POLICE REPORT

TELLS OF ACTIVITIES
Frankfort, Ky.—Kentucky State Police recovered more than \$482,000 worth of property during the six-month period ending June 30 and returned it to its rightful owners, State Police Commissioner Guthrie F. Crowe, reported today.

In addition, fines totalling \$385,708.92 were paid into courts in which police served as arresting officers, and \$104,792.85 in costs were assessed.

Crowe also reported penal terms imposed—in cases in which there was state police participation—included one life term and 123 years in prison for offenders.

The police also made 16,142 traffic arrests; issued 29,493 warnings; obtained 12,419 convictions. There were 3,583 dismissals and 239 acquittals included.

BOTTLED GAS DEALERS

URGED TO GET PERMITS
Frankfort, Ky.—State Fire Marshal Wm. L. Martin today called on all unlicensed persons who are installing or servicing liquefied petro-

leum gas to obtain proper permits from his office.

Liquefied Petroleum gas inspectors for the Division of Fire Prevention and Rates were instructed by Martin to check permits of all dealers in each county in the State. A penalty of from \$100 to \$500 is provided for failure to comply with the law.

All dealers who install or service bottled gas are subject to the law, said Martin, its purpose being to require that safe practices be followed.

Martin estimated that approximately 350 dealers have obtained the necessary permits, while 100 or more have not done so up to now.

FARMERS TO INSPECT

EXPERIMENTAL CROPS
Dates have been announced for the annual visits of farmers to see crops experiments and other activities at the Western Kentucky Experiment Substation at Princeton and the main Experiment Station at Lexington.

Farmers from 30 to 35 western counties will go to Princeton Aug. 2 and 3, and farmers from the rest of the state have been invited to the Experiment Station at Lexington Aug. 9 and 10.

Numerous experiments with tobacco and other crops, including variety and fertilizer tests, will be seen at both places, as will the herds and flocks, fruit and other activities under way in the interest of higher production of all agricultural products.

Dr. Frank J. Wehler, dean of the College of Agriculture and Home Economics and director of the Experiment Station, will speak at the Princeton meeting and welcome the farmers at the Lexington program.

Speakers at Princeton also will include Dr. W. P. Garrigus, associate director and head of the Department of Animal Industry, and Dr. D. M. Seath, head of the Dairy Division.

SHORT COURSE IN

POULTRY MANAGEMENT

Practical management of flocks, judging chickens, control of diseases and testing for pullorum disease will be among subjects taught at the 27th annual poultry short course at the University of Kentucky College of Agriculture and Home Economics at Lexington, July 30-Aug. 3.

Open to all persons without charge, the course has been arranged so busy poultrymen, hatchery operators and others can obtain a lot of information in a short time.

Flock owners, hatcherymen and dealers in chickens, eggs, feeds and equipment will assist members of the college staff in the course. Also on the program will be Dr. Carl W. Hess, of Washington, a representative of the National Poultry Improvement Plan.

LEE FARMERS SAVE

SEED OF KY. FESCUE

Lee county farmers have ways of saving Ky. 31 fescue seed that bring the commendation of County Agent Hollis Henson. Their methods save money and provide seed for starting more pastures, Henson said, in citing the following methods used by J. E. C. Johnson, Beckham Fraley and Clayton and Willie Judd:

1. Cradle and tie fescue in small bundles when a small percentage of the seed heads begin to shatter.

2. Shock bundles in field to at-

low curing, or more into barn with tarp floor.

3. Beat out seed in box or on a tarpaulin.

4. Screen seed through rat wire to remove straw.

ELECTRICITY HELPS

HOUSEWORK ON FARM

That electricity is rapidly simplifying housework for farm women in Kentucky is seen in Hardin county. Of 39 farm families surveyed by Home Agent Patricia Lawson as a basis for an electrical training school for homemakers, these pieces of electric equipment were reported: 38 refrigerators, 37 stoves, 39 irons, 22 mixers and six ironers.

Other pieces the homemakers most frequently mentioned as having been: washing machines, vacuum cleaners, freezer lockers and hot water heaters, in addition to many small electric articles.

Dry Weather Causing Serious Crop Damage

Throughout Boone County, According To County Agent, Davis.

The prolonged dry weather is causing serious crop damage, according to Bill Davis, County Agent.

The tomato crop is being seriously reduced by blossom end rot which is aggravated by the dry weather particularly on thin, low phosphate land. Blossom end rot is confined to the end of the tomato and should not be confused with late blight that may cause tomatoes to rot on the end or side. To this date no late blight has been seen or reported. Continued spraying with copper is insurance against blight.

Early tobacco crops will be greatly reduced in weight unless relief from the dry weather comes in the near future. Crops are firing badly and those crops nearing maturity should be primed of lower leaves in an effort to reduce loss. While priming is a tiresome chore it will pay large dividends under such weather conditions as we are now experiencing. Primed leaves should be hung in the barn until thoroughly cured and then should be tied in hands, pressed and bulked. They should not be left in the barn after curing nor should fresh tobacco be hung under them after they are cured.

The late tobacco crop that is not yet in bloom should grow out if rain comes in the next week or so. Milk production is also being reduced by poor pastures with some dairymen reporting production losses as high as 40%. Dairymen having grass silage to feed are doing a good job of keeping production up in the cheapest possible method. For those who do not have grass silage or supplemental pastures of sudan grass the use of more grain in the ration is the next best method of keeping up production.

Hay supplies have already been greatly reduced and those livestock producers finding themselves short of hay should be locating a good supply now. Hay purchased before the hay feeding season is usually the cheapest.

Local Boy Visits Turkey With U. S. Navy

William E. Blaker, Jr., machinist mate, third class, USN, son of Mr. and Mrs. William E. Blaker, Burlington, Ky., visited Izmir, Turkey, July 23, when the light cruiser USS Worcester anchored at the Asia Minor port for a five-day call.

The most important town in Asia Minor, and a principal port of the Turkish Republic, Izmir is one of the earliest homes of the Christian Church. Many churches in the United States now bear its ancient name of Smyrna. Tours of the city enabled the crew of the ship to see many Roman ruins that dot Izmir.

Illinois Man Held After Confessing Part In Union Holdup

Arrested Near Napoleon After Tip From Warsaw Physician.

Andrew Doyle, 49, of Paxton, Ill., was arrested Wednesday night of last week by Sheriff Wendell Easton and State Trooper Robert Murphy near Napoleon, Gallatin County on a charge of armed robbery and shooting with intent to kill.

Doyle was charged with the hold-up and shooting of Melvin Townsend, who operated a filling station on U. S. 42 near Union Saturday, July 21.

Sheriff Easton stated that the gun which was wrested from the grip of the bandit led to his arrest. After spending sometime tracing the gun, it was learned by Sheriff Easton that the pistol had been purchased from a firm in Newport. The Sheriff then worked on the theory that the bandit was still in the local area.

When the gun was purchased in Newport, Doyle did not give his Illinois address, but that of a brother-in-law in Covington. Calling at the address of the brother-in-law, it was learned that Doyle was absent.

Sheriff Easton was tipped off to the whereabouts of Doyle by a Warsaw physician who treated the man for wounds he had received in the fight with his victim. Doyle surrendered without a struggle at the home of a relative.

Covington detectives, Konerman and Al Schlichte, praised the detective work of Sheriff Easton which led to the capture of the gunman. They aided the Sheriff in tracing to Newport the gun used in the shooting.

Sheriff Easton reported that a wide search is being made for another man who Doyle said, planned the robbery and was parked in an automobile 400 feet from the station at the time it took place.

Following the death of Mr. Townsend, rising indignation over the holdup and shooting, led to the transfer of Doyle to Newport jail for safe keeping.

Commonwealth Attorney R. L. Vining said that he would ask for the death penalty for Doyle, when he is arraigned in Boone Circuit Court.

Expecting A Baby?

If so, you should by all means read this sensational book—"HAVING A BABY EASILY," by Margaret Brady, M. Sc.

This book, printed and widely distributed in England, is one of the most wonderful books on this subject ever written.

Among other things, it deals with (1) nutrition for the baby-to-be; (2) athletic training to prepare for childbirth; (3) a positive physiological approach to motherhood.

Physicians in England frequently recommend this book to prospective mothers who want easy childbirth and a healthy baby.

Dr. Irene E. Barbasch, 2 West Pike St., Covington, Ky., phone AX 0746, is the sole United States importer and agent for this vitally interesting book.—Adv.

-FOR- COMMONWEALTH'S ATTORNEY VOTE FOR HARLAN HEILMAN HERE IS WHY!

R. L. Vincent, of Williamstown, Ky., after twelve years in this office, now asks you the people for another term.

Harlan Heilman, City Attorney of Carrollton, Ky., now asks for this office on his proven ability and merits as a practicing Attorney. Since his return from the Army he has been actively engaged in the practice of Law, both in the Federal Courts and Court of Appeals, as well as the local courts.

Mr. Vincent has, by advertisement, stated that public service should be rewarded. WHAT DOES MR. VINCENT MEAN BY PUBLIC SERVICE?

During World War II, Mr. Vincent was the Commonwealth's Attorney here at home—raised his family, here at home, and acquired property.

Although Harlan Heilman has never personally mentioned that he should receive any consideration as a Purple Heart Veteran, we, his friends, wish to state that during World War II Harlan Heilman was a Tank Gunner in the 8th Tank Bn., 4th Armored Div., in France, Belgium, Luxembourg, and Germany until severely wounded in action March 18, 1945. After temporary blindness, months of suffering and five operations for plastic surgery, he was released from the Hospital and discharged in November 1945 under physical handicaps from which he still suffers.

Despite his physical condition, Harlan Heilman commenced the practice of Law soon thereafter and has been actively engaged ever since. His record as a practicing Attorney, in the Court of Appeals of Kentucky, the highest Court in Kentucky, will show that he has a 100% record by winning every case. This is a matter of record in the Kentucky Reports which are in every court house.

R. L. Vincent refuses to mention his personal record as a practicing Attorney, but contents himself with comparing political records. Mr. Vincent advertises the fact that Harlan Heilman was defeated in a race for County Attorney of Carroll County. Did he tell you all the facts? Mr. Heilman had been in Carroll County for little more than a year at the time and ran against a man who held a public office for twenty-eight years and was defeated by less than 200 votes. The following year the City Council of Carrollton, Ky., appointed Harlan Heilman as their City Attorney. Why? Men in public office, like the City Council, wanted a man of ability and integrity, not just another politician.

Harlan Heilman is thirty-eight years old, married and the father of a six-year-old boy and three-year-old girl.

WHAT IS PUBLIC SERVICE? WHO DESERVES REWARDING?

WE BELIEVE THAT HARLAN HEILMAN IS NOT ONLY WELL QUALIFIED AND SUITED TO THE OFFICE OF COMMONWEALTH'S ATTORNEY, BUT IS ALSO DESERVING TO HOLD IT. GIVE A YOUNG MAN A CHANCE—HELP US ELECT HIM.

—By friends of Harlan Heilman in Boone County

Your Savings Grow Faster

When They Are Earning Dividends!

Our business is relatively simple. We do two main jobs—accept money for savings on which we pay dividends, and loan money on homes at reasonable interest rates . . . for purchase or repair. By confining our efforts to these jobs we operate more economically and we pass these economies along to our investors in higher dividends and every account is insured up to \$10,000.00. We'd like to help YOU accumulate your money faster . . . why not come in and open a savings account.

The courts have the power of life and death over you and your property. You need an experienced and dependable official as Commonwealth's Attorney. Our courts are the guardians of our lives, our liberty and our property and as long as we have an able, conscientious, fearless and untrammelled Commonwealth's Attorney, all that is near and dear to us will be properly safeguarded. Hence it is of the utmost importance to you, the people, to see that the Commonwealth's Attorney, who is nominated Saturday, August 4, has these qualifications.

YOU CAN'T FOOL THE HOME FOLKS

In every race that R. L. (Ray) Vincent has made for public office his home people in Grant County, among whom he lives and the people who know him best, have given him an overwhelmingly majority—Home folks know you best.

Two years ago R. L. (Ray) Vincent's opponent asked his home people of Carroll County to nominate him for County Attorney, the people among whom he lives, and the people who know him best refused to nominate him for that office. Home folks know you best. In face of this defeat by his people for a minor office, he has the audacity to ask the people of five counties to nominate him for the powerful office of Commonwealth's Attorney. Considering the fact his home people would not trust him with a County office, it is easily understood why R. L. (Ray) Vincent's opponent has spent a large part of his time campaigning in Boone, the county the farthest from his home.

YOU CAN'T FOOL THE HOME FOLKS

R. L. (Ray) Vincent offered his service to his country during the war, but he was rejected from Military Service by reason of impairment of his eyesight. However, he had a son who served in the armed forces, and he had a son-in-law who served three years overseas and who is still in. R. L. (Ray) Vincent has prepared all the claims, taken all the appeals and assisted the Veterans in every way possible and has made no charge. Ask any Veteran in Grant County.

R. L. (Ray) Vincent rendered valuable civilian service to the Government during the war and President Franklin D. Roosevelt, Commander-in-Chief, awarded R. L. (Ray) Vincent a citation which says in part, "The President of the United States of America has awarded this certificate of appreciation to Raymond Vincent in grateful recognition of uncompensated services patriotically rendered his country." Signed Franklin D. Roosevelt. President Harry Truman, Commander-in-Chief awarded him the Congressional Medal which says in part, "Awarded in the name of the Congress of the United States for faithful and loyal service."

CAST YOUR VOTE ON QUALIFICATIONS AND NOT SYMPATHY

Vote for R. L. (Ray) Vincent. He is experienced, capable, courteous, and dependable.

This ad. was paid for by the fair minded Veteran friends of R. L. (Ray) Vincent in Boone County, who realize that qualification for Commonwealth's Attorney is more important than sympathy.

REWARD AN HONEST AND FAITHFUL PUBLIC SERVANT

Saturday, August 4th, you will choose a Commonwealth's Attorney for six years. This is an important and powerful office. Our courts have the power of life and death over you, and your property. You now have a clean, independent and business like court, help us keep it that way.

No doubt, you realize that the Commonwealth Attorney is a very important official. He is the protection you have for your family and your property against the criminal element that would destroy your family, your home, and your property unless restrained therefrom by the enforcement of the laws of the State of Kentucky. You need an experienced and dependable official in this powerful office.

The Circuit Judge and R. L. (Ray) Vincent have worked together harmoniously for many years, they have saved the taxpayers money by releasing the Jurors and Witnesses when they were not needed, they have conducted the court in a business like way, with dignity and efficiency. The Circuit Judge has already been renominated. Go to the polls August 4th, and renominate R. L. (Ray) Vincent for Commonwealth's Attorney.

THE FUTURE OF THE COURTS IS IN YOUR HANDS. KEEP OUR COURTS CLEAN. REWARD AN HONEST, FAITHFUL AND COURTEOUS PUBLIC SERVANT.

Vote for R. L. (Ray) Vincent for Commonwealth's Attorney Saturday, August 4.

This ad. was paid for by the friends of R. L. (Ray) Vincent in Boone County, who believe in the honesty and independence of our courts.

OPEN AIR SERVICES CONTINUE TO ATTRACT INTEREST AND ATTENDANCE

Judging by the large attendance and the many expressions of commendation and appreciation of the way the subject was handled, the subject last week at the open air services held at Rabbit Hash had a wide appeal.

The subject for next Friday night will be: "Is There a Heaven? If so, Where and What Is It?" It will be discussed in the same way as the sermon on hell. A scriptural, scientific and philosophical discussion of something most people believe in but know little about.

The fine service of music rendered by the choir of the Bellevue Church of Christ was greatly appreciated. They will return Friday, August 10th.

It is expected that these services will continue through August.

CARD OF THANKS

Even though our hearts are heavily laden with sorrow and grief, we wish to express our sincere appreciation and heartfelt thanks for all the kindness shown to us in the recent loss of our dear mother

Mrs. Arlie Akin. Especially do we wish to thank Rev. R. A. Johnson for his consoling words; the soloist, Mrs. Dorothy Ryle; and organist, Mrs. Helen Clure; the pallbearers for their services and the Chambers and Grubbs funeral home for their sympathetic arrangement during our bereavement.

We also appreciate the tribute shown by the beautiful floral offering, the cards and the many friends who called and expressed sympathy.

OPS Sees Growing Pressure On Prices

Although high taxes and credit controls will tend to hold down expansion of consumer buying, defense spending, rising income and exhausted inventories will operate to produce shortages, rising prices and the familiar price-income-price spiral of inflation. These are the conclusions reached by economists of the Office of Price Stabilization from consumer studies, states Ben Stoner, Director of the Cincinnati district OPS office for 21 counties.

"While there is some feeling among consumers and industry that because prices have softened decontrols could be effected," Stoner reports, "all indications are that the condition is only temporary and that by late fall or early winter inflationary pressures will be felt. For the past several months consumer buying and business buying for inventory have been temporarily depressed below normal levels, in part a reflection of the over-buying which took place last fall and winter."

"However," the district director said, "studies by our economists show that we cannot expect this consumer withdrawal from the market to go on indefinitely. Over a longer period, consumer buying tends to move closely with consumer income, and consumer income is bound to rise as employment stays high and wages increase."

Walton Man Named To Farmers' Home Committee For Co.

Is Well Fitted For Assignment, Says Samuel T. Harrison, Supervisor.

John R. Worthington, Walton was appointed this week to the Farmers' Home Administration committee for Boone County, Samuel T. Harrison, local supervisor for the agency, said Thursday. The appointment was made by Earl Mayhew, Lexington, State Director.

The new committeeman is a farmer and long-time resident of Boone County. His experience in developing a successful family-type farm, estate loan, fits him well for his new assignment in aiding other farmers to do the same. He will serve three years.

Harrison explained that all applications for Farmers' Home Administration credit must be approved by the county committee before loans can be made. When a real estate loan is being considered to buy, enlarge or develop a farm to improve housing and farm buildings, the committee also determines how much the farm is worth as security for the loan.

Advice of the committeemen is sought on good farm management and on the refinancing of Farmers' Home Administration loans when borrowers build up enough equity in their property to get credit from local banks or other lenders, Harrison said. Farmers who can get private or cooperative credit are not eligible for loans from the agency, he said.

Mr. Worthington succeeds Lamar Cline, whose three-year term expired June 30. Members who continue to serve are Nathan I. Clements and Bert Loomis, of Burlington.

Harrison said a new committee chairman to serve through next June will be selected at the August meeting.

William Chris Kearns

Funeral services were held at 2 p. m. Wednesday at the Taffero funeral home, Erlanger, for William Chris Kearns, 37, bookkeeper, formerly of Union, Ky., who was found hanging in the basement of his home, 2917 Erie Ave., early Monday. Burial was in Union Cemetery.

Kearns was found by his mother, Mrs. Kathryn McGee Kearns, with whom he made his home, and a sister, Miss Margaret Kearns, after they had returned home from a week-end trip. He was an employee of the A. J. Sontag Co., of Cincinnati.

Police reported he had looped an insurance and his belt around a water pipe and his neck, and had stepped from an 18-inch high box. Near his body was found a magazine opened to an article titled, "I Watched a Man Hang."

He was last seen alive early Friday morning, and it was believed death occurred Saturday.

Besides his mother and sister, he is survived by three daughters, Coreylou, Nell, Chris and Ann Kearns, all of Cincinnati, and a brother, George Kearns, of Union.

Mrs. Florence Smith, Mrs. Effie Fible and Mrs. Margaret Ralston were visitors of Mrs. Howard Lizer last week.

Heilman Winner In Commonwealth Attorney's Race
Harlan Heilman, Carrollton city attorney, won the race against R. L. Vincent, Williamstown, for Commonwealth Attorney of the 15th Judicial District, composed of Grant, Carroll, Gallatin, Boone and Owen Counties.

Pork Loin Prices Up To Match Higher Hog Prices

Increases of 3 to 9 Cents Per Pound Issued By OPS.

Dollar-and-cents ceiling prices that will mean increases of 3 to 9 cents a pound in the cost of pork loins have been issued by the Office of Price Stabilization in order to offset the cost of processors and sellers of substantial increases in the cost of live hogs since last January, the Cincinnati District OPS office advises.

The higher ceiling price affects pork loins weighing 16 pounds or less and will affect retail prices of roasts and chops. The prices replace those frozen at seasonally low levels by the General Ceiling Price Regulation issued last January. The new interim regulation, which was immediately effective, sets a maximum ceiling price of 52 cents a pound for regular pork loins weighing 16 pounds or less delivered in Chicago to the buyer by a seller who slaughters hogs or cuts the loin from a dressed hog he bought.

For pricing purposes the country is divided into six zones and actual ceilings in various areas will reflect specified transportation cost additions. The district OPS office said the ceilings will be effective pending establishment of uniform dollar-and-cents ceilings for pork products.

CARD OF THANKS

This is to sincerely thank the many fine citizens of Boone County for the support given me as a candidate for the State Legislature in the primary election last Saturday.

Needless to say, I was much disappointed when the Gallatin County results indicated that I had lost. However, there is much personal satisfaction in receiving the overwhelming majority of votes in my home town, as well as the community where my opponent was born and reared. That, plus the fine support in the remainder of Boone County, created a majority for me in our home county. I hold no grudge for any individual or group that saw fit to support my opponent.

I congratulate Mr. Rouse on his victory and offer my wholehearted support if I can be of any assistance to him at any time.

Sincerely,

R. M. (COKE) HALL.

"I figure electricity saved these two"

The lives of countless thousands of baby pigs have been saved by electric pig brooders. An average of one or two per litter, according to tests made by one of the big agricultural schools. If you figure a pig at weaning time as representing about 240 pounds of feed fed to the sow you'll have a good idea of the value of an electric pig brooder that is inexpensive to buy or build, and that costs mighty little to use.

Pig brooding is just one of over 200* jobs that electricity can do on the farm. Tests show that 65% of a farmer's time is taken up by chores that can be done electrically. Whatever the farm job—grinding feed—pumping water—sawing wood—milking cows—drying hay and grain—your electric "Wired-hand" will do it better—for less.

And in the farm home, electricity provides all the convenience and pleasant living that is possible in the most modern city home.

THE FARM ELECTRIFICATION JOB IS DONE, HERE

The work of bringing low cost electricity to all the farms in the area served by our Companies, The Cincinnati Gas & Electric Company and The Union Light, Heat and Power Company, has been completed. Over 99 1/2% of all the farms and farm and non-farm dwellings in the rural sections of our service area now have electric service. And even the few who do not now use electric service have it available whenever they want it. We now supply electric service to over 14,350 farms in Ohio, Kentucky and Indiana; and at wholesale through the Butler County (Ohio) REA and Owen County (Kentucky) REA to about 2300 more farms.

Nationally, a comparable job has been accomplished. For that reason the week of August 26 has been declared as National Farm Electrification week.

SEE THIS BIG FARM SHOW...

* Many of these jobs that electricity can do on the farm are being demonstrated in an unusual exhibit which has been arranged in the big main lobby of our office building at Fourth and Main Streets in Cincinnati. This exhibit, which is part of our observation of National Farm Electrification Week, will be open daily from eight to five except on Saturdays after noon and except on Sundays throughout the rest of the month of August. So, next time you're in town make it a point to see this big display.

BURLINGTON, KENTUCKY THURSDAY, AUGUST 16, 1951

NUMBER 4

Boone County Fair Expected To Attract Entries From Surrounding Counties Due To Increased Premiums

Noted Judge Procured For Horse Shows; Entries In Dairy Show Will Reach All-Time High, According To Officials.

The Boone County 4-H and Utopia Fair, scheduled for Friday and Saturday, August 17 and 18th, at the fairgrounds, Burlington, is expected to attract many entries from surrounding counties, due to the increase in premiums, it was announced Tuesday by Bill Davis, County Agent.

Entries in the dairy shows will probably reach an all-time high as dairymen from Campbell and Carroll Counties have entered their show herds. All cattle classes except the 4-H class are open to the world this year. Each herd class will offer over \$100 in premiums.

Fair officials were extremely fortunate in obtaining the services of one of the outstanding judges in the country for the horse shows which have been scheduled Friday and Saturday nights. Mrs. Cleona Brooks, Versailles, Ky., publisher of "The American Horseman," will judge the show.

The securing of Mrs. Brooks as judge of the show and the increase of premiums is expected to draw excellent entries for this event.

Boone County 4-H, Utopia and Homemakers members are urged to bring exhibits and compete for premiums.

Extensive plans have been made by fair officials to make this year's event one of the most entertaining in the history of the organization. The Brown Novelty Co., of Cincinnati will furnish rides for everyone. A merry-go-round, ferris wheel, swing and kiddie rides will be on the grounds. Entertainment is also planned for the adults throughout the two-day affair.

The fair is sponsored by the Boone County Utopia Club. The club is the first rural youth club of its kind organized in the United States Extension Service.

Activities scheduled Friday are as follows: 9:00-12:00 Registration of all exhibits, judging all home economics, garden, fruit, field crops, poultry, tobacco, corn, 4-H secretary books, hogs and sheep.

3:00 p. m. Feed sack dress revue. 2:30-4:30 Team pulling contest. 8:00 p. m.—Horse show.

Saturday 10:00 a. m.—Livestock judging, sheep.

1:00 p. m.—Baby show, (winners announced at 3:00 p. m.)

1:30 p. m.—Dairy Show.

2:30 p. m.—4-H Style revue.

8:30 p. m.—Horse and pony show.

Among special events to be held

Bullittsburg Plains Vacation Bible School

Vacation Bible School will be held at Bullittsburg Baptist Church August 20 through August 24, with graduation exercises scheduled Friday night, August 24 at 8:00 p. m.

Classes will be held from 1:00 to 4:00 p. m. All boys and girls ages 3 to 18 years are invited to attend.

Squirrel Season Opens August 20 In State, Is Word

Bag and Possession Limits Remain Same As Last Year.

Kentucky's squirrel season will open on August 20 and continue through November 5, the Kentucky Game and Fish Commission has announced. The season this year is the same as for the previous one and the bag and possession limits also are unchanged, with six for one day or a possession limit of 12 after two or more days of hunting.

The Division of Game and Fish reports that the squirrel population for the state as a whole may not be as great this season as for last year. It points out that in the mountainous areas of eastern Kentucky the prospects are excellent, while in other areas the outlook is spotty.

This is explained, the division says, by the severe cold and the short food crop of last winter. Conservation officers, in some sections, reported during the winter that dead squirrels were found frozen, probably due to the severe cold.

In some sections of Western Kentucky good hunting is expected, while in other areas the squirrel crop probably will be smaller than for the past season.

Friday, are rolling pin throwing contest, wet penny contest, hog calling, penny race, marble contest, and prize awarded to oldest person at fair.

Special events for Saturday include slipper kicking contest, bubble blowing contest, hog calling, best animal imitator, novelty musical number, and prize to oldest person at fair.

The baby show will be a feature of the program Saturday at 1:30 p. m. Only babies and their exhibitors will be admitted to the judging booth, it was announced.

Grants Lick Maintains Top Spot By Defeating Newport Steelers.

The winners held the losers without a hit until the sixth inning. Whitey Brown led the Bob and Gene team with two hits while Bauman had one for one and Bussman hit a triple for the winners.

Several of other league games are as follows:

Laying Of Masonic Cornerstone Held Monday Evening

E. E. Freshney Grand Master Presided During Ceremony.

The cornerstone of the new Burlington Masonic Hall was laid Monday evening in a most impressive ceremony under the supervision of Edwin E. Freshney, Park Hills, Covington, Grand Master of Masons in Kentucky.

Assisting Mr. Freshney and acting as proxies for the regular Grand Lodge officers were: W. Robert Ellis, Deputy Grand Master; Dudley I. Rouse, Grand Senior Warden; Howard Lizer, Grand Junior Warden; Ernest Ruppert, Grand Treasurer and Raymond Combs, Grand Marshal.

After convening in regular session, the lodge marched to the new location led by Robert Bowling, Grand Sword bearer, followed by Lamar Congleton bearing the Great Light in Masonry, the Holy Bible, flanked by Clarence Wolfe and Eliza Poston, Grand Stewards. Alvin F. Clore, Gerald Clore, and Albert W. Weaver, bearing the elements of consecration, the corn, wine, and oil, in silver vessels, followed immediately behind the Great Light. Grand Master Freshney was escorted by Ray Frost and Herman McClure, Acting Grand Deacons. Rev. Roy A. Johnson, pastor of the Burlington Baptist Church acted as Grand Chaplain.

The ceremony was made doubly impressive when Mr. John Huntington sang "Bless This House, O Lord We Pray," accompanied by her husband, Rev. John Huntington, pastor of the Bellevue Church of Christ.

After the cornerstone was found to be thoroughly square, level and plumb, it was lowered in place by Noel Linton, architect of the building, assisted by Frank Maurer, superintendent of construction.

After the prayer of consecration, and while Mrs. Huntington sang "America, the Beautiful," Thomas Hensley dropped beautiful flowers over the site.

The ceremony was well attended by members and friends of the Masonic fraternity. Grand Master Freshney praised the members of the Burlington Masonic Lodge for their energy and foresight in constructing an edifice that will be a real credit to the town of Burlington and the State of Kentucky.

The bride wore an ankle-length dress of white imported chantilly lace with long sleeves and a fitted bodice. Her finger tip veil fell from a circular satin halo headpiece. She carried a bouquet of orchid and white roses.

The groom's sister, Miss Jean Rouse Baker was bridesmaid. She wore an ankle-length, orchid or-gandy dress, with white eyelet embroidery, having a low neckline and small cap sleeves. She carried a bouquet of yellow roses.

Mr. Billy Ray Markesbery was best man. Ushers were Messrs. Randall Rouse and Harold Victor Markesbery.

The soloist for the occasion was Mr. Donald Maeger. Miss Ruth McKibben was organist.

The bride chose for her going away dress, one of dark blue sheer with full pleated skirt, a matching hat of navy and white with blue veiling.

They left by plane for Daytona Beach, Fla., where they expect to spend a week.

Mr. Baker is a sergeant in the Marine Corps and is stationed at Camp Lejeune, N. C. He will return to service after the two remaining weeks in his leave. Mrs. Baker is employed with the Western Southern Insurance Company.

THANKS

I wish to express my appreciation for the vote cast in my behalf in the recent primary election. Though it was not a large majority, I am sure that each vote was the heartfelt desire of the voter, that I represent the people of Boone and Gallatin Counties in the State Legislature.

I wish to thank Mr. Hall for conducting a clean campaign, giving each voter the right to vote without any pressure being placed upon them to control their vote.

I am now a servant of all the people of Boone and Gallatin Counties, and it is my desire that anyone having suggestions, present them to me. I will give thoughtful consideration to any suggestion made by the people of these two fine counties.

A servant of the people,

JOE ROUSE.

A COMPLIMENT

A customer of ours, who had moved here from another section of the State not long ago, made the statement to us that he had never done business with a bank that provided its customers with so much free service as we offer and that he did not understand how we could afford to do it.

In checking with banks in other sections of the State we find that this customer's statement is correct.

It has always been our purpose and desire to render the best service possible, consistent with sound and safe banking. We welcome your account.

Expecting A Baby?

If so, you should by all means read this sensational book—"HAVING A BABY EASILY," by Margaret Brady, M. Sc.

This book, printed and widely distributed in England, is one of the most wonderful books on this subject ever written.

Among other things, it deals with (1) nutrition for the baby-to-be; (2) athletic training to prepare for childbirth; (3) a positive psychological approach to motherhood. Physicians in England frequently recommend this book to prospective mothers who want easy childbirth and a healthy baby.

Dr. Irene E. Barbasch, 2 West Pike St., Covington, Ky., phone AX 0746, is the sole United States importer and agent for this vitally interesting book.—Adv.

Steel mills and foundries need scrap metal badly, especially heavy cast iron such as old tractors, mowers, etc. It will pay you to do one of three things, now, with every old farm machine:

1. Fix it up and use it.
2. Sell it to a neighbor who needs it worse than you do.
3. Sell it to a commercial scrap dealer who will break it up and classify the metal for shipment to a waiting mill or foundry.

Scrap collection has become a man-size job ... with mill requirements totaling 75,000 tons each day to give the nation finished steel we all need. It can't be done without farm scrap.

Ira Dixon Found "Not Guilty" On Murder Charge

In Boone Circuit Court Tuesday; Doyle Case Now Under Way.

"Not guilty" was the verdict of the jury trying the case of Ira Dixon, 60, Walton, charged with the slaying of his wife Amelia, 52, at their home on December 12, 1950.

O. M. Rogers, attorney for the defense, contended that the prosecution's case was based solely on circumstantial evidence, and that, in addition, the prosecution had failed to prove a motive. The defense insisted throughout the trial that Mrs. Dixon had killed herself. A government firearms expert testified late Monday afternoon that, in his opinion, the pistol was fired not more than an inch from her body.

R. L. Vincent, Commonwealth's attorney, contended that there had been a scuffle between Dixon and his wife, and that Amelia Dixon had been shot during this scuffle, once through her hand between the thumb and forefinger, and once in the abdomen. He pleaded with the jury to weigh the evidence very carefully.

The jury, after deliberating 40 minutes returned to the courtroom to obtain clarification on the manner of rendering a verdict. Five minutes later the "not guilty" verdict was returned.

The case of the Commonwealth of Kentucky vs. John Judd, charged with detaining a woman against her will and Jack O'Banion charged with having carnal knowledge of an infant under 18 years of age, scheduled for Tuesday of this week, was postponed when O'Banion failed to appear. His bond was ordered forfeited by Judge Yager and a bench warrant issued for his arrest.

Andrew Doyle, of Paxton, Ill., indicted on a charge of armed robbery and murder was arraigned in Judge Ward Yager's court Wednesday, and the trial is in progress as we go to press Wednesday morning.

Doyle is charged with the murder of Melvin Townsend, Union filling station operator, who was shot by Doyle when he resisted a holdup attempt at his station.

Mrs. Gladys Geabren, operator of the Spinning Wheel Tavern, Covington, identified Doyle as the man who shot her in the hip and robbed of \$350 in a hold July 24, 1950. When questioned concerning the incident, by Sheriff Easton, Doyle admitted the Spinning Wheel holdup and shooting of Mrs. Geabren.

R. M. Hall Files Petition For Vote Recount In District

No Date Set By Circuit Judge Ward Yeager For Recount.

R. M. Hall, Walton, defeated candidate for Representative from Boone and Gallatin Counties filed a petition in the 15th Judicial District seeking a recount in the district and contesting the election in two Gallatin County voting precincts. Mr. Hall, defeated in the August primary was opposed by Joe Rouse, Verona, who was declared the winner by 41 votes.

In his petition Mr. Hall charges that in Napoleon No. 3 precinct, "election officers absented themselves during lunch time between 12 noon and one o'clock, and that the polls were closed between 3 and 4 p. m., thereby depriving qualified Democratic voters of the opportunity of voting for an additional one hour.

He further alleges "that numerous voters (exact number unknown) appeared during these periods and were unable to cast their votes."

Mr. Hall's petition further alleged that in the Glencoe precinct the election officers permitted persons to distribute cards in favor of his opponent less than 50 feet away from the polling place, and that election officers permitted persons other than voters to congregate in the voting rooms and to discuss the candidacy of Mr. Rouse.

No date has been set for the recount by Judge Ward Yeager.

Hebron Couple Are Robbed By Masked Bandit Near Airport

While Watching Group Of Planes Take Off From Runway.

Harold R. Williams and his wife Bertha, of Hebron, were victims of a holdup man near the Greater Cincinnati Airport early Sunday morning, when they stopped along the highway to watch a group of planes take off from the runways.

Mr. and Mrs. Williams had just left the airport and were enroute home when they stopped at the northwest end of the airfield to watch the planes. They had been parked only a few minutes when the bandit crept up beside the car, pulled the door open and pointed a pistol at Mr. Williams.

The bandit demanded Mr. Williams' billfold, and after removing the money from it, took Mrs. Williams purse as well. The bandit told the couple to turn their heads. When they did so he slammed the door and fled.

Loot obtained by the bandit was estimated at \$62 in cash, according to Mr. Williams.

Williams told Sheriff Easton that he jumped from the car and pursued the bandit, but lost sight of him in the darkness.

Sheriff Easton, Deputy Sheriff Byron Kinman, and State Troopers Murphy and Lucas searched the area until daylight but found no track of the bandit. Assistance of farmers and several bloodhounds also proved futile.

Another couple parked near the same spot late Saturday night stated that a man approached their car, but they were able to drive away before the man could reach the vehicle.

Motorists have been warned by both State and county officials to refrain from parking in this area due to several holdups. Several months ago this section near the airport was the scene of many reported holdups, by a bandit who operated in the same manner as the one who robbed the Williams couple.

Occupational Licenses Checked By Revenue Dept.

A state-wide check on compliance of operators of vending machines and business which require occupational licenses is being made by field representatives of the Kentucky Department of Revenue, Nelson Perry, Director of the Field Division, announced in Frankfort. Licenses should have been obtained before July 1, or before new machines or businesses are placed in operation, according to Perry.

Co-operated amusement or music vending machines require an annual \$10 license stamp to be attached permanently to each machine. Licenses may be obtained at the department's Frankfort office, or at any district office.

Occupational license taxes cover restaurants, billiard and pool tables, bowling alleys, theaters, cigarette wholesalers, and the sale of soft drinks, ice cream, and tobacco products by retailers. These licenses are obtained from county clerks.

NO RAIN PREDICTED FOR STATE FAIR OPENING PARADE

Louisville, Ky.—"It won't rain for the opening parade of the 1951 Kentucky State Fair at 12:00 noon September 7," predicts L. Doc Cassidy, Director of Special Events for the Fair.

Cassidy admits he is not a weather prophet but in 33 years he has conducted parades he has never had a parade "rained out." Last year on opening day of the Fair it rained in the morning and it poured in the afternoon but it stopped during the parade at noon, Cassidy says.

Colonel J. B. Wathen III, Kentucky Wing Commander for the Civil Air Patrol has been named Grand Marshal for this year's big State Fair Opening Parade, Cassidy announced. W. Arthur Sorrell will be the Assistant Parade Marshal. Listed as Deputy Marshals are Staff Sergeant Hamilton S. Drane, U. S. M. C., Chief Petty Officer Paul Camplin, U. S. N., James Gallard, Charles Farmer and Eddie Logsdon.

The parade will form in the vicinity of Ballard's Mill, East Broadway at 11:00 a. m. and will move off promptly at 12:00 noon. It will pro-

ceed West on Broadway to Cecil Avenue and South on Cecil to the Fairgrounds where Governor Lawrence W. Wetherby will officially open the 1951 Kentucky State Fair.

CIVIL SERVICE EXAMS

The United States Civil Service Sixth Regional Office emphasized today its need for, and the opportunities available for executive personnel in such positions as:

Economist, Account and Auditor, Personnel Officer, Training Officer, Position Classifier, Placement Officer, Organization and Methods Examiner.

Examinations for this type of position because of the shortage of qualified persons are open to the public on a continuous basis. Any Secretary, Civil Service Board of Examiners, First or Second Class Post Office, can furnish details on the method of filing for these examinations and the detailed qualification requirements.

The Commission points to the many advantages of Civil Service positions, the opportunities for gaining valuable experience, as well as the need for filling positions of his kind during the national emergency.

Probation Officer Reports Services Paid By Parolees**In Taxes, Saving State Taxpayers Thousands Of Dollars.**

Allen Wilson, State probation officer for Boone, Carroll, Gallatin, Grant and Owen counties, reports that his services did not cost the taxpayers a cent the last fiscal year.

Citing statistics issued in Frankfort by Darrell B. Hancock, director of the Division of Probation and Parole, Wilson says it works this way:

He had an average of twenty prisoners who were paroled from State prisons under his supervision during the fiscal year ending July 1, 1950 and ending June 30, 1951. They earned approximately \$30,000 during the same period, and paid

State and Federal taxes totalling over \$8,000.

During the same time, Wilson also supervised an average of seven men who had been granted probation following their convictions in circuit court for felonies committed in the five counties. They earned \$10,500 and paid nearly \$3,000 in taxes.

Wilson pointed out that if these men had been kept in prison instead of being granted probation or parole, the taxpayers would have paid \$10,800 just to keep them imprisoned at LaGrange or Eddyville. He also noted that they would not have earned anything, and in many cases their families would have been dependent upon charity or state relief rolls.

The rate of success for both probationers and parolees in the five counties which make up the fifteenth judicial district was very high, according to records in the Frankfort office. Only five parolees were returned to prison as parole violators and three probationers were committed to prison.

Seven Hundred Attend Verona Ranch Lake Show

Last Sunday the Jimmie Skinner show at Verona Lake Ranch attracted 700 patrons and many other visitors out for a pleasant drive over Route 16. According to Bill Scroggin, operator of Verona Lake Ranch, top guest honors go to our neighbors around Independence who had twenty-six in one group to see and hear this popular radio star.

This Sunday's program is full of radio and television talent featuring the Pleasant Valley Boys of WLW, Jerry Bird, steel guitar specialist; Zeke Turner, better known as "Winkie" and the Bell County banjo picker, Red Turner. Rome Johnson, Guy Blakeman and their Ranch Hands plus the Criswell Sisters heard at Renfro Valley and two of the best old time square dance teams in the land make up one of the best shows that probably could be assembled for such a small admission price of 60c for adults and 30c for children. The Boone Counties under the leadership of Clarence Fields take pride in presenting the five Caldwell sisters. This team has already made a fine name in past performances and was a close second at the State Fair last year. Hubert Ryan and his Verona Lake Ranch Hoedowners have made rapid strides this summer, since they were organized in July of this year an have been popular ever since. To watch these two fine teams in action is worth the price of admission and Bill Scroggin predicts a bright future for them in show business.

Two full shows are presented each Sunday at 2:00 p. m. and 4:00 p. m. in the outdoor theater under the shade of giant trees and plans are under way to present a full 30-minute program of Gospel singing which will probably be announced at a later date for one of the future shows. No intoxicating drinks are sold at any time on the grounds, only soft drinks, sandwiches, popcorn, candy, etc. Verona Lake Ranch's slogan is "A good clean show for good clean people."

Expecting A Baby?

If so, you should by all means read this sensational book—"HAVING A BABY EASILY," by Margaret Brady, M. Sc.

This book, printed and widely distributed in England, is one of the most wonderful books on this subject ever written.

Among other things, it deals with (1) nutrition for the baby-to-be; (2) athletic training to prepare for childbirth; (3) a positive psychological approach to motherhood.

Physicians in England frequently recommend this book to prospective mothers who want easy childbirth and a healthy baby.

Dr. Irene E. Barbasch, 2 West Pike St., Covington, Ky., phone AX 0746, is the sole United States importer and agent for this vitally interesting book.—Adv.

Boone County Schools Will Open Tuesday, Sept. 4th

Improvement Projects In Three Schools Still Under Construction.

All Boone County schools will open Tuesday, September 4th, it was announced Tuesday by H. N. Ockerman, county superintendent. The schools of Bellevue, Petersburg and Constance, due to construction work, on the buildings, will open, but will be limited as to space. It is hoped that enough classroom space will be available to carry on school work. Mr. Ockerman said. The lunchroom at Bellevue and Petersburg will not be completed, and children will be required to bring their lunch until the cafeterias are finished. Constance cafeteria will be open. It is requested by the board of education that parents impress upon their children to keep clear of construction work at these buildings when in school and especially avoid walking or running on loose boards.

The school system is short of desks, but sufficient quantities have been ordered to supply the need of all schools, but due to the shortage of steel, orders have been delayed. Several new teachers have been added to the system for the school year. Mr. Ockerman reported. Among those added to faculty of various schools are: Rachel Bryant, of Jellico, Tenn., who will be in the intermediate grades at Constance; H. P. Baker, a former teacher of the Walton school system; Wanda Beckley and Eloise Roberts, of Pleasantville, will serve at the New Haven School; Norman Perkins, a graduate of Georgetown College and Mrs. H. G. Beil, a former teacher of the Erlanger schools, will be at Burlington.

Sheep Protective Association Will Hold Meeting Sat.

Claims For 1951 Will Be Paid At Meeting, Says President.

The Boone County Sheep Protective Association will meet at the courthouse Saturday, September 1 at 1:30 p. m., according to H. E. White, president. All members of the association are asked to be present as important business will be discussed. Heavy losses of the few sheep insured may necessitate a closing of the insurance program in 1952. Members will be asked to vote on this piece of business. Claims for 1951 will be paid at this meeting, according to Mr. White.

Mr. and Mrs. George Porter spent several days last week with Mr. and Mrs. Marvin Rouse Porter, of Louisville.

Local Agricultural Agencies Discussed At Meeting Friday

Five Agencies Now Operating In Boone County.

Fifty representative Boone County farmers met Friday, August 25 at the Hebron Consolidated School to discuss the functions of the five agencies of the U. S. Department of Agriculture now operating in the county. This meeting was one of a series being held throughout the nation at the request of Charles Brannan, Secretary of Agriculture. Those taking part in the discussions were Sam Harrison, Williams town, District Supervisor of the Farmers' Home Administration; Floyd Kells, Boone County soil conservationist; William E. Davis, Boone County Agent; Joseph A. Huey, County Chairman of the Boone County Production Marketing Administration; and James G. Smith, office manager of the same organization. Only 33 per cent of Boone County farmers, it was pointed out, had signed up in the soil-conservation program because many were under the mistaken impression that only "rich" farm operators could afford to embark on a soil-conservation program.

Water Available To Local Citizens For Domestic Purposes

At Dam 38; River Water Pumped For Stock Purposes.

R. D. Frost, Lockmaster of Dam 38, announced this week that water for domestic purposes will be available to persons in Boone County during the present drought. This announcement was made following a brief shut down on the water supply at the reservation.

Mr. Frost said that he had been authorized to help supply water needs for homes throughout this section during the present emergency, but no water from the wells will be allowed to persons hauling for stock purposes. He stated, however, that persons needing stock water will also be supplied with water from the river. Farmers with tanks, needing water for stock should contact an employee of the dam upon arriving at the reservation. Mr. Frost stated.

Lockmasters have written orders to use their own discretion in allowing free use of water. A government engineer at Dam 38 was said to have found a trucker asleep in the cab of his truck as precious water flowed out of a tank because of an open valve.

Persons throughout this section are warned to use their water supply sparingly, as it is not known how long the dam will be able to supply the heavy demand.

Fifty Fruit Trees Destroyed By Grass Fire Saturday

Damage Estimated At \$3500; Other Property Threatened By Blaze.

Fifty fruit trees, 4 grape arbors and 14 stands of bees were destroyed by fire Saturday at the William Walker farm on U. S. 25, three miles from Florence. Damage was estimated at \$3,500.00.

It was believed that sparks from a passing locomotive ignited dry grass along the right-of-way of the railroad, which spread to the field of Mr. Walker's farm. Approximately 10 acres of grass was burned.

The Florence Volunteer Fire Department was summoned, and the blaze was soon brought under control.

Dorman's Cabins, adjoining the Walker farm were threatened by the grass fire, it was reported.

Burlington Fire Dept. Makes Two Runs Saturday

The Burlington Volunteer Fire Department made two runs Saturday afternoon, when called to the home of Mr. and Mrs. Donald Kirkpatrick to extinguish a grass fire and the Chandler farm on Burlington-Bullittsville road to extinguish a grass fire.

The fire at the home of Kirkpatrick was quickly extinguished, while the fire at the Chandler farm had gained more headway and required approximately 30 minutes to bring under control. Little damage was reported from either fire.

Illinois Man Given Life Sentence On Shooting Charge

After Pleading Guilty Before All Male Jury In Boone Circuit Court.

Andrew Doyle, 50, of Paxton, Ill., was sentenced to life imprisonment Wednesday morning by a jury in Boone Circuit Court after entering a plea of guilty on a charge of murdering Melvin Townsend, 63, operator of a service station on U. S. 42 near New Haven School, last July 21.

The all-male jury deliberated one hour before bringing in the verdict. County Attorney Wm. McEvoy immediately went on record to the effect that he never will approve a pardon for the convicted slayer.

Doyle was arrested July 25 near Warsaw by Sheriff Wendell Easton. He signed a confession at that time that he shot Mr. Townsend while attempting to rob the elderly man in his roadside stand.

In Doyle's confession, he stated he had conspired with Aubrey Beach, 28, Covington, to stage the holdup. Beach still is being sought by FBI agents for the return to Boone county for trial.

Beach was named with Doyle in indictments returned by the August session of the Boone County grand jury charging each with murder and armed robbery.

Mrs. Gladys Gerbrun, Kenton County, safe operator identified Doyle as the man who shot her in the hip during a holdup which netted the assailant \$350. This robbery was reported to have occurred in July 1950.

The August term of Boone Circuit Court adjourned Wednesday afternoon.

Spillway Will Be Reconstructed At Local Fair Grounds

Work Will Be Started On Demonstration Thursday, August 30th.

Reconstruction of the spillway on the fair grounds lake will be started Thursday morning, August 30 and continue through Friday, August 31. The work will be under the supervision of Earl Welch, Extension engineer from the College of Agriculture and Home Economics, of the Portland Cement Co.

The extreme degree of slope on the spillway floor has resulted in excessive erosion and damage to the outlet. A Missouri type concrete flume will be installed to drop the water to a natural bed and thus prevent heavy flushing by water running in the spillway bed.

Farmers having similar problems with spillways are invited to drop by the fair grounds on either date and examine the procedure and the finished flume.

A MIGHTY HANDY TRACTOR in the HAY FIELD

...the JOHN DEERE MODEL "MT"

You just couldn't ask for a handier tractor for hayfield operations than a John Deere Model "MT." It's so simple to understand, so convenient to operate, so easy to maneuver; even an inexperienced operator is able to do a first-class job of mowing or raking. But haying isn't all. With its wide variety of Quik-Tatch working tools, a Model "MT" will keep busy on your farm the year around. Ask us for complete details soon.

SMART COLORS

INDIVIDUALIZE YOUR HOME

You can't make a small home larger without structural alterations, but you can make it look bigger, and much better, with color. Light colors make a house appear larger; dark colors make it appear smaller.

Bad architectural features can be minimized and good features emphasized by using color correctly.

Let us advise you regarding proper colors for your home.

Expecting A Baby?

If so, you should by all means read this sensational book—"HAVING A BABY EASILY," by Margaret Brady, M. Sc.

This book, printed and widely distributed in England, is one of the most wonderful books on this subject ever written.

Among other things, it deals with (1) nutrition for the baby-to-be; (2) athletic training to prepare for childbirth; (3) a positive physiological approach to motherhood.

Physicians in England frequently recommend this book to prospective mothers who want easy childbirth and a healthy baby.

Dr. Irene E. Barbasch, 2 West Pike St., Covington, Ky., phone AX 0746, is the sole United States importer and agent for this vitally interesting book.—Adv.

Rain Will Benefit Pastures And Late Crops In County

Showers Cover All Sections of County, According To Reports.

Rain which fell throughout the day Monday will be of some benefit to late crops and pastures in this area, it was believed.

The rain which fell throughout the day was the nearest a general rain this section of the state has experienced in many weeks. The showers reached into nearly all sections of Kentucky and ranged up to more than an inch.

The rain came as a life saver to parched pastures throughout Boone County. Tobacco crops will benefit very little from the rainfall, it was believed.

Rainfall in the southern section of the county was reported much heavier than in the northern area. Water supplies for both domestic and stock purposes were replenished in the southern section of the county, while in the northern part the showers were of less consequence.

Although the showers were very beneficial to pasture fields, more rain is needed to continue the growth of legumes sufficient to pasture stock.

Many farmers have shipped stock to market, due to the pasture outlook in this section, caused by the drouth.

Four Covington Boys Arrested After Ransacking Home Of George Howe

A quantity of articles, including two flashlights and a pocketbook containing \$3 was recovered. Several valuable papers were destroyed.

The youths were held in Burlington jail Tuesday night, and turned over to Robert Aldemeyer, Kenton County Juvenile Officer, Wednesday.

New Selective Service Regulations To Be Given Boards

In Near Future; New Provisions Are Outlined By Headquarters.

The new Selective Service regulations, incorporating the provisions of the Universal Military Training and Service Act, as amended, probably will be in the hands of local boards in the immediate future. National Headquarters is presently clearing these regulations for approval by the President. Every effort is being made to speed up this time-consuming process so that the regulations may be mailed to local boards at the earliest possible date.

National Headquarters is working out the details of the program whereby conscientious objectors will perform 24 months of work contributing to the maintenance of the national health, safety, or interest. The new regulations covering conscientious objectors will, therefore, probably be received later than the other new regulations.

Some of the main provisions of the new act which will be put in the form of regulations are:

1. The Selective Service System is continued indefinitely but authority to induct men into the Armed Forces has been extended only to July 1, 1955.

2. Age of liability for training and service in the Armed Forces, 18 years 6 months to 26 years (formerly 19 to 26).

3. All registrants between 18 and 26 are liable for immediate classification and examination as to availability for service.

4. Period of active service for those inducted under the 1948 act as well as the new act, 24 months, with a maximum 8 years' obligation for combined active duty and subsequent reserve obligation. (Formerly 21 months, 6 years reserve obligation.)

5. The definition of veterans is the same as in the 1948 act and those meeting the requirements are exempt, married or single.

6. Aliens admitted for permanent residence in the United States are liable. Any temporarily admitted, if they remain in this country over 1 year, become generally liable. The alien's right to relief from liability upon application (after which he is debarred from becoming a citizen of the United States) is now limited to aliens admitted in a status other than for permanent residence.

Farmers Have Nine Days To Recommend Program Changes

Report by County Must Be Made By September 15.

Only nine days remain for Boone County farmers to suggest changes they would like to have made in the policies and programs of the U. S. Department of Agriculture if they wish their views included in the nationwide Family Farm Policy Review.

The report of the County Agricultural Mobilization Committee must be made to the State organization by September 15, according to Joseph A. Huey, PMA chairman and chairman of the mobilization group.

The County Agricultural Mobilization Committee would like to include the views of all farmers and others interested in progress in rural communities in its report, regardless of what those views may be, Mr. Huey said.

Mr. Huey urges that everyone interested in improving the Department's service to family farmers speak up at county and community meetings or call or write to the members of the mobilization committee.

"We are particularly interested in getting the views of the younger farmers, homemakers, and rural leaders in the communities," Mr. Huey said. "Future policies of the Department will affect these young people more than most of us, so they have a greater stake in the result of this survey."

Similar surveys are being conducted in all Kentucky counties and in all states. County reports, containing all recommendations made about Department programs and services, will be incorporated in a report which the Kentucky State Agricultural Mobilization Committee will submit to the Secretary of Agriculture later this fall.

Local Dance Team Will Enter State Fair Contest

Fields and his dancers have won twelve first prizes in contest throughout the state, and are expected to give all comers a run for their money at the State Fair.

Members of the team are Clarence Fields, the four Caldwell sisters, Lamar Markesbery, Herbert "Jigs" Scudder and Elmer Duddy.

Four Walton Residents Injured In Collision

Four Walton residents suffered injuries in an automobile accident Saturday at the intersection of Ky. 16 and Sugar Creek Road, near Walton, according to reports.

Those injured in the accident were David Bensler, R. I. Walton, lip cut; his wife, Mrs. Betty Bensler, severe scalp cut; Mrs. Edna Collins, 23, cut right eye and knee injuries, and her eight-month-old son Larry Collins, face cuts.

Mr. Bensler and the small boy were treated at St. Elizabeth Hospital, while the two women were treated at Booth Hospital.

Quail and Rabbit Season Will Open November 20th

Will Close January 10; Bag Limit To Remain Same As Last Year.

Kentucky's quail and rabbit hunting season will open on November 20 and continue through January 10, the Game and Fish Commission voted at a meeting held last week in the offices of Earl Wallace, Director of the Division of Game and Fish. Those dates are the same as for last year and the bag limits also were left unchanged. Quail hunters may kill 10 a day with a possession limit of 20 after two or more days of hunting. Again the daily bag limit for rabbits will be eight with a possession limit of 16 after the second day of hunting.

The grouse or native pheasant hunting dates again open on November 20 and continue through December 15 with a bag limit of two or a possession limit of four. Hunting and trapping seasons dates for mink, muskrat, opossum, skunk, red fox and raccoon will be from December 1 through January 31, both dates inclusive, during which the animals may be taken with guns, traps, dogs, etc.

In addition a training season during which these animals may be taken with dogs only is provided from Nov. 1 through Nov. 30. The Commission explained that it is impossible to extend the period in which the furbearers may be taken with guns, traps, etc., for more than 60 days since the statutes limit the taking of these animals to a 60-period in one season.

Regulations for waterfowl hunting are made by the U. S. Fish and Wildlife Service and have not yet been announced.

The dove season opens on Sept. 15 and continues through Oct. 14, with a bag and possession limit of eight. This is a reduction from 10 of last year, brought about by the decline in the dove population in Kentucky and other states this year.

The decline, wildlife biologists claim, is a result of the severe cold weather of last winter and a disease that killed off a great number of doves. Dove shooting will begin at 12 o'clock noon, Central Standard Time, and continues until sunset, CST. The regulations point out that doves may not be taken directly or indirectly by means, aid or use of shells, shucked or unshucked corn, salt or other feed that has been deposited, distributed, or scattered so as to constitute for such birds a lure, attraction or enticement to, on or over areas where hunting is attempted to take them.

However, the regulations continue, such birds may be taken over properly shucked corn or standing crops of corn, wheat or other grain or food, and grains found scattered solely as a result of normal agricultural harvesting.

The federal regulations continue that no person shall take doves with ball ammunition, such as rifles, revolvers, etc., and that all shotguns must be plugged to hold not more than three shells in the magazine and chamber combined. All dove law violations are subject to prosecution in Federal Court, it is pointed out. Further information can be obtained from the Fish and Wildlife Service, Washington, D. C., or the Division of Game and Fish, Frankfort, Ky.

Sheepmen Decide To Continue Sheep Protective Program

Rates For 1951-52 Will Be Twenty-Five Cents Per Head On Grade Sheep

Members of the Boone County Sheep Protective Association met at the courthouse Saturday afternoon, September 1 and decided to continue sheep protective insurance at increased rates.

Rates for 1951-52 will be twenty-five cents per head for grade sheep. Registered sheep may be insured at fifty cents per head. Owners who insure registered sheep at fifty cents will be paid double the regular amount for losses.

Death losses will be paid at the following rates: Yearlings, 2 and 3 years old \$8.00; 4 year olds and solid mouth, \$6.00; broken mouth or cull, \$2.00; lambs over 65 pounds, \$6.00; lambs under 65 pounds \$5.00. Increased insurance rates were necessitated by heavy losses this year which resulted in a percentage payment on claims. It is hoped that the increased rates will enable full payment next year.

Officers elected for 1951-52 are as follows: President, H. E. White; vice president, Cloyd Kennedy; secretary and treasurer, Allan White. Directors: Charles B. Beall, Hebron; Allan White, Petersburg; John T. Stephens, Carlton; Beckham Shields, Beaver; Walter Ferguson, Union; Walter Johnson, Verona and Cloyd Kennedy, Walton.

Figures received from the various schools in the county indicate that enrollment will be slightly above that of last year, Mr. Ockerman reported.

Many of the schools are short of desks, but enough have been ordered to supply the demand. Shortage of steel has delayed filling of orders for desks, Mr. Ockerman added.

Six-Man Football Season Will Open Friday, Sept. 7th

Florence and Hebron Tangle In Opener At Burlington Field.

The curtain goes up on Northern Kentucky Six-Man Football Conference activity Friday night, September 7, when Coach Duncan Huey's Florence Knights go against Hebron's Cardinals at the Burlington field at 8:00 o'clock. On the next night Burlington's Conference champion Eagles play host to Bill McAllister and his New Haven Tigers. Dry Ridge and Crittenden, the other two Conference teams, will not begin their seasons until Sept. 21st.

According to Conference coaches and officials the entire conference will be stronger this year than in the past and it now appears a wide open race for the championship. Hebron's Cardinals who last year finished in second spot appear geared high for the 1951 campaign. Coach Ransler has a number of vets returning plus some fast running and hard hitting newcomers. The Knights who are handicapped by a small squad, both in size and numbers, will have several experienced men returning plus a few promising beginners.

New Haven, like Florence, is suffering from manpower shortage though they do have several two-year men in their lineup. They also lost heavy through injuries and transfer of students.

Coach George Maines will have seven returning lettermen but will be without the services of last year's co-captains and star backs Bobby Walton and Jim Ryle and regular center Sonny Combs. He is placing his hopes on such veterans as Gayle Rouse, Ray Holbrook, Ronnie Jones, Jerry Lustenberg, Ray Deck and several others plus Jerry Ryle, a reserve lineman of last year, who is fast developing into a promising quarterback. Coach Maines and others who have watched practice can't seem to say enough good things about Ryle's work.

Reports from Grant county indicate that both Dry Ridge and Crittenden will be much stronger this season and that the Rigers may be the real Conference darkhorse. The complete 1951 schedule follows:

State Fairgrounds Will Be Filled To Capacity, Is Word

More Than 8,000 Entries Made By 4-H and Future Farmers Groups.

State Fairgrounds facilities will be filled to capacity according to the number of entries pouring in, J. Dan Baldwin, manager, says, making the 1951 Kentucky State Fair, September 7-15, the biggest yet.

August 25 was closing date for entries in most departments. Entry dates are still open for Horticulture, Plants and Flowers, 4-H Clubs and Future Farmers exhibitors.

8,000 4-H and F. F. A. Entries More than 8,000 entries have come in from 4-H and Future Farmers organizations and will continue to pour in until the last County Fair is held, according to Mrs. Jack Herberman, Supervisor of exhibits. This is double last year's entries, she says. There are 2500 entries in the Woman's Department. Other entries include 600 leading show horses for the Horse Show; 317 beef cattle; 26 steers; 558 dairy cattle; 389 swine; 233 sheep; 42 goats and 93 mules and jacks.

Barns Filled To Capacity Barns, sheds and tents will be overflowing for the first two days due to the tremendous number of entries for the Junior Division of the Fair. After their special show the Junior Division livestock will move out allowing ample room for the housing, showing and judging of other livestock.

The Merchants and Manufacturers Building, in addition to its many commercial and industrial exhibits and an exhibit from all of the major colleges and universities of the State, will include exhibits from 21 Kentucky Counties, according to John Koon, Superintendent of County exhibits.

50,000 Daily Attendance Expected State Fair officials anticipate a daily attendance at the 9-day celebration of 50,000 or more. This is based on the widespread interest in this year's Fair, especially among youth and educational organizations, the large number of entries in all departments, the special grandstand and midway attractions, free attractions in the Relaxation Center, and the daily special events of statewide interest.

William P. McEvoy Will Serve As County Chairman.

It was announced this week that William P. McEvoy, County Attorney, will be the chairman for the Crusade for Freedom in Boone County which opened September 3 and continues through September 30th. Mr. McEvoy requests that each and every citizen enroll in the 1951 Crusade for Freedom in order that free peoples can help fight Communism.

The Crusade for Freedom is the American people's challenge to world Communism. It offers each one of us, as individual citizens, the opportunity to strike a blow for freedom—to add our voice to the voices of truth piercing the Iron Curtain. It says to the Communists: "You tell your lies and we'll tell the Truth, and the Truth will win." Every day, hour after hour, the hard-hitting transmitters of Radio Free Europe pierce the Iron Curtain, sending hope to the enslaved peoples . . . spiking Communist lies with the truth . . . and undermining the influence of the Red rulers.

It is requested that all civic organizations and veteran organizations cooperate in this drive in order that it shall be a success in the fight to overthrow Communism. All donations or contributions can be given to your local representative or mailed to the County Chairman.

W. S. C. S. HOLD MEETING
The Women's Society of Christian
service of the Burlington Methodist

Church met Tuesday, August 21 in
the home of Mrs. John B. Walton.
After the business part of the

meeting the program began with
the reading of the 67th Psalm and
the singing of "Wonderful Words
of Life."

Since our society was started late
in the year, we tried to cover as
much of our program material as
possible. In this meeting we studied
"Pearl of the Orient Seas, The Phil-
ippines," and "The Last for Which
the First Was Made," a discussion
of old age and the way in which
we as individual Christians or as
a church can help older people.

Our meetings are helpful and en-
joyable and we'd like more of our
church members and friends to
join us.

Watch this paper for place and
date of next meeting.

Nancy Nicholson, of Edgewood, spent the week-end with Miss Charlotte Benson.

Geo. P. Nicholson, of Walton, spent Tuesday with his daughter, Mrs. C. D. Benson and family.

Maxin Edwin Ryle, stationed at Langley Field, U. S. Air Base, spent a few days this week with his parents, Dr. and Mrs. K. W. Ryle.

Now that your child is in school—is he or she at the peak of fitness for the ordeal?

A famous book, "Children's Health and Happiness," by Margaret Brady, M. Sc., will help to make your child fit in every way—physical, mental and spiritual.

Mrs. Brady is the mother of three wonderful children, and her book is practical. It has wide popularity in Great Britain, where it was published.

This wonderful book treats of everything a mother should know to enable her children to meet with the greatest possible success in school and in their adult years.

"Children's Health and Happiness" is a companion volume to the previously advertised "Having A Baby." Prompted by the very generous reception given this book, I am encouraged to offer "Children's Health and Happiness," at the same price, \$2.75.

The Department of Agriculture has put up \$6,000 for premiums at the show. It will be held in cooperation with the Bourbon Stock yards, which is providing a place for the event.

Ford said that a similar show at Princeton has been postponed from Sept. 29 to Oct. 4. The State will give \$500 in premiums at the Princeton show.

Farm Bureau Directors Will Meet September 6

Directors of the Boone County Farm Bureau will hold their monthly meeting at the county office on Thursday, September 6, at 8:00 p. m. It was announced this week.

Plans are being made to add Blue Shield, which is the surgical part of Blue Cross hospitalization, so that both features will be available to Farm Bureau members.

A representative of the Blue Cross office will be in the county on Thursday afternoon working with a representative of the local Farm Bureau in the interest of this new service. It is necessary that a majority of the directors in the county be in favor of the plan before it can be made available.

Tuesday, September 11th is designated as Farm Bureau day at the Kentucky State Fair and all Farm Bureau members are urged to attend on that day. A number of large prizes are to be given away to Farm Bureau members. The county having the largest number of Farm Bureau members in attendance will be given a cash prize. It is necessary to register in order to be eligible for the county award.

Hebron Cardinals And Eagle Squads Win Season Openers

Impressive Performance Given By Hebron Cards; New Haven Stronger.

Hebron's Cardinals and the defending champion Burlington Eagles began their 1951 Northern Kentucky 6-Man Football Conference season with easy victories last week end in a pair of games at the Burlington field.

Coach Chuck Ransler's Big Red outfit looked impressive in their one-sided 66 to 6 win over a small, inexperienced but game Florence Knight team. Especially outstanding for the Hebron Six was the play of the entire line and the running of Zeigler and the passing of Purcell. Coach Ransler's entire team, though making the usual early season mistakes, gave evidence of being "the team to beat" for the 1951 Conference crown.

Burlington defeated New Haven's Tigers Saturday night by a score of 40 to 13. The Tigers, though losing, appear headed for a good season. They were very aggressive and gave evidence of moulting into New Haven's best Six-Man team. Coach Mainer's Eagle team didn't display the power of former Eagles teams, but neither the coach nor team seem too alarmed over their initial showing. Both pointed out that the team was still experimenting and trying new boys. Ray Deck was the brightest spot in the Eagle backfield.

This Week

Games this week pit the Eagles against Florence at Burlington on Friday night and New Haven against Hebron at Burlington on Saturday night. Dry Ridge and Crittenden will not open until next week.

Social Security Card Is "Key To Your Future"

Are you a winner, or a loser? Do you gamble with your future?

According to information released by Elbert M. Bohon, manager of the Covington, Kentucky office of the Social Security Administration, close to 100 million social security cards have been issued since December, 1936. Where's yours? Better look it up if you haven't seen it for awhile. That little card is the "key to your future" and can mean much to you and your family if taken care of properly.

The winner in this game is the fellow who periodically asks the Social Security Administration for a record of his wages to be sure they have been reported, tells his family about the social security program, and where to go should anything happen to him. The loser is the fellow who works without giving the boss a record of his social security number, or who jumps around from job to job, not bothering to see if his wages are reported properly.

Remember, the two times for action are (1) When you are 65 years old, visit the nearest Social Security office to protect your retirement benefits, and (2) Instruct your family to make immediate inquiry about survivors benefits should you die at any age and have worked on jobs covered by the social security program. A personal visit, a telephone call or a postal card to any office of the Social Security Administration at either of the above two "times for action" may mean dollars to you or your family.

Pat Scott To Appear With Girls Baseball Team In Covington

Two Games Scheduled At Covington Park Over Week-End.

Announcement came today that two All-Star teams of the American Girls Baseball League will perform in Covington on Saturday and Sunday. These two teams of All-Stars will be under the management of Max Carey, former star of the Pittsburgh Pirates and now manager of the Fort Wayne entry in the Girls League. Pat Scott, daughter of Mr. and Mrs. Wilfred Scott, of Burlington will appear in the lineup.

Girls baseball, as played in the American Girls League, is one of the fastest and most entertaining of the various forms of baseball or softball that have been displayed throughout the nation in the past years. The girls play with a ten-inch baseball that is rather lively and their pitching distance is from 55' 6". All pitching is of the overhand variety and the girls are very adept in throwing various assortments of curves, change-ups and what have you. Other than the size of the baseball, the pitching distance and the slightly shorter base paths, the game of girls baseball is played just the same as men's baseball, with the game being governed by the major league rule book.

The American Girls League is a circuit of eight teams in the middle-west and each year these teams play a nightly schedule of 112 games. The 1951 season opened on May 20th and closed Labor Day with the annual playoff games following. As for the players in the league, the girls are recruited from all over the United States as well as Canada and Cuba. A typical roster of the league teams is the Fort Wayne team which has players from twelve different states as well as two girls from Havana Cuba and one girl from Tyndall, Manitoba, Canada. One of the All-Star teams appearing in Covington will be comprised of practically the entire Fort Wayne team which finished in second position in the 1951 season.

The girl who will attract most of the attention in Covington will be Pat Scott, Burlington girl, who made her debut in the American Girls League this season. Pat will be remembered by fans in this area for her excellent softball twirling. She was invited for a tryout by Max Carey during their spring training session and she immediately won herself a position on the Fort Wayne team. During the early stages of the schedule, Pat was used sparingly on the mound, however, she worked herself into a regular starting role and she ended the season with a 15-7 record, a mighty fine record for a first year pitcher in the toughest competition in the nation.

Pat converted over to the overhand pitching style in veteran-like fashion and her main forte is her unerring control and her ability to throw the fast ones through the strike zone.

After the completion of her first year in organized girls baseball, Pat has been marked as one of the coming star moundsmen by Max Carey as well as all of the other managers of the league. Fans in this area will be assured of seeing Pat in action when the teams square away in their two-game set at Covington on Saturday and Sunday.

Other star feminine performers under the wing of Max Carey are Alma Zeigler, Dottie Schroeder and Betty Foss and many others from various sections of the United States.

Arrangements are being made to handle the largest crowds ever to witness any baseball games in the Covington Park and this stellar attraction of major league girls baseball should bring all baseball fans in the northern Kentucky area into the Covington Park.

Two ribbons were received by the contestants, one for the best square dancing and team and one for the grand championship team.

Verona and Hebron Advance To Finals In Saturday League

Florence and Burlington Eliminated In Games Saturday.

Verona and Hebron advanced to the finals of the Saturday Afternoon Baseball League elimination play by scoring victories in last week's games. These two teams will play a "two-out-of-three" series beginning this Saturday, September 15th. All games will be played at the Florence park with game time being 2:30 p. m.

Hebron had an easy time as they eliminated Florence by the score of 7 to 2. D. Deck on the hill for Hebron gave up only two hits, while his mates collected 10 off the serves of Markesbery.

Verona had to go 12 innings to gain a 2 to 1 victory over Burlington in a game that was a thriller all the way. Check Ryan hurled for the winners and Joe Smith went the distance for Burlington. Both pitchers were in excellent form as each team had six scattered hits and strikeouts were numerous.

J. Grubbs had two safeties for Verona with one of them being the game-ending blow in the twelfth inning. McBee and Jim Smith each had two hits for the losers.

FARM LUMBER, HOME LABOR, BUILD HOUSE

The Ernest Clevinger family in Rowan county has reason to be proud of the new home that is nearing completion, says UK Farm Agent Adrian M. Razor. Most of the lumber was cut on the farm, and Mr. Clevinger and his son have done most of the building.

The house is modern in every respect, with complete water system and central heating. Mr. Clevinger did all the mason work, plumbing and building of kitchen cabinets and then made a large part of the furniture. An outstanding feature, notes Razor, is the natural cedar mantel installed in the living room.

HELPERS' CIRCLE MEET

The August meeting of the Helpers Circle was held at Hebron Lutheran Church on August 22 with Mrs. Robert Graves as leader. Subject of the lesson was "A Glimpse Into Liberia."

Twenty-one members were present. The lesson period was followed by a business meeting presided over by Mrs. Henry Anderson.

Refreshments and a pleasant social hour concluded the evening.

All women members of the church are urged to attend these meetings and friends are invited at all times. Remember the things from which we receive the most lasting good are those things we share with others. Missionary work is our way of sharing the faith and love we have for our Saviour Jesus Christ.

CARD OF THANKS

I would like to try and express my thanks and appreciation to those who visited with me at the hospital and at my home and to those who sent flowers, cards and handkerchiefs each time I was in the hospital in May and again in August. They were deeply appreciated. I also wish to thank the visiting ministers, Rev. Patton, Rev. Young, Rev. Brooks, Rev. Waincott and my pastor Rev. Roy Johnson. Those sweet words of prayer meant so much to me. I want to thank Dr. Yelton and Dr. Shank for their kind attention.

May God's richest blessings be with each one is my prayer. It
